City Administrator's Budget Message

INTRODUCTION

Executive Summary

In accordance with the City Charter, I am pleased to present the adopted budget for fiscal year 2011. We have once again developed a one-year budget rather than the traditional *two-year* financial plan due to the continued uncertainty created by the current economic crisis.

The nation is still suffering through the longterm effects of the worst recession since the Great Depression. The City first observed the impacts to its key tax revenues in 2008 as transient occupancy and sales tax revenues

declined for the first time since the recession of 2002. Consequently, a total of \$10.8 million in adjustments were included in the fiscal year 2010 budget to offset both revenue declines and increasing costs in the General Fund. Unfortunately, revenues continued their decline beyond those built into the fiscal year 2010 adopted budget.

The adopted budget addressed a budget shortfall for fiscal year 2011 of approximately \$8.9 million. To address this shortfall, the budget includes approximately \$4.9 million in spending reductions and revenue enhancements. The reductions include the elimination of 32 full-time equivalent (FTE) positions. These employee reductions are in addition to the 37.09 FTE's that were eliminated in Fiscal Year 2010. This represents an overall reduction of 10% of General Fund employees in two years.

The remaining shortfall of approximately \$4 million will be made up through negotiated wage and benefit concessions from the City's labor unions.

Financial Highlights

The fiscal year 2011 adopted budget is comprised of all City funds, including the General Fund, special revenue funds, enterprise funds and internal service funds. Each fund accounts for distinct and uniquely funded operations. The adopted budget includes a total combined operating budget of \$246.9 million and a combined capital budget totaling \$26.8 million. The adopted budget is summarized in the table below by fund type.

City Administrator's Budget Message

The General Fund, the primary and largest individual fund in the City, is comprised of six operating and three administrative departments. The adopted General

Fund operating budget totals \$101.6 million and includes an additional \$758,170 for capital expenditures.

Special revenue funds account for restricted revenues and have a combined adopted operating budget of \$34.5 million and a combined capital budget of almost \$10.9 million. This category of funds includes the Redevelopment Agency, which is a separate legal entity created to eliminate blight and provide low and moderate income housing in the community.

Enterprise funds, on a combined basis, make up approximately one-third of the City budget. They consist of six distinct operations funded from user fees and charges. Enterprise operations are managed and operated much like private sector businesses. They require a significant investment in plant, equipment, and infrastructure to deliver services. Their operating budgets total \$94.5 million, and have a capital budget of nearly \$13.5 million.

Internal service funds provide services exclusively to other city operations, including building maintenance, information systems, vehicle maintenance and replacement, and insurance. Their adopted budget includes an operating budget of approximately \$16.2 million and a \$1.7 million capital program budget.

DEFINING THE PROBLEM

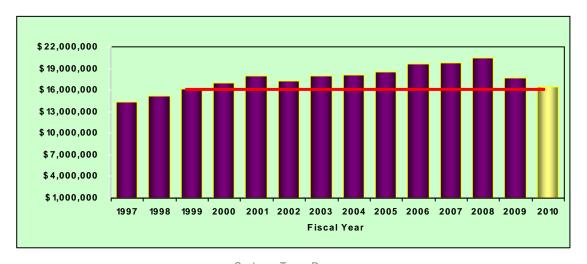

Economic Perspective of General Fund Revenues

While there are some signs indicating that the economy is recovering, the impacts on City operations of what has been termed the "Great Recession," will be felt for many years. The recession has lowered baseline revenues that will be available to fund General Fund programs and services, including public safety, library, recreation, parks, building, planning, and general administration.

City Administrator's Budget Message

One of the most dramatic impacts of the recession has been the decline in retail sales tax revenues. The chart below presents a fourteen-year summary of sales tax revenues. After generally positive growth from 1997 through 2008, sales tax revenues fell by 10.6% in fiscal year 2009. This was the single largest decline of any General Fund tax revenue going back as far as records are available. In fiscal year 2010, sales taxes are anticipated to fall an additional 6.5%. As indicated by the red line in the chart, General Fund sales tax revenues lost eleven years of growth in just two years.

Sales Tax Revenues Fourteen Year Summary

While sales tax revenues have declined the most, virtually all General Fund revenues have been impacted by the economic downturn. The table below summarizes total General Fund revenues for fiscal years 2009, 2010 and 2011, including the cumulative change during that period.

In fiscal year 2010, budgeted revenues were lowered by \$4.8 million in comparison to the prior year. Due to the continued deterioration of the economy, total fiscal year 2010 General Fund revenue estimates were lowered to \$99.2 million, an additional decline of \$5.4 million.

City Administrator's Budget Message

In the fiscal year 2011 adopted budget, revenues are essentially level, except for an additional \$2.3 million in anticipated savings from negotiated labor concessions. However, in just three fiscal years, the overall decline of General Fund revenues totals nearly \$7.4 million.

Other Factors Contributing to Budget Shortfall

Although declining revenues were a key factor in creating the City's budget shortfall, two other factors contribute to the problem: increasing labor costs and the one-time measures implemented in fiscal year 2010 that do not carry over into fiscal year 2011.

With respect to labor costs, the City entered into contracts with several of our employee unions before the severity of the economic recession became apparent. These multi-year agreements include increases to wages and benefits in fiscal years 2010 and 2011. The impact of these scheduled wage and benefit increases total \$2.3 million in fiscal year 2011.

In balancing the fiscal year 2010 budget, one-time measures totaling \$3.3 million were included to minimize impacts on services and to avoid employee layoffs. While these measures, such as unpaid furloughs, were helpful in minimizing cuts to services and staff, they were one-year solutions only. *New* measures are implemented in fiscal year 2011 to replace these one time adjustments in order to address the overall budget shortfall.

Other City Services Impacted by the Economic Downturn

In addition to the services funded in the General Fund, the City also provides *other* important services. These services are accounted for in separate enterprise funds, special revenue funds, and internal service funds. These services have also been affected to varying degrees by the declining economy.

City Administrator's Budget Message

For example, the City's municipal golf course saw the number of golf rounds decline by 6% in fiscal year 2009. In fiscal year 2010, in large part due to major construction on the course, golf rounds are down close to 20%. At the Airport, passenger counts dropped by 8% in fiscal year 2009 and were down an additional 4% in fiscal year 2010. The Waterfront Fund, which accounts for the services provided along the waterfront, including Stearns Wharf and the harbor, experienced some loss of revenues in 2009. However, fiscal year 2010 revenues remained steady. Similarly, the Downtown Parking Fund, which accounts for the operation and maintenance of the City's public parking facilities, has likewise seen a normalizing of revenues. The City's two utility operations, Water and Wastewater, have not seen declines in revenues due to the current economic downturn.

Internal service funds are used to account for services provided by one department to other City departments. Examples include motor pool, building maintenance, information systems, and risk management. These operations are financed through charges levied on operating departments of the City. While not directly impacted by the economic crisis, all internal service funds' budgets include reductions, which translate to reduced charges to all City funds, including the General Fund.

BALANCING STRATEGY

Early in fiscal year 2010, staff calculated a budget gap of \$8.9 million for fiscal year 2011. To offset the budget gap, the adopted budget includes new funding sources, refined revenue and budget estimates, reduced funding to community organizations (see accompanying table), and \$4.3 million in departmental budget adjustments. These adjustments include over \$3.4 million in departmental reductions, and result in the elimination of 30.8 positions, most of which are vacant. They also include approximately \$870,000 of revenue enhancements.

It is important to note that the departmental reductions are in addition to the cuts that were implemented in order to balance the FY 2010 budget. The cumulative impacts will further affect the level of services provided to the community, including the closure of the Central and Eastside Libraries on Mondays, and the elimination of three vacant sworn police officer positions.

A summary of budget adjustments by departments, including the number of full-time equivalent (FTE) positions eliminated, is presented in the table on the next page. These adjustments are itemized in Attachment 1 to this transmittal letter, and the impacts to department operations are noted in each department budget summary.

City Administrator's Budget Message

TOTAL GENERAL FUND	3,414,676	866,681	4,281,357	26.80					
Internal Service Funds GRAND TOTAL	\$ 3,732,370	\$ 866,681	317,694 \$ 4,599,051	30.80					

The combination of newly identified funding sources and departmental budget adjustments included in the adopted budget total \$4.9 million. The remaining gap of \$4 million is addressed with negotiated labor concessions.

Labor Concessions Critical to Solving Budget Gap

One of the major elements creating the deficit in the General Fund is the increasing cost of employee salaries and benefits. Therefore, one of the keys to our balancing strategy included working with labor groups to achieve wage and benefit concessions to mitigate staff and service reductions. Ultimately, labor concessions generated sufficient savings to close the remaining budget gap and allowed the restoration of positions and services proposed for reduction in the recommended budget.

Capital Program Funding Still Falls Short of Needs

The recently completed Six-Year Capital Improvement Program identified \$8.3 million in capital needs over the next two years that need to be funded by the General Fund. However, the fiscal year 2011 adopted budget includes just \$508,170 for the General Fund capital program. In fiscal year 2010, only \$573,170 was spent for capital due to the deterioration of General Fund revenues caused by the recession. Note that this does *not* include capital spending included in

City Administrator's Budget Message

the Enterprise Funds, such as the Airport, Water, Wastewater, Waterfront, and Downtown Parking Funds, which totals \$11.5 million.

In years past, when General Fund revenues were growing strong, sufficient reserves were generated and accumulated to fund a healthy capital program each year. For example, in fiscal year 2001 the General Fund had \$5.4 million in reserves above policy requirements and funded a \$2.6 million capital program. More recently, the capital programs of fiscal years 2007 and 2008 averaged approximately \$1.8 million per year.

Among the capital projects that we have deferred in fiscal year 2011 is the replacement of the City's aging Financial Management System, rehabilitation of several park facilities, and general repairs to several City buildings and facilities.

Deferring capital improvements and maintenance of City facilities generally results in increased costs in the future and adds to the existing backlog of projects that may take years to catch up with. Over the next several years, as revenues grow, it will be critical that the City restore capital funding back to appropriate levels in order to preserve important capital assets into the future.

Reductions to Outside Organizations

In addition to reductions to departmental operations, the adopted budget includes significant cuts to many important community organizations that sponsor events in the community, provide important services, or encourage tourism and conventions.

The funding cuts to community promotions organizations will save the General Fund \$367,618. The table below summarizes the adopted funding for each affected organization. Please note that while funding is eliminated for the 4th of July Parade, the annual fireworks show is funded in the Waterfront budget.

These organizations provide worthwhile events, services and programs for the community. However, in the context of the major declines in General Fund revenues, we believe these reductions are appropriate in order to minimize further reductions to core City services such as fire, police, libraries, and parks.

ENTERPRISE FUNDS

The City has seven distinct operations that are referred to as enterprise funds. These operations are primarily funded from user charges or restricted grant funding. In most cases, the revenues in the funds are restricted by law or contract to the purposes for which they are collected.

Each of these funds has been affected to varying degrees by the recession of the past two years. However, each has also made considerable progress in improving the services provided to the public.

City Administrator's Budget Message

Airport Fund

A major impact of the economic crisis has been the significant decline of air travel across the nation. In Santa Barbara, the number of passengers has declined markedly since late 2008. In fiscal year 2009, passenger counts fell by 7.8%, the largest declines since fiscal year 2002 following the terrorist attacks in New York. In fiscal year 2010, passenger counts fell by an additional 3.7%. These declines have a corresponding impact on those revenues driven by passenger volumes, such as parking, concessions, and rental car receipts.

In fiscal year 2011, most Airport revenues are expected to remain stable with little to no growth. However, construction of the new airline terminal will triple the square footage of airline space. As a result, terminal aviation revenues are expected to increase by approximately \$500,000, from \$2.1 million to \$2.6 million, as airlines will pay more for the added space they will be provided. These revenues will be partially offset by increased building costs, such as custodial services and utilities.

Golf Fund

The Golf Fund has been affected the most of all enterprise operations by the recession. Over the last ten years, the number of rounds has steadily declined, consistent with national trends. However, the current recession has had a more dramatic impact on play on the course. Raising greens fees each year has helped minimize the loss of revenues, but it may also be contributing to the reduction in rounds played.

In addition to impacts from the recession, the Golf Course underwent major capital improvements during fiscal year 2010 to improve course utilization and water quality. During the construction period, the number of rounds played declined by approximately 20%. Fortunately, the improvements have added a number of features and visual elements that have improved the look and playability of the course. It is expected that these improvements will draw more players to the course and bring back those who left due to the construction.

The fiscal year 2011 budget includes a strategy to increase the level of play, including the implementation of fee changes to support increased play, and the development of a comprehensive marketing plan.

City Administrator's Budget Message

Downtown Parking Fund

The Downtown Parking Fund is responsible for the maintenance and operation of nine surface parking lots and five parking structures. In fiscal year 2010, due to very conservative revenue estimates that accounted for the recession, Downtown Parking revenues met budget projections. For fiscal year 2011, revenues are estimated to remain essentially flat.

Fiscal year 2011 expenditures reflect the savings from the phase out of the My Ride and Employee Bus Programs that began in fiscal year 2009. The program will consist only of free bus passes to City employees, which will save approximately \$250,000. The fiscal year 2011 budget also reflects savings of \$100,000 in costs for electricity as a result of recent work completed to improve the energy efficiency of a number of parking structures.

In fiscal year 2010, the City implemented a pilot program in conjunction with the Downtown Organization to provide for additional police resources in the downtown area and parking facilities. This program was pursuant to the recommendations from the City Council subcommittee on Homelessness and Community Relations. The program provides for a 50% match of funds provided by the Downtown Organization to employ part time police officers to patrol these areas. This program has been successful and will continue into fiscal year 2011 at the same level of funding.

Water Fund

The Water Fund provides water to City residents and businesses and is funded from service charges that are generally not directly impacted by economic downturns. Water revenues are primarily affected by weather conditions and voluntary conservation efforts. In fiscal year 2010, consumption will likely be below long-term averages due to awareness of the state-wide drought and increased conservation, and higher than normal levels of precipitation.

For fiscal year 2011, Water Fund operating expenses totaling \$31.3 million plus a capital program of \$3.3 million are fully balanced with operating revenues totaling \$34.6 million. Operating expenses are budgeted slightly below fiscal year 2010 budgeted expenses of \$31.6 million. However, the costs for water treatment will continue to be elevated over historic rates by \$1.4 million due to water quality impacts caused by the 2007 Zaca Fire.

The adopted budget reflects a 3% increase to all water rates. This increase is part of the long-term rate strategy to support the Water Fund's extensive capital improvement needs. The rate increase would add approximately \$850,000; however, continued declines in water usage are expected to reduce revenues by over \$400,000. In total, revenues for fiscal year 2011 of \$34.6 million are expected to be \$480,488 higher than fiscal year 2010 adopted revenues.

City Administrator's Budget Message

The adopted capital program for fiscal year 2011 totals \$3.3 million. This does not include projects that we expect will be funded by the State Revolving Fund (SRF) Loan Program. The loan should be approximately \$30 million and fund design and construction for two major projects: the Cater Advanced Treatment Project and the Ortega Groundwater Treatment Plant Rehabilitation Project. Interest during the construction period is anticipated to be approximately \$500,000. Once the projects are completed, the fully amortized debt service payment is estimated at \$1.9 million per year.

Wastewater Fund

The Wastewater Fund depends on revenues that are tied to water service rates. Because of caps contained in the rates, these revenues have less variability than water revenues, which are impacted by changes in weather conditions.

The adopted budget for fiscal year 2011 includes almost \$15 million in estimated revenues, which reflect a 4% increase to wastewater rates. The rate increases are estimated to generate \$556,482 in revenues from service charges above fiscal year 2010 and will help support the Wastewater Fund's large capital program in fiscal year 2011.

Operating expenses are budgeted at \$12.4 million, below the \$13.1 million operating budget adopted for fiscal year 2010. The adopted fiscal year 2011 capital program totals \$6.3 million. It will be funded from \$2.6 million of operating revenues and \$3.7 million of reserves. The capital program includes the Headworks Screening Project estimated at \$3 million. This project will replace the antiquated grinding, screening, rag removal, and dewatering systems with an integrated modernized system.

Waterfront Fund

The Waterfront Fund relies on revenues generated from parking fees, commercial leases and slip fees. While certain revenues have stabilized, others are being impacted by the effects of the economic downturn. Additionally, the department is embarking on major repairs to Marina 1, which will create additional debt service costs to repay loans from the Department of Boating and Waterways.

The adopted operating budget for fiscal year 2011 totals \$10.8 million. Estimated operating revenue total \$11.75 million, leaving an operating surplus of \$975,908 that will fund part of the \$2,555,000 capital program. The remaining portion of the capital program of \$1,579,092 will be funded by capital reserves totaling \$279,092, a \$1,200,000 loan and a \$100,000 from a grant from the Department of Boating and Waterways.

City Administrator's Budget Message

The adopted budget includes a 4% increase to slip fees, as well as a new slip rate category for 60-foot and larger slips and end ties. In addition, slip transfer fees will increase \$25 per foot, except for 20-foot slips. These rate increases are expected to generate \$187,000 in additional revenues. However, they will be more than offset by a projected decline in revenues from leases. Revenues from leases with restaurants are expected to fall by \$220,029 (9%) in fiscal year 2011. Similarly, revenues from commercial leases are estimated to drop by over \$100,000 (7.4%).

Solid Waste Fund

The Solid Waste Fund's adopted budget for fiscal year 2011 will rely on the one-time use of reserves totaling \$526,626 to offset revenue losses totaling \$1.1 million. The balance of revenue losses have been offset by reductions to budgeted expenditures for supplies, services and programs.

One of the most notable changes to the Solid Waste Fund relates to recycling revenues. In fiscal year 2010, revenues from the sale of collected recyclables totaled \$871,649. However, due to major declines in the value of recyclables worldwide, the City will incur an estimated loss of \$37,000 in fiscal year 2011. Fortunately, we are now seeing a recovery in the recyclables market, and expect revenues to increase and normalize within the next several years.

Another notable change in the adopted budget is the shift of franchise fees from the haulers to the General Fund. Franchise fees are unrestricted revenues designed to reimburse the City for the use of the public right-of-way. All other franchise fees, including those relating to cable television, electric and natural gas franchises are accounted for in the General Fund. This shift of refuse franchise fees estimated at \$440,000 was identified as a measure to help address the budget shortfalls faced by the General Fund and was implemented late in fiscal year 2010.

Effective July 2010, Solid waste fees increased by 2.9%. The increase includes a 1.4% increase to reimburse haulers approximately \$210,160 for the planned \$4 per ton increase in tipping fees charged at the County's Tajiguas Landfill, and an adjustment of 1.48%, per the City's franchise agreements with the haulers, for a "cost of living" increase based on the change in the Consumer Price Index.

CHALLENGES AND ACCOMPLISHMENTS

Despite the serious economic times we face, it is important to recognize that most parts of the City organization continue to provide excellent services to our community and are making progress in a variety of different areas. These areas include improving our environment, moving the Plan Santa Barbara General Plan update to completion, addressing the complex issues of youth violence and homelessness, and investing in the City's aging infrastructure.

Improving our Environment

Implementing programs for the benefit of the environment is not just environmentally sound, but is becoming financially sound as well. Some examples of what the City is doing to become more environmentally responsible while generating savings are discussed below.

Increasing Energy Efficiency of City Facilities

The City continues to look for opportunities to retrofit its own electrical systems and generate renewable energy in connection with new building constructions or renovations. As an example, the recently completed Fire Station Renovation Project included solar panels and green building materials, which resulted in being recognized with the prestigious Leadership in Energy and Environmental Design (LEED) gold certification. Two other facilities that received LEED certifications are the Airport's new Rental Car "Quick Turnaround" Facility, which also received gold certification; and a LEED platinum certification for the remodel of the Community Development and Public Works building at 630 Garden Street. This building is just one of six buildings in the world achieving platinum status for an existing building. At that facility, lighting was upgraded to energy efficient systems, and the heating, air and ventilation systems were upgraded to allow outside air to cool the building. These improvements are projected to save \$81,000 in electric charges per year.

Implementation of Foodscraps Recovery Program

On November 1, 2009, the City implemented a business foodscraps recovery and composting program, one of just a handful in the State. Foodscraps are collected at local businesses, primarily restaurants, and are sent to a composting facility in north Santa Barbara County where they are turned into compost that is sold and used throughout the central coast in agricultural applications. By participating in the program, businesses are helping to reduce the impacts of organic material in the local landfill; but equally important, businesses are saving money. Local businesses participating in the program saved over \$120,000 in only the first five months of the program.

City Launches "Where's Your Bag?" Campaign

Plastic bags also have large scale impacts, particularly to the marine environment. Due to their fly-away tendencies, many plastic bags wind up on beaches and creeks, and ultimately in the ocean. Paper bags also have environmental impacts given the amount of energy consumed to produce them.

The City joined forces with the Santa Barbara Channelkeeper, Choose to Reuse, and the California Grocer's Association to implement the "Where's Your Bag?" Campaign. The campaign consists of public education materials, free reusable bag give-aways, and partnering with local businesses to promote the use of reusable bags through rewards and other incentives.

Long-Term Planning

The most important planning effort in progress is the update to the City's General Plan, known as Plan Santa Barbara. In the year ahead, the City will determine the balance required between housing, open space, and transportation policies to best meet the community needs now and into the future. The effort focuses on five key policy drivers: growth management, historic and community character, policy and community health, energy and climate change, and economic and fiscal health. The Plan Santa Barbara effort is extremely important as it will shape how the City deals with its existing open spaces, historic heritage, building design standards, and architecture.

Youth Violence

The Police Department has estimated that there are about 160 hard-core gang members in Santa Barbara. Another 750 young people are affiliated with, or are at high risk of, joining a gang.

Last September, the City's Police Department coordinated with multiple state and federal law enforcement agencies to simultaneously descend on seven different locations to conduct searches and serve arrest warrants to individuals tied to criminal street gangs. The operation resulted in 12 arrests for trafficking illegal firearms and narcotics, the removal of dangerous weapons, and diminished the flow of illegal drugs from the streets of Santa Barbara.

In addition to enforcement, the City is deeply committed to proven programs that prevent and end youth violence, despite financial constraints. To that end, the City has been coordinating efforts with a multitude of governmental, philanthropic, and non-profit social service agencies that work directly with our most at-risk youth. Our focus is on enforcement and intervention,

City Administrator's Budget Message

and also working with parents in the neighborhoods, and with our school district on prevention strategies.

The City's Police Activities League, also known as PAL, has been instrumental in helping atrisk youth through after-school programs, sports and other recreation activities. Participation in these programs has never been higher. The number of kids involved in after-school sports leagues has almost doubled in only two years. Likewise, participation in the City's summer drop-in program has increased by 40% in the same time period.

Homelessness

A key issue facing the City and the entire community is homelessness. While the County-wide 10-year plan to end chronic homelessness has helped take over 350 chronically homeless people off the streets, the economic downturn has placed many more people at risk. In addition, significant cuts in State and County funding for social services have left some without a safety net. Consequently, the City is working with the County of Santa Barbara and other south coast cities to develop a comprehensive, regional approach. In the interim, the Rescue Mission and a variety of churches throughout the County voluntarily opened warming centers during rainy and cold nights during the winter.

Investing in City Infrastructure

Despite the lack of funding in the City's General Fund, we are continuing efforts to upgrade aging infrastructure and municipal buildings through the use of restricted revenues, such as those from enterprise funds, federal and state grants and the Redevelopment Agency.

Neighborhood Improvements

One of the most visible projects is the replacement of the Haley and De La Vina Street Bridge. The bridge was built in 1915 and must be replaced to meet current standards for vehicle, pedestrian, water flow, and seismic safety. The new bridge will reduce flooding and potential property damage during major storm events.

The West Downtown Neighborhood Improvement Project will provide better street lighting and sidewalks. This includes the pedestrian improvements recently completed along Ortega and Anapamu Streets between Castillo and Chapala Streets.

City Administrator's Budget Message

Beachside Improvements

Two important projects are currently underway along the beach. The first is the West Beach Pedestrian Improvement Project, which will enhance the beach access and pedestrian linkage between Stearns Wharf and the Harbor. The project includes new plaza areas and public art on the sidewalks to create a promenade feel that will enable visitors and residents to easily migrate to and from these two venues.

At the harbor, construction has begun to replace the thirty-year old marinas. The project is being funded by a loan from the State Department of Boating and Waterways, and is starting with Marina One, the largest marina in the harbor. With two docks being replaced each year, the project will take ten years to complete.

Airport Terminal Expansion

The most significant event in fiscal year 2011 for the Airport will be the substantial completion of the new terminal facility that commenced construction in fiscal year 2010. Santa Barbara's new \$32 million airline terminal will provide larger boarding gate areas, centralized passenger screening, a variety of concessions, improved ground transportation access, boarding bridges, and additional restrooms. The project is primarily funded by grants from the Federal Aviation Agency, airline leases, and passenger facility charges. As with all Airport expenditures, no local tax dollars will be used for the Project.

The new two-story 67,000 square foot terminal is expected to be completed in early 2011 and achieve a LEED silver rating for sustainable building. The Airline Terminal Project will also include construction of a new reconfigured short-term parking lot directly in front of the Terminal and a wider, longer loop road with a separate lane for public transportation vehicles. The historic portion of the existing Airline Terminal, which was built in 1942, is scheduled to open in late 2011 following its relocation adjacent to the new Terminal. The rehabilitated building will provide offices for Airport Patrol and the parking operation.

Recreational and Cultural Facility Improvements

The historic Carrillo Recreation Center, built in 1913, is undergoing a renovation to improve seismic safety and accessibility to meet ADA requirements. The building is used by 100,000 people each year and its expected completion in December 2010 is much anticipated.

Thanks to a generous private donation from Rose Karat, the main adult section at the Eastside Library was recently renovated. The renovation added new computers, furniture, and other building upgrades. In addition, the City will be partnering with the Junior League at the

City Administrator's Budget Message

Central Library on plans to renovate the library basement and building a new children's area. This project is still in design but, once completed, will give a fresh look to one of our oldest facilities.

CONCLUSION

The development of the fiscal year 2011 budget has been a difficult and complex process. Throughout, three interrelated goals have been foremost:

- Maintain the City's financial integrity;
- Minimize cuts to critical services to the community; and
- Minimize layoffs to existing employees.

Achieving these goals has been stressful and challenging. Due to the severity of the economic downturn, forecasting revenues with a high degree of certainty has been almost impossible. This has resulted in the need to be conservative on our estimates to avoid future revenue shortfalls

On the labor relations front, we negotiated simultaneously with several different labor associations. Each of these unions has its own organizational culture and is unique. While all of the unions is willing to work with management to help solve the City's fiscal challenges, each also wants to protect their individual members from layoffs and financial hardship.

Despite these challenges, I am very proud of the final budget. It is a conservative financial plan, which will maintain the City's fiscal strength and integrity without using accounting gimmicks or budgetary reserves.

The budget minimizes major service cuts to the community, by spreading cuts throughout the organization and to community groups, taking advantage of employee vacancies, improving efficiency, and judiciously raising fees or shifting costs. While there will certainly be impacts, we believe they are acceptable, considering the difficult financial times we are facing.

And lastly, while the adopted budget does include employee layoffs, they have been minimized through the transfer of affected employees to other positions and a spirit of cooperation between departments.

ACKNOWLEDGEMENTS

The preparation of the final budget has been a cooperative process that has involved employees throughout our organization. It required countless hours of study, analysis, and preparation. I especially want to commend the management team of our City for working cooperatively to put together the final budget. Their willingness to look at the "big picture" and work in a true spirit of teamwork has made this difficult task easier and has resulted in a much more responsible financial plan.

I also want to acknowledge the excellent work of the City's financial management team, headed by Interim Finance Director Bob Samario. Mr. Samario, along with Treasury Manager Jill Taura, Budget Manager Michael Pease, and Financial Analyst Jonathan Abad all worked late at night and on several weekends to ensure that the budget document was timely and professionally prepared. I appreciate the personal sacrifices they all endured during this hectic period.

And lastly, I also want to recognize members of the City Administrator's Office who also toiled late into the night to complete the final budget document. This includes Assistant City Administrators Marcelo Lopez and Paul Casey, Labor Relations Manager Kristy Schmidt, Assistant to the City Administrator Nina Johnson, Administrative Analyst Lori Pedersen, and Administrator's Office Supervisor Linda Gunther.

About the City of Santa Barbara

The City of Santa Barbara is located approximately 90 miles north of Los Angeles off of U.S. Highway 101, and is geographically sheltered by mountains on the north and the Pacific Ocean on the south. The City of Goleta and the unincorporated area of Montecito border the City on the west and east, respectively.

Until the late 1700's, the area currently known as "Santa Barbara" was occupied by the Chumash Indians. The Chumash lived in small villages along the coast and on the Channel Islands, living comfortably for thousands of years thanks to the abundance of wildlife and natural resources.

In 1542, Portuguese explorer Juan Cabrillo entered the Channel and claimed the land for Spain. In 1602, three frigates under the command of Sebastian Vizcaino entered the Santa Barbara Channel. One of the Carmelite friars on board named the bay and nearby shore after Saint Barbara.

In 1782, a group led by Father Junipero Serra, Captain Jose Ortegas, and Governor Felipe de Neve established a military presidio and, three years later, a mission. Spain governed the area until 1822, when California became a Mexican territory. Just 24 years later, in 1846, Colonel John Fremont and his soldiers took Santa Barbara for the United States.

The City of Santa Barbara (the primary government) was incorporated on August 26, 1850. The City is a charter city under the laws of the State of California and operates under a Council-Administrator form of government. The Council consists of six council members and a mayor, all of whom are elected at-large. The current City Charter was adopted on May 2, 1967 and provides for the following services: public safety (police and fire). construction and maintenance highways and streets, sanitation, culture and recreation, public improvements, zoning and administration. Enterprise funds, operated in a manner similar to a private business, wastewater, water. parking, golf, and waterfront.

The Redevelopment Agency of the City of Santa Barbara, a blended component unit of the City, was established in 1968 and is a separate governmental entity as prescribed in the State of California's Community Redevelopment Law as set forth in the State's Health and Safety Code.

The City Council of the City of Santa Barbara and the Board of Directors of the Agency are legally separate boards; however, they share common membership. The City also provides all support staff and performs all administrative functions for the Agency under the terms of a written agreement between the two entities.

BACKGROUND

The General Fund is used to account for the traditional services associated with local government, including public safety (fire and police), parks, recreation, streets maintenance and library services. As a full-service city, the General Fund also accounts for community development-related services, such as building, planning, and land development services; engineering services; maintenance of street lights; and environmental programs. Also included in the General Fund are the administrative departments and programs, including the City Attorney's and City Administrator's Offices, the Finance Department, the City Clerk's Office and Human Resources.

Some of the costs associated with providing these services are recovered through fees and service charges, or through inter-fund charges (i.e., charges to other funds for services provided by General Fund departments). However, the large majority of these costs are funded from general tax revenues. For example, the three largest tax revenues in the General Fund - sales taxes, property taxes, and transient occupancy taxes – account for \$50,361,000 (49%) of the total \$102,126,117 fiscal year 2011 budgeted operating revenues. Only \$9,544,435 (9%) of total revenues is from fees, and \$17,507,260 (17%) is from inter-fund charges.

The revenue composition of the City's General Fund, which heavily relies on general tax revenues as the primary funding source for its programs and services, is fairly common in local government. General taxes, such as property taxes, sales taxes, utility users' taxes, transient occupancy ("bed") taxes, are the traditional revenue sources of a local government's general fund operations.

In the case of the City of Santa Barbara, tax revenues (\$60,227,459) comprise 60% of total budgeted revenues in the General Fund. Although not unusual, the specific composition of taxes in the City has proven to be not only a strength, but at times a weakness. With sales tax and transient occupancy tax revenues being two of the top three revenues, both of which are fairly elastic to economic swings, the General Fund is susceptible to financial boons and setbacks. This was the case during the recession of the early 1990's and, more recently, in the aftermath of

General Fund

September 11, 2001 terrorist attacks and the ensuing economic downturn. As a tourist destination for local, domestic and international visitors, the events of September 11, 2001, had an immediate and significant downward impact on sales tax and transient occupancy tax revenues.

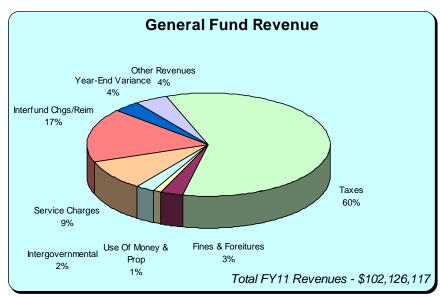

Expenditures, on the other hand, are generally less volatile and thus more predictable. Because General Fund services are labor-intensive, salary and related benefit costs (\$78,736,534) comprise approximately three-quarters of the total General Fund operating budget. As a result, during economic downturns when revenues flatten or decline, cutting expenditures without reducing staffing levels is very difficult. For example, during the most recent economic downturn, the General Fund eliminated a number of positions to offset revenue losses and other cost increases.

SUMMARY OF ADOPTED FY 2011 BUDGET

As shown in the table at the top of the previous page, the adopted fiscal year 2011 General Fund operating budget projects total revenue of \$102.1 million to fund an operating budget of \$101.6 million. The operating surplus (\$508,170), along with budgeted capital revenue (gift trust funds) of \$250,000, is sufficient to fund the entire planned capital program for fiscal year 2011.

Operating Revenues

The chart on the right displays the General Fund's major revenue sources. Taxes, budgeted \$60,227,459, still constitute the largest source of General Fund revenue (60% of total revenues). Inter-fund Charges and Reimbursements, which represent payments to the General Fund from other City funds for various services provided to those funds, is the second largest category at 17%.

Within the taxes category, sales and use taxes make up 16.4% of total revenue, followed by property tax revenues at 22.3%, and then transient occupancy tax revenues at 10.9%. In recent years, the General Fund's property tax revenue base has been modified by State action changing the way in which vehicle license fees (VLF) are allocated. In connection with the adoption of its

General Fund

fiscal year 2005 budget, the State implemented what is termed the "VLF for Property Tax Swap of 2004", and also referred to as the "triple flip", which eliminated approximately 90% of VLF revenues and replaces them with an equal amount of property taxes. In fiscal year 2006, the swap became a permanent adjustment to the receipt of VLF and property tax revenues, resulting in approximately \$5 million in additional property taxes in fiscal year 2006 and a corresponding reduction in VLF revenues. Given the growth rates realized over the last ten years in the city's property tax revenues, this swap actually provides not only greater growth potential in these revenues, but a more stable revenue base given the volatile nature of VLF payments over recent years.

Overall, staff is projecting no growth in the General Fund's major tax revenues. Additional detail is presented on the following page, but growth rates are projected to be between -1% and 1.3%, depending on the particular revenue.

Taxes

Overall, the adopted fiscal year 2011 tax revenue estimate is 0.3% below the projected fiscal year 2010 year-end amounts. The table below details the City's tax revenues with amounts presented for the adopted budget and projected fiscal year 2010 year-end actual amounts, and the fiscal year 2011 adopted budget. The "percentage growth" amounts compare the fiscal year 2010 projected year-end amounts to the adopted fiscal year 2011 budget. This comparison presents a

clearer picture of the growth rates staff projected for fiscal year 2011 and is consistent with the way staff develops the revenue estimates. Staff begins by evaluating fiscal year 2010 year-to-date amounts and projects estimated year-end balances. Then projections for the budget year are developed based upon the prior year-end estimates, less any adjustments for any structural changes.

General Fund

As the table on the previous page indicates, the City is projecting no growth in sales tax revenue. As the City's second largest and most economically sensitive revenue source, staff tends to be somewhat conservative with sales tax projections. A negative variance of only 1% in the sales tax projection translates into a revenue loss of almost \$167,000. In addition, sales tax is more difficult to project because of the significant delay in the state's reporting of actual results. In

projecting sales tax growth rates, staff also considers projections developed by the State Franchise Tax Board and the City's sales tax consultant.

As the chart on the right indicates, both sales tax and transient occupancy tax have declined significantly since fiscal year 2008.

Transient Occupancy Tax (TOT) revenues are budgeted to have no growth in fiscal year 2011. Unlike sales tax, the City receives TOT on a monthly basis and, therefore, it is somewhat more predictable.

Until fiscal year 2010, Property Tax continued to show strong growth, proving to be the City's most stable and reliable tax revenue. Between 1997 and 2006, even in the midst of the recession, property tax revenues grew an average of 8.5% per year. Staff is projecting a 1% decline in this revenue for next fiscal year, primarily because of the recent housing market decline. As can be seen in the tax table on the preceding page, the projected revenues for fiscal year 2010 of \$23 million are \$830,000 below the \$23.9 million budget because of the recent housing market declines.

Revenue from the City's 6% utility users tax (UUT) is split between the General Fund and the Streets Fund. Pursuant to City ordinance, 50% of the City's UUT is restricted to streets and roads and is budgeted in the Streets Fund. The other 50% is unrestricted and is budgeted in the General Fund. UUT is projected to increase 1.3% next year. The City's utility users tax revenue is volatile from year to year as commodity prices for energy increase and decrease over time. While averaging 5.1%, historical growth percentages in UUT over the past 10 years have ranged from a low of 0.8% in 2009 to a high of 9.3% in 2001. Given the volatility in this particular revenue, staff feels that the 1.3% growth estimate is realistic for fiscal year 2011.

General Fund

Fines and Forfeitures

This revenue category is projected to provide approximately \$2.9 million in General Fund revenue (3%). By far, the largest item in this group is parking fines, which are anticipated to generate almost \$2.5 million of the \$2.9 million total.

Use of Money and Property

This category, totaling \$1.27 million (1% of total General Fund revenue) is comprised of two items. The first, and smaller, is the rents and leases earned on General Fund properties, primarily the three Community Centers in the City. This provides approximately \$422,000.

The more significant revenue in this category is investment income. The fiscal year 2011 budget for investment income is almost \$849,000. This is down from the fiscal year 2010 budget of nearly \$942,000 and the fiscal year-end projection of \$1.08 million.

Intergovernmental

Intergovernmental revenues are projected to contribute approximately \$1.5 million (2.5%) to the General Fund budget. This is higher than the amount projected for the fiscal year 2010 year-end amount of \$2 million. The increase is due primarily to fire mutual aid revenue, which represents the reimbursements from the Forest Service and other agencies when the City's fire department responds to incidents outside the city boundaries. The fiscal year 2010 year-end estimate for fire mutual aid revenue is almost \$745,000 and, in fiscal year 2011, is budgeted at \$1,250,000 because it is difficult to predict exactly how many incidents the City fire department will be called to assist in a given year.

Service Charges

After taxes and inter-fund charges, service charges are the third largest revenue category in the General Fund. In total, service charges are projected to provide just over \$9.5 million (9%) of General Fund revenue. As the table below indicates, the adopted fiscal year 2011 amount is approximately \$44,800 (0.5%) below the amended fiscal year 2010 amount. In many cases, the total projected decline in revenue is due to an overall decrease in anticipated activity levels as a result of the recent economic decline.

General Fund

While there is always sensitivity to increased fees for government services, staff believes it is important that the City establish fee levels to recover a reasonable portion of the costs of

providing those services. Service costs not recovered through program fees must be subsidized with tax revenue. While this may be appropriate in some cases, as a rule, staff believes that the users of the services ought to bear the costs of providing them. However, in most cases, the City's current fee levels still recover only a fraction of the cost of providing the services.

Inter-Fund Charges and Reimbursements

This category of revenue represents reimbursements to the General Fund for services provided to the City's Enterprise and Special Revenue funds. The adopted fiscal year 2011 budget contains over \$17.5 million from this revenue source, representing 17% of total General Fund revenue. Five items, as discussed below, account for over \$15.7 million of the total.

The General Fund's overhead allocation represents just \$6.5 million. These are charges to the City's Enterprise and Special Revenue funds for administrative services provided by the General Fund. Examples of the services provided include payroll, accounts payable, accounting, human resources, legal, City Clerk and City Administrator support. Each administrative service is individually allocated based upon usage. For example, payroll costs are allocated based upon the number of paychecks issued for each fund.

The Public Works department generates \$4.6 million from engineering charges to City projects. Virtually all of these charges are for engineering support of capital projects. When the General Fund-paid engineering staff works on a capital project, the cost of their time is charged to that project.

The Airport pays approximately \$1.8 million to the General Fund for Fire Department staffing of the Airport Rescue and Firefighting (ARFF) program. This is the fire station at the Airport that provides specialized and FAA-mandated fire and rescue services. The Airport pays for the direct

General Fund

costs of the firefighters as well as all associated costs of maintaining the station and equipment and an allocated overhead.

The General Fund is also reimbursed by the Streets Fund for street-related administrative and direct costs that are budgeted in the General Fund. This includes activities in Public Works and the reimbursement of a portion of the Forestry Program in the Parks and Recreation department to maintain the city's street trees. The Streets reimbursement to the General Fund is budgeted at \$1.3 million in fiscal year 2011.

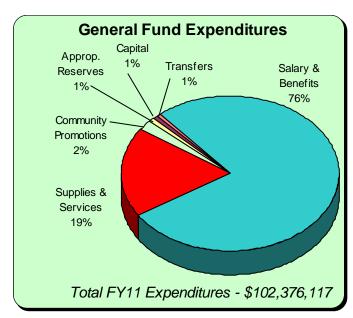

The final notable item in this revenue category is payment from the City's Redevelopment Agency (RDA) for staffing of the Agency. The RDA has no staff. Under a contract between the City and the RDA, the City commits to providing staffing to the Agency, including legal services. This reimbursement totals approximately \$1.4 million.

EXPENDITURES

As mentioned at the beginning of this section, overall General Fund operating expenditures in the adopted fiscal year 2011 budget are approximately \$101.6 million. Including a capital program of almost \$760,000, the total adopted General Fund budget is nearly \$102.4 million.

The chart to the right displays the adopted budget, including capital, by object of expenditure. As is always the case, salaries and benefits (76%) represent the largest portion of the General Fund budget. Expenditures for supplies and services make up 19% of the total adopted budget.

Capital expenditures represent 1% of the General Fund budget. As indicated in the chart, the Community Promotion budget comprises 2% of the budget. The Community Promotion program accounts for City contributions to various civic events such as Old Spanish Days and Summer Solstice, as well as to

organizations such as the Conference and Visitors Bureau.

The table on the next page summarizes General Fund operating expenditures by department for the adopted fiscal year 2010 budget, the fiscal 2010 amended budget, and the adopted fiscal year 2011 budget. The percentage change column is based on the change from fiscal year 2010 amended budget to the adopted fiscal year 2011 budget.

Total expenditure	\$ 104,164,957	\$	104,047,021	\$ 101,617,947	-2.3%

As the table indicates, while the General Fund operating budget is only 2.3% below the fiscal year 2010 amended budget, the individual General Fund departmental budgets are, in some cases, significantly above or below the fiscal year 2010 amended budget. All department budgets contain increases in salaries and benefit costs in fiscal year 2011 because of the impact of negotiated salary contracts as well as the rising cost of health insurance premiums. However, nearly all department budgets are actually lower than the fiscal year 2010 amended budget because of recent budget reductions and furloughs. The Administrative Services Department's budget is 23.5% below the fiscal year 2010 primarily because significant funding for the municipal election was included in the fiscal year 2010 amended budget. The "Non-Departmental" department is budgeted 36.7% above the fiscal year 2010 amended budget due to the mid-year use of appropriated reserves to address revenue shortfalls in fiscal year 2010. The fiscal year 2011 budget is only 12.4% above the fiscal year 2010 adopted budget primarily due to an additional \$200,000 in appropriated reserves for maintaining Police patrol strength with overtime, as needed.

The City's Community Development Block Grant (CDBG) Fund is used to account for the annual federal block grant received by the City from the U.S. Department of Housing and Urban Development. This annual grant supports programs including the City's Rental Housing Mediation Task Force, human service and community capital grants, and a low and moderate-income housing rehabilitation loan program.

Over the last several years, federal budget actions have adversely impacted the City's annual CDBG award. The chart below indicates that since fiscal year 2006 the City's grant award has declined over \$80,000 (6.4%) to a projected grant amount of \$1.16 million for fiscal year 2011. Although the City's grant award has declined since the peak award of \$1.471 million in fiscal year 2002, the City is still enjoying substantially greater CDBG funding than in the early 1990s when

grant amounts were approximately \$800,000. The City remains concerned that federal budget actions may continue to adversely affect the programs supported by the CDBG grant program.

Besides the annual federal grant award, the other major source of revenue in this fund

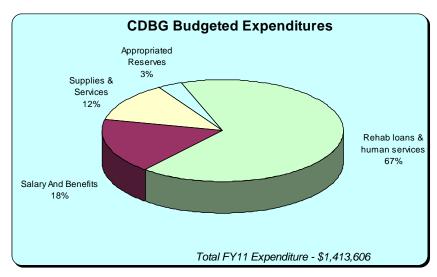

comes from repayments of the housing loans issued under the housing rehabilitation program.

Special Revenue Funds

As of June 30, 2009, the City had almost \$6.84 million in outstanding CDBG funded housing rehabilitation loans. The City maintains a "revolving" loan fund so that as loan repayments are received the funds are re-appropriated and loaned again. As in past years, the adopted fiscal year 2011 budget includes an estimated amount for loan repayments (also known as "program income"). The estimate is based upon an analysis of the scheduled monthly payments for all outstanding loans. Because the routine repayments are quite predictable, they are included in the budget. As indicated in the table at the top of the previous page, loan repayments for fiscal year 2011 are projected to be \$250,000. In some years, loan repayments significantly exceed expectations. For example, in fiscal year 2004 loan repayments were approximately \$750,000, \$350,000 ahead of budget. The additional amounts represent unscheduled pre-payments of loan balances due to property sales or re-financings. Due to the indeterminate nature of these prepayments, no attempt is made to include them in the budget. In the event significant prepayments are received during the year, a supplemental appropriation will be requested from the City Council.

The chart below displays the CDBG budget by category of expenditure. Human service grants (including community capital grants) and housing rehabilitation loans represent 67% of the budget.

The CDBG human services grants are allocated, along with the General Fund human services funding, based upon recommendations submitted to the City Council by the City's Community Development and Human Services Committee. The Committee's recommendations for fiscal year 2011 grant awards, to be funded from the adopted fiscal vear 2011 budget, were recently submitted to and

approved by the City Council.

All requests for housing rehabilitation loans are evaluated by program staff and are submitted to the City's Loan Committee for approval. The Loan Committee is comprised of the Assistant City Administrator, the Community Development Director, and the Finance Director. The Loan Committee can approve loans up to \$60,000. Loans of more than \$60,000 require approval of City Council.

The County Library Fund accounts for the costs of providing a full range of library services to the residents of Solvang, Santa Ynez, Los Olivos, Carpinteria, Montecito, and Goleta, under contract with the County of Santa Barbara. The chart below indicates that revenue to support these services comes from a variety of sources including the County, State Public Library Fund (PLF) Grant, the cities of Solvang and Carpinteria, fines, fees and donations. Additional funds for the Goleta library are provided by a special assessment (CSA #3). Although additional contributions from various "Friends of the Library" community groups are received occasionally, they are generally not budgeted because of the unpredictable nature of the donations. The budget does, however, include the use of \$106,998 in gift funds from the Friends of the Montecito, Carpenteria, and Solvang libraries used to support some of the program staffing at those libraries. No City of Santa Barbara funds are included in the County Library Fund budget.

Under the terms of the agreement between the City and the County, the City is compensated for managing these County library services. The City's General Fund receives administration fee amounting to 9% of the annual County appropriation County (non-City) resident library services.

The adopted fiscal year 2011 budget is based upon

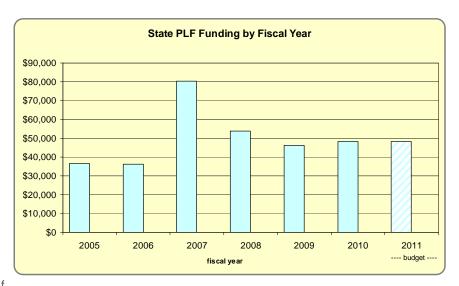

staff's best estimates of next year's funding levels from both the County and the State. Changes in the level of either of these revenue sources will require corresponding program and expenditure adjustments. Since neither the State nor the County generally adopt a budget prior to the July 1st

Special Revenue Funds

start of the fiscal year, such adjustments are usually brought before the Council in the fall of each fiscal year.

This County Library System continues to be impacted by reductions in the State Public Library Fund (PLF) funding in recent years. This funding source is major source of funding for libraries statewide, The funding was temporarily restored in fiscal year 2007 to \$80,324. Much less than the historical high of \$151,600 in fiscal year 2000, the fiscal year 2011 budget includes funding of \$48,363.

The adopted budget also contains the use of approximately \$96,999 in Library gift funds to offset the continuing impacts of fiscal pressures. The gift funds will be used to supplement funding for the acquisition of collection materials.

In November 2000, the City's voters overwhelmingly approved Measure B, which increased the City's transient occupancy tax from 10% to 12% effective January 1, 2001. Under the terms of the measure, all proceeds from the additional 2% are restricted for use in the City's Creeks Restoration and Water Quality Improvement Program. In order to meet the intent of the measure, the City opened a Special Revenue Fund (Creeks Fund) to account solely for all revenues and expenditures associated with this program.

The Creeks Restoration and Water Quality Improvement Program is managed by the City's Parks and Recreation Department. Under the direction of the Parks and Recreation Director, the Creeks Restoration and Water Quality Improvement Manager manages the program.

The adopted revenues for fiscal year 2011 are over \$2.4 million. Approximately \$175,900 of the budgeted revenue is projected to come from investment income. The balance, just over \$2.2 million, is projected to come from the two-percent transient occupancy tax (TOT). The \$2.2 million

TOT estimate for fiscal year 2011 is consistent with the assumptions used to budget the General Fund's TOT. An additional \$1.6 million from the Creeks Fund reserves, will fund the fiscal year 2011 Creeks capital program.

The chart on the right displays the expenditure budget by major category. As the chart indicates, 47% of the budget is dedicated to capital (\$1.9

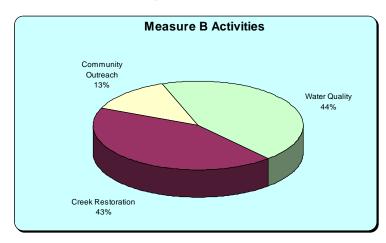

Special Revenue Funds

million). Fiscal year 2011 capital projects include low impact development projects (\$150,000), Laguna watershed water quality improvement program (\$300,000), the Mission Creek fish passage and barrier removal program (\$400,000), the fish passage project at Tallant Road (\$250,000), restoration of the Mission Lagoon (\$500,000), water quality improvements and restoration of the Andree Clark Bird Refuge (\$75,000), Old Mission Creek/San Pascual water quality improvements (\$50,000), catch basin debris screens (\$150,000)and capital replacement funds (\$25,000).

With salary and benefit costs representing only 23% of the operating budget, the Measure B Fund more closely resembles one of the City's Enterprise Funds rather than the General Fund. The chart below displays the adopted budget (operating and capital) by activity. Water Quality activities comprise approximately \$1.8 million (44%) of the budget, Specific activities include creek clean-ups (\$120,000), water quality testing (\$70,000), water quality and habitat research (\$55,000), storm water ordinance revisions (\$20,000), maintenance of water quality improvement projects (\$60,000) and residential street sweeping (\$180,562). Two full-time Water Resources Specialist positions provide storm water code enforcement, technical business assistance and storm drain monitoring.

Creeks Restoration activities comprise 43% of the budget and include a fulltime Restoration Planner position, maintenance of a native plant nursery, restoration projects on Old Mission Creek at Bohnett Park and the Arroyo Burro Estuary (\$40,000), management neighborhood four creek vegetation projects (\$30,000), management of Mission Creek fish passage projects, an invasive plant removal program, and restoration

efforts for Mission lagoon and the Laguna watershed.

Community Outreach activities comprise approximately \$527,853 (13%) of the budget and include a full-time Outreach Coordinator position, and programs such as youth education (\$60,000), clean water business and neighborhood enrichment (\$50,000), as well as \$125,000 for production and airing of bilingual radio and television educational campaigns and print advertising. The adopted budget also includes public outreach activities through the monthly meetings of the Creeks Advisory Committee, community creek restoration and water quality events, collaborative projects with community organizations and other public agencies, and the development of educational materials.

The adopted fiscal year 2011 Redevelopment Agency (RDA) General Fund budget includes almost \$16.3 million budgeted revenue, \$16 million (99%) of which is from the incremental property tax ("tax increment") generated from within the Agency's one project area. Under State law, all redevelopment agencies are required to dedicate a minimum of twenty percent of total tax increment revenue to low and moderate housing programs. The remaining 80% of the tax increment may be used for any legally qualifying redevelopment activity, and represents the \$16 million of tax increment budgeted in the RDA General Fund. The twenty percent of tax increment restricted to low and moderate housing programs is budgeted separately in the RDA Housing

Fund. The balance of the RDA General Fund's budgeted revenue is from interest income (\$165,000) and rental income on an Agency-owned property (\$22,800).

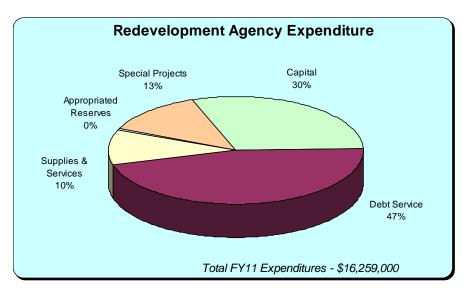

The RDA has no staff; the City provides staffing for the Agency and bills the Agency for the costs under a contract between the two legally separate entities. These costs are budgeted by the Agency as contractual services

within the "supplies and services" category. As shown in the chart on the next page, the total supplies and services budget is approximately \$1.7 million (10%). Of that amount, reimbursement to the City for direct administrative and legal services totals approximately \$723,000. In addition, pursuant to the results of the recent City cost allocation plan, the Agency reimburses the General Fund approximately \$624,000 for administrative and management services provided by General Fund administrative divisions (Payroll, Human Resources, Purchasing, etc.).

Special Revenue Funds

The fiscal vear 2011 budget also includes \$2.1 million (13%) for special projects. Of this total, \$300,000 is for the annual contribution the operation of the Downtown and Commuter Lot electric shuttle buses. The contribution is a mitigation measure for the impacts of the downtown improvements financed by the Agency. \$1.4 million is also appropriated for the

State's anticipated ERAF shift. The remaining special project appropriations will fund hazardous waste studies and mitigation in the project area, as well as property management costs for Agency-owned properties.

As displayed in the table below, debt service represents over \$7.5 million (47%) of the budget. The RDA has three outstanding tax allocation bonds. In December 2003, the Agency issued what is likely to be its final (non-housing) bond. The Agency's only project area, the Central City Redevelopment Project Area, expires in 2012 and the Agency has already bonded against its projected future tax increment receipts.

Budgeted capital for fiscal year 2011 is almost \$4.9 million (30%), of which nearly \$4.8 million will be used solely as contingency funding for cost overruns on existing RDA capital projects. The entire \$4.9 million will come from fiscal year 2011 property tax revenues.

The adopted fiscal year 2011 Redevelopment Agency (RDA) Housing Fund budget includes approximately \$4.3 million in estimated revenue, and an operating budget of approximately \$4.3 million. Of the \$4.3 million budgeted revenue, \$4 million (94%) is from the incremental property tax ("tax increment") generated from within the Agency's one project area. Under State law, all redevelopment agencies are required to dedicate a minimum of twenty percent of total tax increment revenue to low and moderate housing programs. The remaining 80% of the tax

increment may be used for any legally qualifying redevelopment activity. The \$4 million of tax increment budgeted in the RDA Housing Fund meets the twenty percent state requirement.

The balance of the RDA Housing Fund's budgeted revenue is interest income on investments (\$60,000) and on housing loans (\$200,000). As of June 30, 2009, the Housing Fund had

approximately \$41.4 million of outstanding low and moderate-income housing loans.

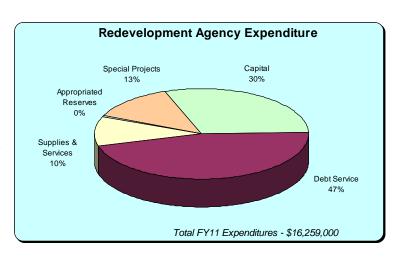

The Agency's 20% tax increment that is restricted to low and moderate-income housing is not affected by the State's Educational Revenue Augmentation Fund (ERAF) property tax shift. In the past, the State has always prohibited redevelopment agencies from using any of their 20% housing set-aside funds to meet their ERAF obligation. That is unlikely to change in the future.

The chart on the next page summarizes the Housing Fund's expenditures. The Housing Fund has no staff. Under a contract between the two legally separate entities, the City provides staffing for the Agency's Housing Fund and bills the Agency for the costs. These costs are budgeted in the Housing Fund as contractual services within the "supplies and services" category. The total supplies and services budget is approximately \$4.2 million (98%). Of that amount, reimbursement

to the City for direct administrative and legal services totals approximately \$678,000. In addition, pursuant to the results of the recent City cost allocation the Agency Housing plan, the General Fund reimburses approximately \$163,175 for administrative and management services provided by General Fund personnel (purchasing, accounting, auditing, etc.). An appropriated reserve also budgeted at \$80,000.

In the form of housing grants and loans, the Redevelopment Agency's Housing Fund continues to direct significant resources towards what many consider to be the most pressing need facing the Santa Barbara area - developing and maintaining affordable housing.

The Streets Fund accounts for all City-funded streets operations, maintenance and capital. Until fiscal year 2004, the Streets Fund was strictly a capital fund used to budget and account for streets capital projects. Prior to that time, all City-funded streets operations and maintenance activities were budgeted in the General Fund. However, because the streets operations and maintenance activities are funded almost entirely from restricted revenue, beginning with fiscal year 2004 they were moved out of the General Fund and into the Streets Fund.

The chart to the right summarizes Streets Fund revenue sources. The single largest revenue source is utility users' tax (\$7 million). As required by City ordinance, fifty percent of the City's 5.75%, utility users' tax revenue is restricted to use for streets operations, maintenance, and capital. Gas tax (\$2.4 million) is the other significant revenue source. The gas tax revenue received by the City is a portion of the state's 18

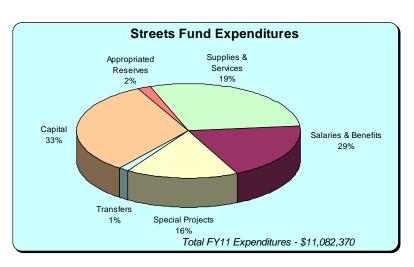

cents per gallon tax on fuel used to propel a motor vehicle or aircraft. Article XIX of the California Constitution restricts the use of gas tax revenue to research, planning, construction, improvement, maintenance, and operation of public streets and highways or public mass transit. The funds are distributed by the state on a per capita basis, and each year, the City is audited by the State Controller's Office to ensure that the funds are used in accordance with state law. The Streets Fund is also projecting the receipt of \$1.2 million in state grants.

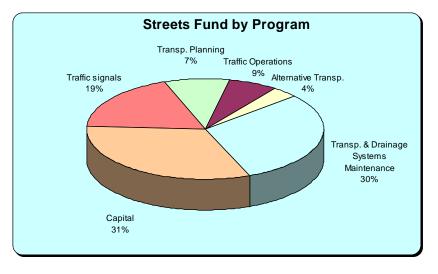

Special Revenue Funds

The chart to the right summarizes the Street Fund expenditures by object. In addition to the capital projects funded primarily from grants, the Streets capital program of \$2.2 million includes \$1.7 million for the annual streets resurfacing program and \$150,000 for the annual traffic safety and capacity improvement program which replaces streetlights and signage and improves safety of intersections in the City.

The chart to the right summarizes the Streets Fund expenditure program activity. Besides capital, the largest activity is the Transportation and Drainage Maintenance Systems (\$3.3million). This activity includes maintenance and repair of streets, sidewalks, storm drains, traffic signage and markings and other infrastructure within the public right-of-way.

The Street Sweeping Fund was first established in fiscal year 2005. It consolidates all of the City's street sweeping operations into one dedicated fund. The City's street sweeping operation was previously accounted for in the Streets Fund.

As displayed in the chart to the right, there are two sources of street sweeping revenue. The largest revenue source is parking violations (\$810,000). Parking tickets are issued to vehicles

that are not moved off the streets during posted street sweeping times. The police department's parking enforcement officers issue an average of 550 parking citations each week in support of the program. Revenue generated from these parking citations is returned to the Street Sweeping Fund. The balance of revenue is transferred from other City The transfers are

from the Streets Fund (\$150,000) and the Creeks Restoration/Water Quality ("Measure B") Fund (\$180,562). The Measure B contribution is used to fund a portion of the expanded residential street sweeping program.

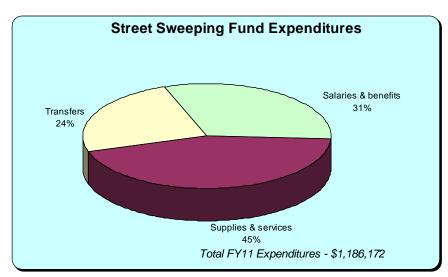

In fiscal year 2000, the City's street sweeping program was limited to the downtown commercial area. In October 2001, the residential street sweeping program began as a pilot program on the Westside and was expanded to the Eastside on October 2003. In October 2004, expansion continued to the Upper Eastside, Westside, West Beach and Samarkand areas, and in October 2006, street sweeping began in the Braemar, Sea Ranch, Alan Road, Hidden Valley and Lower and East Mesa areas. In fiscal year 2009 the Bel Air and the Upper Mesa areas were added to the

Special Revenue Funds

program and in fiscal Year 2010, the City completed the final sweeping program expansion into the San Roque area. Approximately 80% of the City's streets are now swept on a regular schedule.

The remaining 20% of the City is excluded from the street sweeping program, because in the remaining Riviera and Foothill areas, roads are steep and narrow, there are no curbs or areas pose a risk to the street sweeping vehicles.

The chart to left summarizes the fund's expenditures. Salaries and benefits constitute 31% of the fund's total budget. Currently, street sweeping is handled through a combination of contract and in-house resources. The supplies and services category includes funds for the contract sweeping portion of the program (\$402,137). The other

expenditure category is for parking enforcement. Approximately \$286,000 is reimbursed to the City's Police Department (General Fund) for the costs of enforcing the street sweeping-related parking restrictions. With anticipated parking citation revenue of \$810,000, the net use of reserves in the Street Sweeping Fund in fiscal year 2011 will be approximately \$44,800.

Pursuant to state law, the City must deposit all fines and forfeitures received as a result of citations issued by City police officers for Vehicle Code violations into a special "Traffic Safety Fund." These funds may be used solely for traffic control devices, maintenance of equipment and supplies for traffic law enforcement, traffic accident prevention, the maintenance, improvement or construction of public streets, bridges or culverts, and the compensation of school crossing guards who are not regular, full-time employees of the City's Police Department. The County pays these funds to the City. After being recorded in the City's Traffic Safety Fund as required by law, virtually the entire amount received is transferred to the General Fund and is expended by the Police Department for traffic law enforcement and school crossing guards. The small amount of operating expenditures recorded within the Traffic Safety Fund (\$30,000) is payment for blood testing on individuals suspected of driving while intoxicated.

As the chart indicates, there was a substantial increase in the City's Traffic Safety revenue in fiscal year 2000. Effective with fiscal year legislation 1999, State changed the Vehicle Code to allocate to cities fees paid "court supervised programs" (i.e., traffic schools) in lieu of base fines. The City began receiving this additional revenue in fiscal year 2000. Since this change in State law, the amounts received by the City have

been fairly stable at around \$500,000 or more. The fiscal year 2011 estimate is \$470,000.

The Transportation Development Act of 1971 established a local 0.25% gasoline sales tax designated for countywide transportation purposes. The City's share of funds, disbursed by the County, is restricted for capital expenditures in support of alternative transportation, including sidewalks and bikeways. Each year, the City receives approximately \$62,000 of TDA revenues. This revenue along with annual interest income earned on accumulated balances is appropriated each year to the Street Capital Program.

Because of the relatively small amount of TDA revenue received annually, the proceeds are often accumulated over multiple years in order to fund specific projects. For example, in fiscal year 2010, the amended budget for the TDA fund included the use of \$320,000 of accumulated prior

year balances for the Streets Capital Program. Total expenditures \$326,000 represented over two vears of accumulated TDA revenues. In fiscal year 2011, the TDA revenue will be fully appropriated and accumulated reserves of \$62,000 will be used to supplement the Sidewalk In-Fill Program.

As the chart to the left

indicates, the fund's revenue dipped a few times over the last 10 years due to reduced interest earnings because of economic declines. However, TDA funding itself has remained relatively constant since 2002, averaging approximately \$63,500 per year. In fiscal year 2011, \$54,000 is budgeted, with the balance of revenue (\$7,800) attributable to interest income.

The Transportation Sales Tax fund is also known as the "Measure A" Fund after the designation of the ballot proposition approved by Santa Barbara County voters in November 2008. The ballot measure extended a twenty-year, one-half cent sales tax, the proceeds of which are restricted for use in the City's streets and transportation programs. The revenue generated by this tax is subject to an annual "maintenance of effort" requirement to ensure that the proceeds of the sales tax will be used to supplement - not supplant - the City's existing streets programs. For any year in which the City fails to maintain its discretionary Streets program (operating and capital) at or above the base year (fiscal 1987) level of \$2.7 million, the City is not entitled to the Measure A revenues. The City is audited each year to verify that the maintenance of effort has been met.

The adopted fiscal year 2011 estimated revenues of nearly \$2.9 million are adequate cover operating costs and most of the \$488,000 capital budget. Due to the recent downturn in the economy and associated reduced Measure A sales tax revenue. revenues are significantly lower in fiscal year 2011 because lower sales receipts and allocation

adjustments.

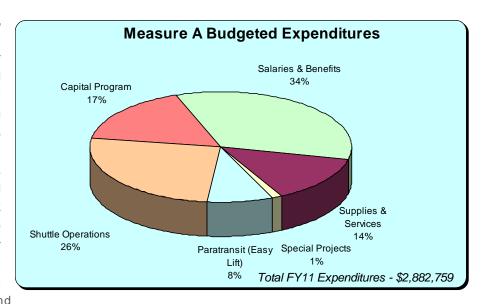

Special Revenue Funds

Revenue estimates, and therefore the budget, are based upon an estimate provided by the Santa Barbara County Association of Governments (SBCAG). SBCAG is the agency that oversees the Measure A program on a countywide basis.

The Measure A Fund budget is developed based upon annual and five-year program of projects that is prepared by the City and submitted to SBCAG for approval. The adopted fiscal year 2011 budget is consistent with those plans.

mentioned earlier, almost \$488,000, or 17%, of the adopted fiscal year 2011 budget is dedicated to the Streets Capital Program, including \$188,000 for the streets resurfacing program, \$250,000 for sidewalk repairs and infill, and \$50.000 for sidewalk access ramps. The budget also includes over \$747,000 (26%) for the Downtown and Crosstown programs

almost \$230,000 (8%) for a grant to EasyLift for paratransit services. The balance of the budget, approximately \$1.4 million supports street maintenance activities.

With an adopted fiscal year 2011 budget totaling almost \$2.9 million, Measure A has been, and continues to be, a critical component of the City's street operations and capital programs.

The adopted fiscal year 2011 Airport Fund budget reflects an operating budget of \$13.4 million and a capital program of \$500,000.

The chart on the right displays total fiscal 2011 operating and capital revenues as contained in the adopted budget. As the chart indicates, virtually all of the Airport's operating revenue is derived from leases at Airportcommercial, owned commercial and aviation-related properties. revenue Lease comprises 96% of operating revenue and 84% of total Airport revenues.

As indicated in the table on the following page, capital-related revenues are expected to total almost \$2 million. Of this total, \$1.4 million is expected in PFC revenue. With the approval of the FAA, on January 1, 1998, the Airport began to levy and collect a \$3 PFC. Again with FAA approval, on November 1, 2003, the Airport's PFC was raised to \$4. The PFC is a fee per airline passenger ticket with the proceeds restricted by federal law to FAA-approved capital improvements. It is estimated that the PFC will generate approximately \$1.4 million in fiscal year 2011, all of which will be used for the airline terminal expansion capital project.

Customer facility charges (CFCs) are expected to generate \$580,000 in revenue in fiscal year 2011 and are another source of capital-related funding. Customer facility charges, charged at a

Enterprise Funds

rate of \$10 per rental car contract, is funding construction of a vehicle storage and light maintenance facility for the rental car companies.

The chart below displays expenses in the adopted fiscal year 2011 Airport Fund budget by category. Supplies and services represent 33% of the budget and salaries and benefits comprise

35% of the total budget. The cost of Airport Rescue and Firefighting (ARFF) services represents 13% of the budget. ARFF services are provided to the Airport by the City's Fire Department with the Airport Fund reimbursing the City's General Fund for these services. For fiscal year 2011, the Airport Fund budget contains \$1.8 million for this FAA-required service.

The adopted fiscal year 2011 Parking Fund operating budget is \$6.5 million with a capital program of \$660,000. The budget relies on \$517,759 of reserves to fund a portion of the capital program.

As the chart below indicates, the various parking user fees provide the bulk of the Parking Fund revenue. Combined, these fees totaling approximately \$5.7 million represent 84% of total revenue. Hourly parking revenues are estimated at \$4.3 million for fiscal year 2011 and there are no increases to hourly parking rates. The last rate increase took effect in January 2006 and was implemented in order to fund a number of capital improvements over several years to address the Fund's aging facilities and structures and to generate an additional \$500,000 each year to build up the Fund's capital reserves. Due to the downturn in the economy this additional revenue has not been realized. Increases to the Parking Funds permit programs went into effect in July of 2009 for the Monthly and Commuter lots and in January of 2010 for the Residential Permit Program.

The commercial parking assessment (PBIA) paid by downtown businesses supports a portion of the costs to maintain the parking lots as well as staffing costs for the hourly employees. The PBIA is budgeted to provide \$840,000 (13%) of total revenues. The only other Parking Fund revenue is interest income, budgeted at \$154,000, and \$20,000 budgeted in miscellaneous revenue, and together comprise 3% of total revenue.

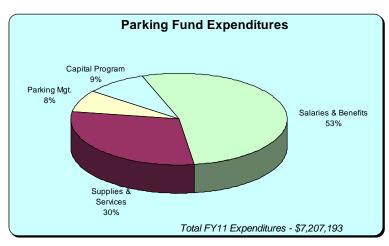

Enterprise Funds

As the chart below indicates, the largest segment of the Parking Fund's expense budget is salaries and benefits (53%). Approximately 43% (\$1.66 million) of the total \$3.8 million in salaries and benefits is for hourly wages paid to staff the City's various lots.

Several years ago, the, Parking Management Program was added to the Parking Fund. The Parking Management Program is intended to reduce the demand for commuter parking in the downtown area by encouraging the use of alternative transportation. The adopted budget provides over \$350,000 to help increase enhanced transit to the downtown core from the Metropolitan Transit District.

The adopted capital program of \$660,000 includes several projects, including annual repairs and maintenance to parking facilities, resurfacing needed parking lots and elevator modernizations.

The Golf Fund adopted fiscal year 2011 budget contains operating revenue sufficient to support a nearly \$2 million operating budget and a planned capital program of \$70,000. Operating revenue in the adopted budget reflects 14% decline over the fiscal year 2010 amended budget due to economic declines.

Greens fees of various types comprise 84% (\$1.7 million) of the revenue budget. The Golf Fund's fee structure currently offers discounts to residents of Santa Barbara and Ventura Residents counties. purchase a resident card for a nominal \$25 annual fee. The card entitles the holder to discounts ranging from \$8 per round (weekday play) to \$14 per round (weekend play). Additional

frequent user discount programs also are available to residents.

Revenue from concession agreements with the golf professional and the clubhouse restaurant comprise 15% of the fund's revenue. Revenue from these agreements is budgeted flat at \$300,000. Golf Fund staff perform all course maintenance, but the golf professional provides management of course play, golf lessons, and operation of the pro shop under an agreement with the City. Food services are provided by a separate concession agreement. Budgeted revenues also include a nominal amount of interest income (\$20,000).

Expenses in the adopted budget, including capital, total just over \$2 million. The chart below summarizes the distribution of expenses. Salaries and benefits comprise 54% of the budget. Other than personnel costs, water is the Fund's single largest cost (\$190,000). In terms of acre-

feet consumed, the golf course is one of the largest water customers in the City's municipal water system.

The capital program of \$70,000 includes the purchase of replacement power turf equipment.

Debt service, at just over \$213,000, consists of principal and interest on the Golf Fund's share of the 2002 Municipal Refunding Certificates of Participation (COP). The 2002 certificates were issued to refund certificates originally sold in 1986 and previously refunded in 1993. The original proceeds were used to expand and

renovate the clubhouse and to install a new irrigation system for the entire course. The 2002 refunding lowered the Fund's annual debt service by approximately \$15,000. The current outstanding principal balance is approximately \$1.3 million. Final maturity of the certificates is in 2017.

The City's Solid Waste Fund was first established in fiscal year 2003. Prior to that time, solid waste activities were accounted for within the General Fund. Given the importance of the City's solid waste activities and the increasing and dedicated revenue sources supporting the solid waste activities, a separate fund was created with the adoption of the fiscal year 2003 budget. During the first three years of this new fund, billings to City customers for residential trash service (billed and collected by the City's Finance department) continued to be accounted for in a separate trust fund for benefit of the two contract refuse haulers. However, beginning in fiscal year 2006, the refuse billing revenue is recorded in and paid out to the contract haulers directly from the Solid Waste Fund, thus more accurately reflecting the true magnitude of the City's solid waste operations and accounting for the growth of this fund since its inception.

for solid activities comes from several sources. The chart to the right details the estimated solid waste revenue for fiscal year 2011. The largest source of revenue is refuse billings revenue category. The refuse billings category includes trash collection fees (\$15,984,133),fees County solid waste activities (\$557,735), and a recycling fee (\$688,562), generated from a 4% fee included in the

trash collection rates. The balance of the revenue, as shown in other revenue, is from grants (\$23,000), and donations and public education funding from the two haulers (\$254,000). The donations are used for the Looking Good Santa Barbara program, dedicated to assisting the City with recycling outreach, beautification, and graffiti abatement activities.

Enterprise Funds

The chart to the right adopted summarizes the budget object expenditure. Included in the adopted budget is \$575,819 that will be used for special projects to further enhance the City's solid waste diversion efforts. As indicated in the chart, 91% of the budget is supplies and services, which includes the \$16 million in trash collection billings collected

by the City and then paid to the contract haulers. The adopted budget reflects a short-term use of reserves primarily due to franchise fee revenue (\$445,000), from a 2% franchise fee paid to the City by the two contracted trash haulers, that was traditionally deposited in this fund being shifted to the General Fund.

The adopted fiscal year 2011 Wastewater Fund budget projects revenue to fund operating costs and a significant portion of the \$6.3 million capital program. The remaining portion of the capital program is funded from the fund's reserves (\$3.7 million).

The budget reflects a 4% wastewater service rate increase, effective July 1, 2010, as recommended by the City's Water Commission and adopted by City Council. This increase continues the strategy to implement regular and relatively modest annual increases to provide revenues to address increasing capital needs.

Wastewater Fund revenue is much more stable than revenue in the Water Fund. Wastewater revenues are comprised almost entirely of the regular, monthly service charges. Because these are based upon the customer's water usage in the lower rate blocks, they are more stable and less susceptible to variations than metered water sales. Service charges are projected to provide \$14.3 million

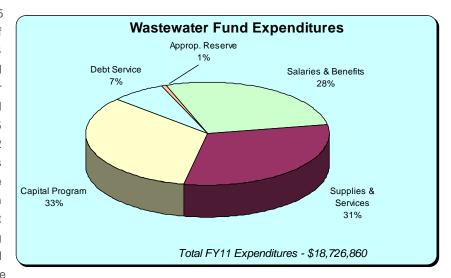

(95%) of the nearly \$15 million revenue total. Investment income, the second largest source of revenue for the fund, is budgeted at \$296,100. The other significant revenue is \$392,911 representing charges to Mission Canyon (non-city) residents.

Enterprise Funds

Wastewater Fund operating expenses are budgeted at almost \$12.4 million and the adopted capital program is nearly \$6.3 million. As the chart below indicates, capital represents 34% of the overall budget.

Debt service, at \$1.35 million, represents 7% of the budget. In July 2004 Wastewater issued 25-year bonds for \$20.41 million. The bond proceeds generated \$18.5 million of project funds. \$2 million of the proceeds was spent to improve wastewater collection system capacity during wet remaining weather. The \$16.5 million is being used for major renovations at the

El Estero Treatment Plant. The plant is now 32 years old. An independent evaluation of the facility identified a ten-year capital improvement program necessary to protect the City's massive investment and to ensure compliance with the more stringent federal and state treatment standards. A total of \$26.5 million in adopted capital improvements was identified over the six-year 2011-2016 CIP. The proceeds of the debt issuance have allowed those improvements to be constructed over the last several years.

In the period from fiscal year 2011 to fiscal year 2016, the capital program will exceed \$35 million. Managing the projects, especially those at the El Estero Treatment Plant, will be a major focus of the Wastewater Fund (Public Works) staff. The current year capital program of \$6.3 million includes \$685,500 is allocated to the El Estero Treatment Plant Maintenance Program to ensure critical capital equipment is functional and the Plant remains fully operational. Another \$3.0 million for the Headwork Screening project, \$110,000 for lift station maintenance and \$2.5 million for the Sanitary Sewer Overflow Compliance Program.

The adopted fiscal year 2011 Water Fund budget contains operating revenues sufficient to fund a \$31 million operating budget and nearly all of the of the \$3.3 million capital program. The adopted budget reflects a 3.0% rate increase for metered water sales, effective July 1, 2010 as adopted by City Council. Water Commission had recommended a 3.5% increase.

As the chart on the right indicates, the vast majority of estimated Water Fund revenue is provided by metered water sales (\$30.4 million, or 89%). Interest income, budgeted at \$860,900, is derived from the investment of the Water Fund's capital and operating reserves. The other notable Water Fund revenue is a reimbursement from the Montecito and Carpinteria Valley Water Districts. Under a Joint Powers

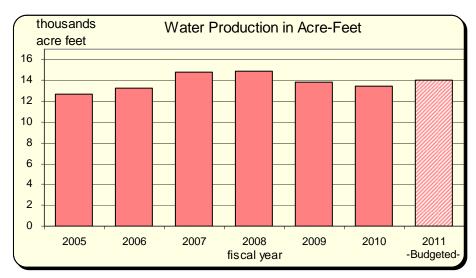

Agreement (JPA), the City's Cater Water Treatment Plant treats drinking water for the City and both Districts. Under the terms of the JPA, the Districts pay their pro-rata share, which is a combined total of 39% of the operating and capital costs of the Cater Plant. The percentage is based on an allocation of Cater's water treatment capacity, and is projected to result in over \$2.2 million of revenue in fiscal year 2011. This amount includes the two districts' payments for their share of debt service associated with a \$19.2 million State Revolving Fund loan that has a 2.5132% interest rate. The loan funded a significant improvement project at Cater in 2002, which was necessary for Cater to meet pending more stringent federal drinking water quality regulations.

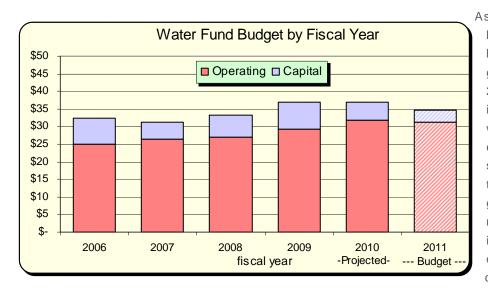

Enterprise Funds

With 89% of Water revenue generated by metered water sales, the most important component the projection is the annual water sales estimate in acre-feet. As chart indicates, water varies production from year-to-year

based on weather and seasonal factors. Metered sales revenue for the adopted 2011 budget is based upon an annual water production estimate of 14,000 acre-feet. Because a large portion of the Water Fund's costs are fixed, declining or stable water sales can have a negative impact on the overall financial health of the fund. City staff believes the fiscal year 2011 estimate is reasonably conservative. If revenues are less than projected, the capital expenditures in future years will be adjusted to ensure that the fund balance continues to include reserves at the policy levels.

As shown in the chart below, the operating budget has been growing since fiscal year 2006 as a result of increasing costs for purchases, water energy, and treatment supplies. Over that time, the operating budget has grown almost by \$6.3 million (25%).increasing trend in operating costs combined with

significant capital needs has led to rate increases over the last several years.

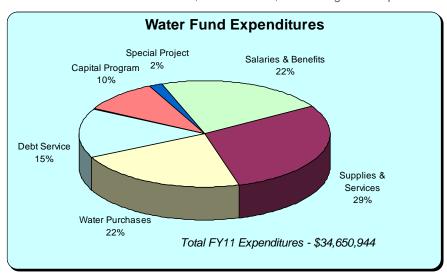

Enterprise Funds

The adopted budget includes funding for capital improvement projects, including \$1.6 million for the on-going upgrade of equipment and facilities at the Cater Treatment Plant and at pump stations and reservoirs throughout the distribution system, and \$1.5 million to replace the roof on the Vic Trace Reservoir. During FY 2011, staff will also commence work on the Advanced Treatment Project at Cater to change the process for treating water and allow the City to meet pending water quality regulations. This project is budgeted at \$20 million and will be funded with a low interest loan from the State Revolving Fund Loan program. Another significant project to be funded through the State Revolving Fund Loan program is the rehabilitation of the Groundwater Treatment Plant.

The adopted operating budget is \$31.3 million, 23% of which is projected to be spent on water purchases. It is anticipated that \$2.8 million will be spent on water from the federal Cachuma Project, and \$4.9 million on water from the State Water Project.

As the chart below indicates, fixed costs, including water purchases and debt service, comprise

37% Water Fund operating expenses. Because of the magnitude of these fixed costs, unlike most other City funds, salaries and benefits comprise only 22% of the Water Fund budget. Of the \$10.1 million of supplies and services, \$992,000 is for electricity, approximately \$1.3 million for facilities maintenance, and additional \$1.5 million is

paid to the General Fund for overhead allocation. Other significant items include almost \$447,000 for vehicle replacement and maintenance charges, and \$294,000 for insurance. The combined amount for these items is just over \$3.5 million, which is 35% of the supplies and services budget.

The Water Fund has five outstanding debt obligations. As of June 30, 2009, the combined principal outstanding on the two bond issues and three State loans totaled \$50.3 million. The bond issues include a 1994 revenue bond (\$3.8 million outstanding), a 2002 Refunding Certificate of Participation (\$12.5 million outstanding); a loan from the State to construct and expand the City's water reclamation system (\$842,249 outstanding), a State loan for the Cater Water Treatment Plant Improvements (\$15 million outstanding), and a separate State loan for the Sheffield Reservoir Project (\$18.1 million outstanding).

The adopted Waterfront Fund budget for fiscal year 2011 contains sufficient operating revenue (\$11,750,784) to fund all operating expenses. The \$2.5 million capital program will be funded from surplus revenue from the operating fund, \$447,311 from reserves and \$1.2 million from a loan from the California Department of Boating and Waterways.

As the chart below indicates, leases of waterfront property provide over \$3.8 million (29%) of total revenue. Most of the Waterfront leases are long-term agreements on a "percent of gross basis" under which the Waterfront receives a minimum base rent, or up to 11% of the tenant's gross receipts, whichever is greater. The specific percent of gross receipts paid by the tenant varies from lease to lease. The Waterfront has a lease audit program to ensure that the City is receiving

the percentage rent to which it is entitled. The Waterfront has realized substantial additional revenues as a result of this lease audit program. Because virtually all of the significant leases are long-term in nature, the Waterfront has little control over lease revenue in the short run.

Parking fees collected at the 10 waterfront lots, including Stearns Wharf, generate

approximately \$2.2 million, or 17% of total revenue. Included in this revenue category is approximately \$325,000 generated from the issuance of annual parking permits at the Waterfront parking lots. The adopted budget contains no increase in waterfront parking rates.

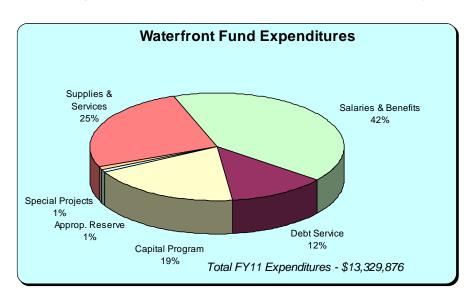

Slip fees are estimated to generate almost \$3.9 million (29%) of total revenue in fiscal year 2011. Other fees include visitor fees (\$556,000), slip transfer fees (\$622,000) and live-aboard fees

Enterprise Funds

(\$168,000). The adopted budget includes increases in both the slip rental fee (by 4%) and the slip transfer fee (increase of \$25 per foot).

Because the lease revenues are generally fixed in the short-term, the only revenue sources over which management can exercise near-term control are the parking and harbor-related fees.

The chart to the left displays the Waterfront Fund's expenses by category for fiscal 2011. The capital program (19%) and debt service (12%) combined represent almost one-third of the total adopted budget.

The Waterfront Fund currently has four outstanding debt obligations. As of June 30, 2010, the total

outstanding balance for these three obligations totaled \$23.3 million. The 2002 Refunding Waterfront Certificates of Participation (\$14.9 million) represent a refinancing of debt originally issued in 1984 to fund repairs and capital improvements to Stearns Wharf and the harbor. In fiscal year 2010 the Department received approval of a \$5.55 million loan from the California Department of Boating and Waterways with a 30-year term at an interest rate of 4.5%. The other obligations are two loans from the City's General Fund for \$1.6 million and \$1.2 million. The proceeds of the \$1.2 million loan were used in the 1980s to make major repairs to Stearns Wharf. The Waterfront Fund is repaying the General Fund with 6% interest at the rate of \$107,000 per year and the loan will be fully repaid in 20 years. The second General Fund loan for \$1.6 million was issued in January 2006 and helped pay for the Chandlery Remodel/Administrative Offices project, completed in September 2005. This second loan is repaid to the General Fund, with 6% interest at the rate of \$123,503 per year.

Total operating expenses in the adopted budget are approximately \$156,000 (14%) less than in the fiscal year 2010 amended budget.

The adopted \$2.5 million capital program includes annual capital maintenance of Stearns Wharf (\$300,000) and the Marina docks (\$225.000). Also included is funding for replacement of "O" and "P" docks in Marina 1 (\$1,200,000), West Beach dredging (\$325,000), and several ADA compliance projects (\$95,000). These projects comprise \$2.1 million of the total \$2.5 million capital program.

Information Systems was first established as an internal service fund in fiscal year 2004. Prior to that time, it was part of the General Fund. The adopted fiscal year 2011 budget is balanced for operations and capital. As an internal service fund, all of the revenue is generated from charges to other City funds and departments, allocated in proportion to services provided.

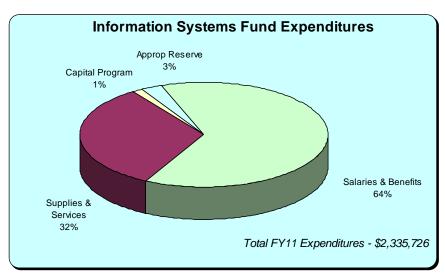

Information Systems is comprised of three programs. The Desktop Information Systems Program provides technical leadership, maintenance and user training and support for the City's 40 network segments and over 740 computer workstations. The Financial Information Systems Program provides programming, support, and training for the City's software applications comprising the City's in-house developed financial management system. The Geographic information Systems Program, established in fiscal year 2008, provides oversight and support for the City's centralized geographical information system database, including maps and reports.

Desktop Systems Program revenue is over \$1.6 million (70%), the Financial Information Systems Program revenue is approximately \$398,000 (17%), and the Geographic Information Systems Program revenue is almost \$297,000 (13%). As mentioned above, all revenue derived from direct charges to other City funds and departments.

Internal Service Funds

As the chart to the left indicates, expenditures for fiscal year 2011 total \$2,335,726, including salaries and benefits for the 13.5 full-time equivalent positions (64%) and supplies and services (32%).

The capital program (1%) for fiscal year 2011 totals \$33,333, all of which is for the 6-year infrastructure upgrade project underway.

The project includes server replacement and virtualization, new storage technology, new Business Continuity Center capability (Disaster Recovery), new core network routers, and new edge network replacement. It is expected to be completed in fiscal year 2013 for a total cost of \$965,000.

Part of the City's Public Works Department, the Facilities Management Fund is an internal service fund providing services to other City funds and departments. The fiscal year 2011 budget reflects the use of reserves to fund a major Library maintenance project.

The Facilities Management Fund includes Building Maintenance, Custodial Services and Communications Systems operations that provide services exclusively to other City departments. Rates are evaluated regularly against industry standards and then charges other City operations for the related services.

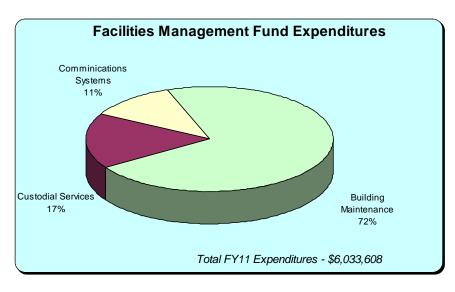

The Building Maintenance function provides on-call response for repairs maintenance of facilities throughout the City, as well as managing the General Fund's annual planned maintenance The facilities program. maintenance program also provides management of small and medium-sized improvements to various City facilities. The Communications Systems function provides management

and maintenance of the City's radio, telephone and related communications systems. The Custodial Services function provides custodial services to various City facilities. The chart displays the various Facilities Management Fund revenues for fiscal year 2011, of which 68% is attributable to facilities maintenance charges.

Internal Service Funds

The Building Maintenance function operates on a work order system. Each job is tracked and billed to the customer department. Building maintenance staff handles repairs and call-out response. The planned maintenance program is handled almost exclusively by contract.

The chart to the left displays the Facilities Management Fund expenses by program for fiscal year 2011. The Building Maintenance (72%) and Custodial Services (17%) combined represent almost 90% of the total adopted budget.

The Fleet Management Fund is an internal service fund providing services to other City funds and departments. Revenue in the adopted fiscal year 2011 budget is more than sufficient to fund all operating costs and the \$1.7 million capital program. Almost \$378,000 of the \$420,467 surplus will be used to support the City's fleet replacement program.

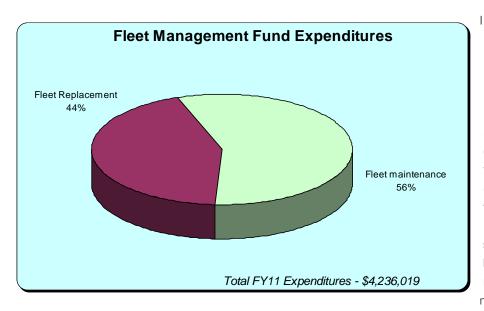

As shown in the chart to the left, 95% of revenue is attributable to Fleet Management vehicle maintenance allocations equipment rental and charges. Fleet Management charges an annual rental for each City vehicle in service. These rental payments are accumulated in a separate capital account and used to replace vehicles in at the end of

their lifecycle. Each vehicle is also charged an annual maintenance fee, which covers all required maintenance and all repairs as needed. While the maintenance charge is a flat annual fee, actual costs to maintain and repair individual vehicles varies. On the whole however, sufficient funds are raised to maintain the City's vehicles and equipment in a safe and reliable condition.

Internal Service Funds

In fiscal year 2008, Fleet Management added the City's generators the to equipment planned replacement program and began to charge departments for future replacement of generators at facilities. The City has 13 large generators in service at various City buildings and the total replacement cost is nearly \$4.7 million. By

charging an annual allocation, the City is able to ensure that funds will be properly accumulated to replace each generator as their useful lives expire. Because the replacement rate for the generators was established over the generators lifecycle, from 2008 going forward, rather than retroactively, the full replacement costs will not be accumulated for generators currently in service.

The City is partially self-insured for both workers' compensation and liability. The City's self-insured retention (deductible) for workers' compensation is \$750,000 per occurrence. A commercial excess workers' compensation policy provides additional coverage above the City's self-insured retention. For liability, the City is a member of the Authority of California Cities Excess Liability (ACCEL), a joint powers authority created to pool common municipal liability exposures such as general, automobile and public officials errors and omissions liability. There are currently a total of 12 California cities in ACCEL. Member entities share the cost of losses from \$1 million to \$4 million and purchase commercial excess liability insurance with limits of \$45 million above the self-insured retention of \$1 million per occurrence. Because ACCEL is effectively a mutual insurance company, if the premiums the City pays are not needed to pay claims, they are returned to the City with interest, instead of becoming insurance company profits. Since the City has been in ACCEL, over \$6.5 million in premium rebates have been returned to the City. This is an excellent indication that, to date, ACCEL has been a major success.

Insurable property is covered for all risks by commercial policies with a pooled aggregate limit of \$1 billion. Deductibles vary depending on peril and apply on a per occurrence basis. The City has separate limits of \$50 million per occurrence for both flood and earthquake. The City's property

insurance is purchased through a consortium of over 4,000 public entities that pool their purchasing power in order to better manage costs. The City currently has declared insured property values totaling \$444 million.

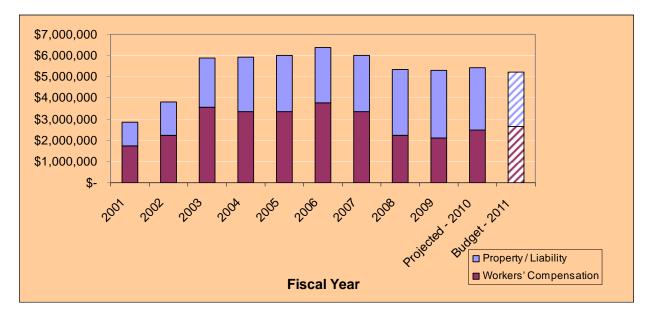

The Self Insurance Fund acts as the City's own insurance company. As displayed in the chart above, the nearly \$6 million of total revenue contained in the

Internal Service Funds

adopted fiscal year 2011 budget is divided between workers' compensation premiums (52%), property and liability premiums (45%), and interest income (3%). As an internal service fund, the fund's revenue comes entirely from "premiums" charged to the City's other funds and departments for the coverage provided.

Like many entities, both public and private, the City experienced dramatic increases in the cost for all lines of insurance beginning in 2003. In particular, both workers' compensation and property insurance costs grew rapidly. As the table below indicates, as recently as fiscal year 2001, the total Self Insurance Fund "premiums" paid by the other City funds and departments totaled almost \$2.9 million. By fiscal year 2006, the premiums grew to a high of almost \$6.4 million. This is an increase of over \$3.5 million, or 121%, over the five year period and represented over \$3 million that was diverted from the actual programs and services provided by the City's departments to pay for increased insurance costs. And the premium increase only tells

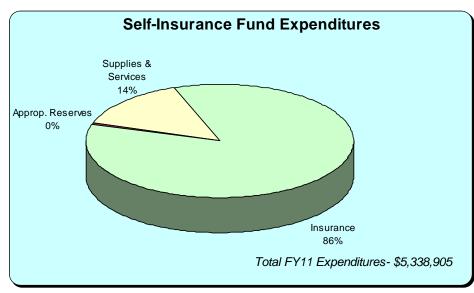

half the story. Over that same period, the City had to accept significantly higher deductibles or premium increases would have been much larger. Since 2002, the City's deductible for workers' compensation has increased from \$300,000 to \$750,000 per occurrence and the property insurance deductible has increased from \$100,000 to \$250,000.

However, since the premium high in fiscal year 2006, city departments have experienced a slight reduction in the total premiums charged by the Self-Insurance Fund. In fiscal year 2007, property and liability expenses grew only 1.4%, while the cost of workers' compensation claims went down. Accordingly, the Risk Fund issued a "rebate" to departments in the form of reduced workers' compensation premiums that year. The fiscal year 2011 budget again contains another "rebate" to departments for workers' compensation premiums because of cost containment efforts coupled with the favorable trend in workers' compensation claims, which is expected to continue. Every

Internal Service Funds

two years, in conjunction with the budget development process, the City contracts for an actuarial study on its self-insurance programs. The actuarial study recommends both how much the City should have in its self-insurance reserves and how much the City should budget for claims expense for each of the next two years. The actuarial study is based upon a combination of the City's specific loss history and certain industry standards. It has been the City's experience over the years that the actuarial study, because of its conservative assumptions, generally overestimates the amount needed by the City for annual claims expense. This is due to the generally conservative nature of the study and the fact that the City's loss experience continues to be better than public agency industry standards. Based upon this experience, the City has traditionally set the premiums charged to the City's various funds significantly lower than the actuarial study recommends. This is once again true with the most recent actuarial study and the adopted fiscal year 2011 budget, containing the workers' compensation "rebate" to departments as discussed previously.

The chart on the left displays the Self-Insurance Fund's expense budget by category. Insurance costs represent a full 86% of the budget. Insurance costs include premiums paid for commercial insurance (property insurance, example), as well as the claims budget for the City's self-

insured exposures such as liability and workers' compensation.

In addition to managing the City's insurance portfolio, staff from the Self-Insurance Fund also provides occupational safety services to the City's operating departments. This includes a significant training program, as well as accident investigation and working with departments to minimize the City's exposure to liability. The fact that the City's claims experience consistently runs below the actuarial projections is a testament to the effectiveness of the City's risk management program.

Policy Area: Sustainability

Key Objectives for Fiscal Year 2011

- Minimize the amount of solid waste destined for disposal from the new Airline Terminal by providing educational outreach regarding diversion strategies to concessionaires per Airline Terminal Solid Waste Management Plan.
- Complete construction of Phase 2 of the Tidal Circulation Project.
- Install Workstation Off-Hours Power Management controls as part of Windows 7 implementation.

Policy Area: Sustainability (continued)

- Reduce electrical power consumption and cooling requirements as part of the Server virtualization project.
- Reduce production and distribution of printed legal documents by increasing use of scan and email technologies.
- Incorporate energy-saving retrofits in at least 75% of all rehabilitation loan projects.
- Ensure that 100% of Redevelopment Agency sponsored capital projects incorporate environmentally responsible design and construction techniques including, but not limited to, the specification of recycled content building materials and construction debris recycling processes.
- Prepare a Climate Action Plan establishing a community greenhouse gas emission baseline, emission reduction target and implementation timeline.
- Coordinate with Santa Barbara County on a regional municipal financing program by promoting the program and finalizing the application process and inspection requirements.
- In partnership with the County, finalize the selection process of a conversion technology vendor by September 2010.
- Meet with 250 new contacts in the business sector about the environmental and financial benefits of recycling.
- Enlist 65 food-service establishments into the Foodscrap Recovery and Composting Program.
- Conduct a rate study for the single-family and multi-unit residential sectors to increase financial incentives for diversion by March 2011.
- In cooperation with the Santa Barbara School District Recycling Committee, achieve a District-wide diversion rate of 60% by June 2011.
- Conduct a class on writing specifications to encourage green purchasing solutions.
- Continue to review financial reports to identify opportunities to improve the effectiveness and usefulness of the reports, and eliminate or consolidate them as appropriate.
- Utilize 99% of chipped material from the Fire road vegetation clearance program as mulch and preventing material from reaching the landfill.
- Utilize remote video training for Aircraft Rescue and Firefighting staff at least 24 times during the year to reduce trips into Station 1.
- Revise the Special Events Guide and Application to include information on how to get to public events using alternative transportation.
- Coordinate the application and selection process to have 80% of the 179 garden plots assigned at community gardens.
- Import 175 cubic yards of compost (comprised of City's bio-solids) from a local contracted compost generator for the purpose of top dressing turf and amending soil at the Golf Course.
- Import 24 yards of tree chipper brush trimmings for weed control and water retention in site landscaping at the Golf Course.

Policy Area: Sustainability (continued)

- Divert from the landfill 70% of the waste generated at the Golf Course.
- Spray compost tea and/or effective micro-organisms on golf greens bi-weekly to increase microbial activity in soil and decrease use of fungicides.
- Reduce water consumption for irrigation on golf course greens by 10 15% (April September) by using evapotranspiration data and tracking daily usage.
- Achieve participation of an additional 20 businesses in the Certified Clean Water Business program.
- Provide at least 8 businesses with clean water equipment through the new Business Assistance Program.
- Complete at least 6 planting projects and/or plant at least 50 trees through the new Creek Tree Program.
- Complete installation of the Catch Basin Inlet Storm Drain Screen Project and submit quarterly reports in compliance with stimulus grant from State Water Resources Control Board.
- Implement a Youth Apprentice Program focused on water quality or creek restoration.
- Complete final design and construction specifications for steelhead fish passage in the CalTrans Channels on Mission Creek.
- Complete a draft storm water ordinance to promote improved storm water management and prevent water pollution.
- Initiate construction of the Tallant Road Steelhead Passage project on Mission Creek.
- Hand-clean the perimeter of Mission Creek Lagoon on East Beach an average of two times per week.
- Hand-clean Sycamore Creek outfall an average of two times per week to prevent pollution from entering the ocean.
- Submit one grant application annually for capital improvement projects that will improve the availability and/or attractiveness of alternative modes of transportation.
- Locate and install 50 new bicycle hitching posts to achieve the goals of the Circulation Element and Bicycle Master Plan to provide more bicycle parking throughout the community.
- Analyze universal electric vehicle charging capabilities for possible future installation in designated City-owned and operated parking lots.
- Complete the 2010 Greenhouse Gas Emissions Inventory for City Operations.
- Design and construct the El Estero Wastewater Treatment Plant Pilot Fat, Oil and Grease project.
- Issue a request for proposals for the replacement of the fuel cells at the El Estero Wastewater Treatment Plant and associated power purchase agreement.

Policy Area: Sustainability (continued)

- Track and report on the status of Energy Efficiency and Conservation Block Grant funded projects.
- Participate in the South Coast Energy Efficiency Partnership to provide public outreach and promote energy efficiency in City buildings and the community.
- Provide an annual training for Custodial Services staff on green cleaning methods and practices.
- Implement a procedure for tracking and reporting water usage at City facilities and provide information to program owners or facility coordinators
- As part of the replacement schedule replace Police Department computers with Energy Star computers and continue consolidation and reduction of printer hardware.
- Support Clean Marina Program by conducting annual seafloor debris clean up (Operation Clean Sweep Event).
- Reduce natural gas usage and costs by installing a solar thermal unit on a Marina restroom.
- Install 200' of recycled plastic bull rails on Stearns Wharf.

Provide effective and efficient support services that encompass preparing the official city record, conducting elections, and providing human resources and information system services.

About Administrative Services

The Administrative Services Department consists of three divisions: City Clerk, Human Resources, and Information Systems. The Department is also responsible for managing high profile special projects. The Department provides important services to over 1,076 city employees and the community.

The City Clerk conducts elections and maintains the official city council meeting minutes and records.

Human Resources recruits employees, develops policies, manages the personnel system, and administers the employee benefits and training programs.

Information Systems provides technical and user support for over 750 desktop computers, the Financial Management System, centralized GIS, Web Services, and Computer training.

Fiscal Year 2011 Budget Highlights

The Administrative Services Department will be responsible for:

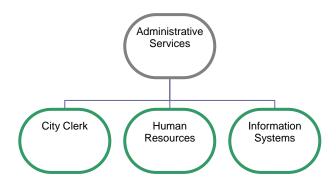

- Reviewing and updating Human Resources' policies and procedures on the City Portal site.
- ➤ Initiating a four-year process to replace the City's multi-million dollar Financial Management System.
- Developing a Citywide Geographical Information System (GIS) to better collect and manage data.
- Coordinating the Citywide Records Management Program and the electronic Workstream Council agenda preparation system.

Organizational Program Chart

Response to Economic Crisis

Administrative Services' strategy to generate savings of \$326,998, \$205,244 for Human Resources and City Clerk and \$121,754 for Information Systems, primarily involves cuts in expenditures. Key elements of the strategy are as follows:

New/Enhanced Revenues (\$12,000)

As an Internal Service Fund, Information Systems will increase revenue by \$12,000 from the administration of the Airport Terminal WiFi project.

Workforce Reductions and Related Adjustments (\$270,799)

The following measures reduce and eliminate of four positions, of which two are vacant:

- Eliminate vacant, full-time Human Resources Analyst position assigned to the LEAP training program in Human Resources (\$117,830).
- o Eliminate part-time, 50%, Administrative Specialist position assigned to the LEAP training program in Human Resources (\$43,713).
- o Reduce to 50% a full-time Records Technician in the City Clerk's Office (\$35,012).
- o Eliminate vacant, full-time PC/Network Technician II position in Information Systems (\$74,244).

Reductions in Non-Personnel Costs (\$188,689)

In Human Resources, reductions to General Fund non-personnel expenditures include a combination of strategies that include: a reduction in the LEAP training program monies (\$5,689) and the elimination of monies for the City Leadership Academy (\$3,000).

Information Systems has reduced, via deferment of charges to future years, a reduction of \$70,000 per year for Microsoft software licensing renewal fees, and a deferment of approximately \$110,000 per year in workstation replacement costs by changing from an automatic 4-year schedule to "as needed". This will result in a deferred savings of approximately \$180,000 per year for up to four years.

Information Systems reduced the allocated charges to all departments for information systems services by \$121,754. Approximately 62% of these cost reductions applied to General Fund departments.

Impacts to Programs and Services

In Fiscal Year 2010, Administrative Services had 27 full-time employees and 3 part-time employees or 28.5 full-time equivalent positions (FTEs). The elimination/reduction of 4 positions (3 FTEs) in Fiscal Year 2011 resulted in a 12% staffing impact on this department; this is in addition to the loss of 3 full-time positions that occurred in Fiscal Year 2010. Over the last two years, department staffing has been reduced by 24% or 7 employees (6 FTEs).

All of the budget reduction strategies listed above will affect external/internal customer service. The elimination of the two positions which administer the LEAP employee training program will require that other Human Resources' staff will administer the training program, resulting in less time available for employee relations issues and delays in service to the public and to employees/departments. The reduction of the Records Technician, in the City Clerk's Office, to 50% will result in professional staff assisting at the front service desk, delays in processing/tracking of city contracts and agreements, and less staff support for items such as State-mandated filings, public records and research requests, and set-up and technical assistance for City Council meetings. The elimination of the PC/Network Technician II position in Information Systems will mean that there be will less time available for employee assistance and slower response to computer problems as well as fewer resources available to research new technology and implement needed standards, policies, and guidance.

The reduction of allocated information systems charges to departments will result in either deferment or use of information systems reserves to pay for citywide software maintenance costs and network equipment replacement costs. This is a one-time cost saving measure that cannot continue without increasing charges to departments in future years.

Airport

Provide the region with safe, modern, convenient facilities to access the national air transportation system.

About Airport

Santa Barbara Municipal Airport is the busiest commercial service airport on the California coast between San Jose and Los Angeles and has been owned and operated by the City since 1941. The mission of the Airport Department is to provide the community with facilities necessary for access to the National Air Transportation System, to provide property management and maintenance services for the leased business/industrial facilities on the Airport, and to provide fiscal management of airport funding sources to sustain the Airport as a self-sufficient entity and a vital economic contributor to the community.

The Airport is composed of 950 acres: 400 acres are wetlands (Goleta Slough Ecological Reserve) and 95

DEPARTMENT SUMMARY

Airport

Program Organizational Chart

Airport

Response to Economic Crisis

As an Enterprise Fund of the City, the Airport is responsible for generating sufficient revenue from fees and charges for services to cover the costs of operation, maintenance and capital improvements. By Federal law, all revenues from the Airport tenant rents and user fees must remain on the Airport. In addition, the Airport does not receive any General Fund tax revenues such as property taxes or sale taxes. As such, it is not part of the overall balancing strategy affecting the General Fund.

The Airport's budget has been prepared based on forecasted revenues from rentals and user fees taking into consideration the continuing economic crisis, and the impacts of the airline industry capacity reductions. Fiscal Year 2011 operational expenses include the additional costs of operating the new 67,000 square foot Airline Terminal scheduled to open in March 2011.

Fiscal Year 2011 revenues reflect the occupancy of the new Airline Terminal in March 2011 and are projected to be approximately \$703,699 (5.7%) above Fiscal Year 2010 or \$13,144,377.

- o Commercial and Industrial revenues have been estimated at a 2% increase from the Fiscal Year 2010 adopted budget based on somewhat stronger leasing activity, resulting in a building vacancy rate of 3.9% and a land vacancy rate of 1.9%.
- Non-Commercial Aviation revenue is projected to have a 2% increase based on expected increases in revenue from general aviation landing fees and fuel flowage fees with the addition of the new self-service fuel facility.
- Terminal revenues are budgeted 1.5% above the prior year based on a projected increase in food and beverage and retail concession revenues from operation of the new Airline Terminal; parking revenues are projected to be flat; and a decrease in rental car revenue based upon a new competitive bid with anticipated lower minimum guarantees.
- Commercial Aviation revenues will increase 24% based on the occupancy of the new Airline Terminal where airline leased space will triple in square footage from the current building.

New/Enhanced Revenues (\$350,000)

Incorporated in the Fiscal Year 2011 budget are full year projected revenues from Fiscal Year 2010 development projects and activities. General Aviation landing fees assessed on aircraft over 10,000 pounds were approved by Council in December 2009 with an effective date of January 2010 and are projected to generate an additional \$250,000. A self-service fuel facility for small general aviation aircraft is scheduled to begin operation in May 2010 and fuel flowage fees are estimated to increase \$20,000 in FY 2011. Also in this budget are fully recovered operational expenses for the Rental Car Quick Turn Facility in the amount of \$80,000.

Airport

Personnel Changes (\$17,101)

The Fiscal Year 2011 budget includes two staffing changes. Since the new Airline Terminal building is three times the size of the current building, two new Custodian positions have been included to ensure adequate coverage. Additionally, two vacant Airport Patrol Officer positions were eliminated and one Security Operations Assistant position was added to the Security Program. This change allows Patrol Officers to conduct security-law enforcement activities, and the Operations Assistants to undertake non-law enforcement duties. The increased cost of these personnel changes is estimated to be \$17,101.

Impacts to Programs and Services

Transitioning from the old Airline Terminal to the new will present new challenges and opportunities for the Airport Department in Fiscal Year 2011. The Airport's budget has been prepared to address these changes while maintaining levels of service.

Administration

(Program No. 7411)

Mission Statement

Provide vision and leadership to Airport Department programs to provide the region with a safe, modern, and convenient gateway to the national air transportation system.

Program Activities

- Oversee management of all operating divisions within the Department.
- Implement City policies established by City Administrator and City Council.
- Develop procedures, rules, and regulations for Airport operations.
- $\circ \quad \hbox{Provide primary staff support to Airport Commission}.$

- o Accomplish 85% of the Department's program objectives.
- Complete a transition plan for relocating tenants to the new Airline Terminal building by November 2010.
- Develop a rotating regional art display program for the new Airline Terminal by February 2011.
- Develop a historical display program for the new Airline Terminal by February 2011.
- Minimize the amount of solid waste destined for disposal from the new Airline Terminal by providing educational outreach regarding diversion strategies to concessionaires per Airline Terminal Solid Waste Management Plan.
- Continue to develop and implement a "greening" plan of the Airport Administration building to improve the functionality of the building and to provide a template to help guide sustainability efforts at other Airport buildings.

(Program Nos. 7412, 7414)

Mission Statement

Manage fixed assets to insure the Airport's economic self-sufficiency, and maintain a strong financial position through prudent fiscal management practices.

Program Activities

- Manage the Airport's commercial and industrial properties and aviation uses and activities.
- Ensure the Airport's economic self-sufficiency through full use and occupancy of Airport facilities.
- o Monitor Airport property leases for compliance.
- Supervise the accounting and financial management functions of the Department.
- Administer the management contract for the public parking facilities at the Airline Terminal.

- Maintain airline cost per enplaned passenger with the maximum not to exceed \$6.29 based on the Financial Forecast from the feasibility study by Jacobs Consultancy dated May 2009.
- Maximize Airline Terminal enplaned passenger related revenue to meet or exceed actual 2009 revenue of \$12.16.
- Maintain annual lease revenue at budget target through effective management of commercial and industrial lease assets.
- Collect 95% of base rents by due date in lease.
- Complete the RFP preparation and solicitation including execution of the agreement for the rental car concession by December 2010.
- Negotiate and execute Airline Operating Agreements for the new Terminal by October 2010.
- Coordinate construction of tenant improvements at the new Airline Terminal by March 2011.
- Develop policies and procedures that establish permitted uses for tenant and public spaces in the new Airline Terminal by September 1, 2010.

RECENT PROGRAM ACHIEVEMENTS

Processed over 500 people for identification badges to comply with a new TSA Security Directive requiring people with airfield access to have an airport-issued badge.

Airport Security

(Program No. 7431)

Mission Statement

Provide a secure environment for the traveling public, airlines, Airport tenants, and citizens by providing essential security services and law enforcement in a timely manner and in compliance with Transportation Security Administration regulations.

Program Activities

- Provide Airport Patrol Officers to comply with Transportation Security Administration (TSA) airport security regulations regarding security inspections, security access control and FAA-required Airfield Inspection Program.
- Provide 24-hour roving security patrol of Airport industrial properties and provide peak hour vehicular traffic control at the Airline Terminal.

- Respond to 100% of calls for service from security checkpoints within 5 minutes, as required by TSA.
- Respond to 100% of reports of unauthorized persons in most sensitive security areas within 5 minutes of the unauthorized person being reported.
- Conduct 100% of the Airport perimeter inspections required by Transportation Security Administration (TSA) regulations.
- Respond to 100% of reports of unauthorized persons in the airfield (AOA).
- Respond to 93% of non-emergency calls from airlines, other airport tenants, airport patrons, or any other person on the airport within fifteen minutes.
- Complete the scheduled number of daily Airline Terminal inspections 85% of the time.
- Complete the scheduled number of daily Security Identification Display Area ramp inspections 85% of the time.
- o Complete daily scheduled checks of AOA patrol points 85% of the time.
- Complete daily scheduled checks of non-AOA patrol points 85% of the time.
- Submit 85% of airport identification media applications to the appropriate vetting process within 48 hours of receiving the completed application.

Key Objectives for Fiscal Year 2011 (cont'd)

- Convert the format of the Daily Log from a Word document to a database to facilitate the tracking of activity and incidents by June 2011.
- o Implement a shared duty routine which begins a transition of airfield inspection duties from Airport Patrol Officers to Airport Operations Assistants.

RECENT PROGRAM ACHIEVEMENTS

Conducted a multi-agency Airport table-top emergency exercise that included a mock activation of the Airport Department Operating Center (DOC).

Airport Certification and Operations

(Program No. 7441, 7442)

Mission Statement

Operate Airport pursuant to safety guidelines as outlined in Federal Aviation Regulation (FAR) Part 139 and minimize noise impacts of Airport operations on the communities surrounding the Airport, by promoting noise abatement procedures.

Program Activities

- Assure compliance with Federal Aviation Administration airport certification mandates which govern airports served by commercial air carriers.
- Provide emergency planning and response which includes Aircraft Rescue and Firefighting (ARFF) services and other safety requirements.
- Minimize adverse impacts of aircraft noise on communities around the Airport through pilot education and other noise abatement programs.
- Administer the Storm Water Pollution Prevention Plan as part of the Airport's National Pollution Discharge Elimination System (NPDES) Storm Water Discharge Permit.

- Promote a safe Airport by achieving 90% compliance on FAR Part 139
 FAA annual Airport Certification inspection.
- Ensure the safe condition of the airfield by achieving 100% compliance with FAR Part 139 daily airfield inspection requirement.
- Respond to 95% of periodic emergency response drills within Federal Aviation Administration (FAA) required time parameters.
- o Host at least four Noise Abatement Committee meetings.
- Correspond with 100% of aircraft operators who failed to comply with noise abatement procedures, in which a noise complaint resulted.
- Maintain emergency preparedness by conducting a full scale emergency exercise by December 31, 2010.

Facility Planning and Development

(Program No. 7451)

Mission Statement

Plan, design, permit and construct buildings and infrastructure in a timely and cost-effective manner to provide the region with a safe, modern, and convenient airport.

Program Activities

- o Implement the Aviation Facilities Plan (AFP).
- o Implement the Airport's Capital Improvement Program (CIP).
- Provide engineering and other technical services for project design and construction, including cost estimating, to support the preparation of FAA grant applications.
- Obtain all necessary project permits and procure all reports and studies necessary for project approvals.
- Coordinate with regulatory agencies including negotiating project conditions.
- Maintain compliance with environmental regulations and project conditions.

- Achieve 100 percent compliance with permit conditions of approval pertaining to project development, environmental monitoring, and maintenance activities.
- Achieve total annual construction contract bid average within ten percent of the total engineer's estimates for the preliminary design packages.
- Limit the total annual value of construction contract change orders on Capital Improvement Projects and AFP projects to less than or equal to seven percent of the total value of construction contracts awarded.
- Complete construction of phase 2 of the Tidal Circulation project.
- Complete construction of the new Airline Terminal building and begin efforts to rehabilitate and relocate the historic portions of the current terminal building.
- Complete Airport boundary survey to include a meets and bounds description.

City Administrator's Office

Responsible for the overall management and administration of the City of Santa Barbara, based upon the City Charter and the policy direction provided by the City Council.

About City Administrator's Office

The City Administrator's Office is composed of three programs: Administration, City TV (Channel 18), and Employee Relations.

Administration provides for the management of all affairs of City government and services, direct control of the administrative branch of City government, and oversight of and direction to departments.

City TV is responsible for producing all public information programming on the city's government access cable television station, Channel 18, including City Council and various board and commission meetings and Inside Santa Barbara.

The Employee Relations program works with over 1,000 full-time and part-time employees and several hundred hourly employees and their respective labor associations, regarding employee relations, contract negotiations, and current employee policies.

Fiscal Year 2011 Budget Highlights

The City Administrator's Office will coordinate and collaborate with the South Coast Gang Task Force, community leaders and local agencies to implement a strategic plan to curtail youth violence and increase community support for local youth and families.

The City Administrator's Office will manage the City's Sustainable Santa Barbara Program and support completion of citywide green objectives.

The Employee Relations Program will work with employee bargaining units to negotiate savings in citywide labor costs.

The City TV Program will televise 16 board and commission meetings on Channel 18.

The City Administrator's Office is budgeted in the General Fund.

Program Organizational Chart

City Administrator's Office

Response to Economic Crisis

The City Administrator's Office and Mayor and Council's Office generated a savings of \$346,142 with cost reduction measures and enhanced revenues. Key elements of the strategy are as follows:

New/Enhanced Revenues (\$47,133)

As part of a two-year grant, the City will receive the last portion of CalGRIP grant funding for gang prevention grant administration (\$27,271).

In the City TV Program, several programs are funded by revenue from Enterprise or Special Funds. Examples include taping board and commission meetings and completing special productions for Creeks, Airport, Solid Waste, and Water programs. City TV will receive additional revenue to document conditions before and after City construction projects and to produce airline terminal updates and water information segments (\$19,862).

Workforce Reductions and Related Adjustments (\$299,009)

The following measures reduce costs in the City Administrator's Office and Mayor and Council's Office:

- o Eliminate a vacant, full-time Executive Assistant to Mayor and Council position (\$73,207).
- Achieve savings from City Administrator's Office reorganization (\$102,782). The office reorganization involved eliminating a vacant Assistant City Administrator position and redistributing responsibilities to two department heads, now Assistant City Administrator/Administrative Services and Assistant City Administrator/Community Development.
- Achieve savings by funding 50% of the Employee Relations Manager position in the Solid Waste Fund (\$85,374). This position has assumed management responsibility for the Environmental Services Division.
- Reduce 50% of funding for hourly positions in City TV (\$37,646) for special programming services.

Impacts to Programs and Services

Most of the workforce reduction measures continue the current staffing arrangement in the City Administrator's Office and Mayor and Council's Office.

Over the past year, an Executive Assistant position became vacant in each office. One vacant position was eliminated in the City Administrator's Office as part of Fiscal Year 2010 budget

City Administrator's Office

reductions. The vacant Executive Assistant position in the Mayor and Council's Office was now eliminated. With the loss of two clerical positions, the remaining clerical staff have crosstrained in both offices and seen minimal impact to office operations. Eliminating the vacant Executive Assistant position may result in less clerical support for Councilmembers, slower response times for public inquiries, and possible closure of the City Administrator's Office during staff absences.

The City Administrator's Office management structure was successfully reorganized in January 2010, eliminating an Assistant City Administrator position. Additional responsibilities have been assumed by the City Administrator's Office staff, resulting in less staff capacity for other special projects.

As part of Fiscal Year 2010 budget adjustments, the Employee Relations Manager's time was split between the Employee Relations Program and the Environmental Services Division to achieve cost savings in the General Fund. This arrangement continues into Fiscal Year 2011. This budget measure has resulted in less time to update employee policies, train employees, and complete other special projects. If labor negotiation activity increases, the staff arrangement to negotiate labor contracts would need to be addressed, and could result in assigning additional staff or hiring contract services for labor negotiation.

The reduction in funding for hourly positions in City TV will result in less staff capacity for programming on Channel 18. Hourly staff responsibilities for meeting coverage, special programming, and operation of the channel will be reassigned to regular staff and other hourly employees. Inside Santa Barbara, the City's TV news magazine show, will shift from airing monthly to quarterly. In addition, the proposed level of staffing will be able to produce two short subject public information videos per month. To ensure televised coverage of City Council and board and commission meetings, City TV will no longer be able to tape and televise ad hoc committee meetings. Examples of recent ad hoc meetings included the Front Country Trails Task Force, Council Subcommittee on Homelessness, and Neighborhood Preservation Ordinance (NPO) Update Task Force.

City Attorney

Provide correct, helpful, timely and cost-effective legal representation and advice to the City Council and City departments in matters of law pertaining to the functioning of the City.

About City Attorney

The City Attorney Department is responsible for representation and advice to the City Council, the Redevelopment Agency, Boards, Commissions and all City officers and staff in all matters of law pertaining to the City.

These responsibilities include, but are not limited to: attending City Council, Planning Commission and other board and commission meetings as needed; handling over 1,000 annual opinion requests and other assignments involving necessary legal work; and weekly agenda preparation and review of items that come before City Council and Planning Commission. In addition, the office is responsible for all City code enforcement and litigation services.

The office is staffed by five attorneys (the City Attorney and four assistants) and five clerical staff, which function as a close team. Many assignments cross over into several departments (e.g., Public Works, Community Development, Risk Management, Parks and Recreation, Police and Fire departments). Attorneys work cooperatively on complex matters such as the negotiations for Airport property development, major land use, environmental and water law issues, and complex litigation.

Fiscal Year 2011 Budget Highlights

The City Attorney's Office will provide legal support to the City Council, City Administrator, and departments in pursuit of their objectives, among other things:

- General Plan Update;
- Airport Terminal Expansion Project;
- Neighborhood Improvement Task Force and code enforcement;
- Municipal Code revisions, particularly those necessary to implement the General Plan Update.
- Defenses of litigation claims and prosecution of city claims;
- Employment law issues, especially employee training regarding state fair employment laws.

City Attorney

Response to Economic Crisis

The City Attorney Department's strategy to generate savings of \$223,412 includes reductions in workforce as follows:

Workforce Reductions (\$223,412)

The following workforce reduction measures are included:

- o Elimination of full-time, Assistant City Attorney III position (\$214,411)
- o Reduce Law Clerk position to 90% (\$9,001)

Impacts to Programs and Services

The elimination of an Assistant City Attorney III position will result in increased workload to the other attorneys at a time when the number of legal issues and concerns facing the City is increasing. The loss of an attorney could affect response times to department requests and staff capacity to perform legal research.

The reduction in hours for the Law Clerk position was implemented in the current fiscal year and is not anticipated to impact the office.

DEPARTMENT SUMMARY

Community Development

Assist the public in managing the development of the community in order to protect and preserve the quality of life, promote a sound economic base and appropriate design, and ensure safe construction, all in balance with the constraints of the City's environment and resources.

About Community Development

The Community Development Department is responsible for managing the development of the community. To accomplish this mission, the Department is divided into four functional divisions: Administration, Building and Safety, Housing and Redevelopment, and Planning.

Each division manages several programs consisting of policy formulation, economic vitality and redevelopment, inspections and enforcement, maintaining public health, safety and welfare, records management services, housing programs, rehabilitation loans, allocation Community Development Block Grant dollars, review of development plans, support to the Planning Commission, Architectural Board of Review, Historic Landmarks Commission, Sign Committee, and the Single Family Design Board, and long range planning with the community.

Fiscal Year 2011 Budget Highlights

The Redevelopment Agency is providing funding of \$3.75 million for the construction of administrative offices for Fire Station No. 1, which is anticipated to be substantially complete in May 2011. Also, the Agency budgeted \$600,000 to fund Phase 2 of the East Cabrillo Blvd. sidewalks, east of Milpas Street, with estimated completion in early 2011.

In February 2011, Housing Programs will celebrate the completion of Artisan Court. Built by the City Housing Authority, the project will provide 56 affordable rental units with \$5.2 million in funds from the City.

The Building and Safety and Planning Divisions will continue to process the remaining Tea Fire applications utilizing the expedited review and approval system that was implemented this year. Construction will begin on the Cottage Hospital Workforce Housing.

The General Plan Update/Plan Santa Barbara will come before Council for action by the year's end. Priority implementation of new policies and programs will be balanced with reductions in resources and demands of current planning requirements.

Program Organizational Chart

Community Development

Response to Economic Crisis

The Community Development Department's strategy to generate savings totaling \$557,609 includes both increases in revenues and one-time support to the Department, as well as substantive cuts in expenditures and workforce positions. Key elements of the strategy are as follows:

New/Enhanced Revenues (\$175,050)

New and enhanced revenues meet a portion of our budget savings through one-time Public Works special assignments to planning staff, Redevelopment Agency support to complete the Housing Element update, and charging staff time to a Climate Action Plan grant to the City. In addition, most Planning Fees increased by 10% to continue our multi-year effort to reduce the amount of General Fund subsidy for planning reviews. However, due to the uncertainty of planning activity over the next 12 months, we are only budgeting a revenue increase of 5% in order to be conservative with our estimates. No increases for Building and Safety fees were proposed.

Workforce Reductions and Related Adjustments 369,395

As part of this budget, reductions affect seven positions by eliminating three vacant positions, keeping another position unfunded and vacant, and charging out a substantial amount of staff's time to non-Departmental work efforts on three additional positions as described below.

With the reduction of four full-time positions, on top of reductions made in the Fiscal Year 2010 budget, General Fund staffing levels for the department will have been reduced by over 20% over two years. The staffing level will be similar to the early 1990's, pre-dating major efforts to increase staffing support to the planning and building activities in response to City initiatives for Excellence in Customer Service and the Land Development Team management audit.

The following summarizes the workforce and expenditure reductions:

- o Suspend Board and Commission Stipends, except Planning Commission
- o Eliminate a vacant Project Planner position in Long Range Planning (Plan Santa Barbara completion and implementation measures will be impacted)
- o Eliminate a vacant Planning Receptionist position (customer service will be impacted by using an automated phone tree system for incoming calls among other support services to staff)
- Eliminate a vacant Planning Technician II position (staffing support at the front planning counter and zoning enforcement efforts will be impacted)

Community Development

- Unfund and keep vacant an Administrative Specialist position in Building and Safety (customer service will be impacted through increased wait times at the front counter and longer plan check turnaround time)
- o Charge existing staff to special Public Works Assignments (a Planner, Graphic Designer, and Building Inspector will take on special assignments which will reduce their ability to work on Community Development work). This will further reduce capacity to work on special ordinance assignments from Council, and reduce support to the Neighborhood Improvement Task Force.
- Charge existing staff to grants and other assignments consistent with Department work efforts
 -- like preparation of a Climate Action Plan and Homeless Prevention and Rapid Re-Housing grant administration.
- o Assign half of the Community Development Director to the Assistant City Administrator position in the City Administrator's Office.

Reductions in Non-Personnel Costs (\$13,164)

Reductions in non-personnel expenditures include reductions in computer and other miscellaneous items due to substantive reduction in overall staffing. In addition, the following reductions in line items from Fiscal Year 2010 remain: all hourly funds were eliminated; almost all overtime was eliminated; most professional services funds were eliminated except for a small amount remaining in Building Inspection and Code Enforcement, Records and Plan Review Program (i.e., outside plan check services); and most equipment accounts were substantially reduced, as well as training and meeting and travel line items.

Impacts to Programs and Services

As noted above, the cumulative impact of the required budget savings will include:

- o A reduction in customer service at the planning and building counters;
- A reduction in zoning enforcement;
- A reduction in code enforcement inspection services related to the Neighborhood Improvement Task Force;
- A reduction in plan check turnaround times;
- An overall reduction in support to Council efforts on ordinance amendments, design guidelines and special studies;
- o An impact to the implementation of Plan Santa Barbara;
- o Less management and oversight of department activities and special projects;

Community Development

- A temporary suspension of the Sign Committee to reduce the number of meetings managed by the Planning Division (an ordinance amendment will establish more types of signs that can be approved as conforming signs and place sign permit requests on the Consent and Full Agenda calendars of the Architectural Board of Review and Historic Landmarks Commission); and
- o Additional ordinance amendments will be proposed to reduce the number and type of projects requiring design and discretionary approvals given reduction in staff resources.

While certain types of development activity is lower, the cumulative impact of staffing reductions over the last three years will lead to impacts to customer service at the front counters and in expediting plan check review. This will be exacerbated as development activity increases.

Redevelopment Agency

(Program Nos. 2125, 2126, 2611, 2711)

Mission Statement

Revitalize the Project Area by eliminating the physical and economic conditions of blight through public and private partnerships in an effort to create an economically vibrant and environmentally balanced Project Area for all residents.

Program Activities

- The Redevelopment Agency is governed by City Councilmembers sitting as the Redevelopment Agency Board, a separate distinct legal entity.
- o The Redevelopment Agency receives incremental property tax revenues generated by the Agency's revitalization projects and finances redevelopment activity by issuing bonds that are repaid solely by these tax increment revenues.
- o By implementing the Central City Redevelopment Plan, the Redevelopment Agency strives to maintain the Downtown area as the principal center of commerce for Santa Barbara's South Coast region and to enhance the Downtown area as the cultural and entertainment center for the County's South Coast Region.
- By implementing these goals, the Redevelopment Agency stimulates new job opportunities, as well as new cultural, retail, recreational, and housing activities in our city.

Key Objectives for Fiscal Year 2011

- o Complete 75% of Agency-budgeted Capital Improvement Projects without exceeding the original budget by more than 10%.
- Ensure that 100% of Redevelopment Agency grant funds are spent on redevelopment-eligible activities and in compliance with grant agreements.
- Ensure that 100% of RDA-sponsored capital projects incorporate environmentally responsible design and construction techniques including, but not limited to, the specification of recycled content building materials and construction debris recycling processes.
- Set aside at least 20% of Agency funds for Affordable Housing through the Housing Development and Preservation Program in compliance with State-mandated set-aside requirements.
- Update the Agency's Long Range Capital Improvement Program as part of the Fiscal Year 2012 budget process.
- Submit the State Controller's Annual Report by December 31, 2010, and comply with all applicable State rules, regulations, and reporting requirements.

Housing Development and Preservation Program

(Program No. 2126 and 2127)

Mission Statement

Promote and facilitate the development and preservation of housing primarily for low- and moderate-income households to foster an inclusive and balanced community.

Program Activities

- Administer Redevelopment Agency funds and other housing funds to facilitate development of affordable housing.
- Establish and maintain prudent lending and management practices for development and operation of affordable housing stock.
- Maintain inventory of affordable projects and manage loan portfolio.
- Coordinate with local housing providers to develop affordable housing projects.
- Administer federal HOME Program funds to facilitate development of affordable housing and assure compliance with federal occupancy and rent requirements.
- Coordinate with local Community Housing Development Organizations (CHDOs) to develop affordable housing.

- Provide approximately \$3 million in Redevelopment Agency, State, and Federal funds for affordable housing projects in accordance with state and federal regulations.
- Assist in the development and preservation of 40 affordable units using density bonus, below-market rate financing, and other development incentives.
- Commit 100% of federal HOME funding to eligible affordable housing projects within two years of receipt.
- Certify compliance of at least 95% of 1,165 rental units to assure that 100% of those units are in compliance with the City's affordability and occupancy requirements.
- Certify compliance of at least 95% of 307 owner-occupied units to assure that 100% of those units are in compliance with the City's affordability and occupancy requirements.
- Assure compliance with City requirements for 100% of initial sales, resales, and refinancings of affordable ownership units.

Key Objectives for Fiscal Year 2011 (cont'd)

Ensure that 100% of City or Agency-funded affordable housing projects incorporate environmentally responsible design and construction techniques including, but not limited to, the specification of recycled content building materials and construction debris recycling processes.

Development Review

(Program No. 2132)

Mission Statement

Manage the development review process, including project environmental review and stakeholder involvement, in order to protect and preserve the City's resources and quality of life.

Program Activities

- Provide support to City Council, Planning Commission, Architectural Board of Review, Historic Landmarks Commission, and Staff Hearing Officer.
- Review, analyze, and make recommendations on project proposals by private property owners and government agencies. Review takes place through all stages of development including pre-application, staff analysis, public hearings, plan check, construction, and future monitoring.
- Work with the Staff Hearing Office, Environmental Review, and Training (SET) Program staff to administer environmental review process in compliance with the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA), when appropriate.
- Provide public information and permit services at the public counter and in phone calls and meetings with members of the public interested in projects.

- Work with applicants to submit complete applications within the second 30-day review at least 70% of the time, in order to improve customer service and reduce workload.
- Encourage at least 50% of Planning Commission projects to receive a Pre-Application Review Team (PRT) review, in order to provide early advice to project proponents and minimize applications that cannot be supported.
- Ensure 80% Planning Commission and Staff Hearing Officer Staff Reports are submitted to the supervisor by the required review date.
- Ensure that 90% of minutes and resolutions are ready for submission to the Planning Commission for approval by the next scheduled Planning Commission meeting.
- o Implement process improvements that reduce the amount of time spent to review projects while maintaining the quality of the City and better managing staff workload, including updated procedures, additional training for new and existing staff, and clearer environmental analysis procedures.

Provide financial guidance to City Council and departments and manage the City's financial operations.

About Finance

The Finance Department is responsible for providing financial expertise and guidance to the City Council and departments, managing the City's daily financial operations, and maintaining the financial integrity of the City. The department's major functional areas include accounting, revenue management, budget, payroll, purchasing, and investment management. The department also administers one internal service fund and one enterprise fund: the Self-Insurance Trust Fund manages the City's insurance portfolio and self-insured workers' compensation program, and the Solid Waste Fund manages the City's operations related to solid waste in support of State AB 939.

Fiscal Year 2011 Budget Highlights

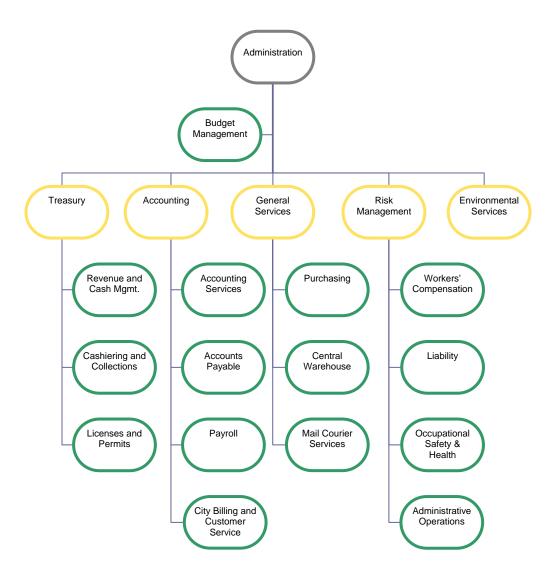

Finance Department staff worked with Information Systems to convert all green bar reports printed by the Accounting Division (payroll, accounts payable, and accounting) to an electronic format. Effective July 1, 2010, these reports will no longer be printed and the line printers will be retired. This change will save the Finance Department over \$10,000 per year. Savings will be realized on paper, printer ribbons, annual printer maintenance costs, and payroll check backup costs from an independent vendor. Additionally, all of the files will be searchable, creating efficiencies for staff.

Program Organizational Chart

Response to Economic Crisis

To address the projected fiscal year 2011 deficit, the Finance Department identified cost saving measures that generate a net savings of \$122,171.

New/Enhanced Revenues (\$75,000)

In fiscal year 2010, the City implemented a new fee of \$5 for late payment of utility bills. The fee was designed to encourage timely payment of utility bills and thus avoid the staff time and related costs associated with delinquent accounts.

Based on projected year-end totals, it is anticipated that actual revenue will exceed earlier estimates. Therefore, the revenue estimate for fiscal year 2011 has been increased to \$175,000, generating an additional \$75,000 in revenue for the department.

Workforce Reductions and Related Adjustments (\$107,171)

Workforce reductions include the elimination of one vacant position and the transfer of one position from the General Fund to the Water Fund. The following measures are recommended:

- o Elimination of vacant Assistant Finance Director position
- Shifting 40% of Utility and Warehouse Supervisor position to the Water Fund to fully fund the position in the Water Fund

Increase in Non-Personnel Costs (\$60,000)

The budget includes an *increase* to certain costs funded from the increased revenues discussed above.

One of these costs relates to contracted audit services for the City's utility users' tax revenues. The City has contracted for these services for over 10 years. In fiscal year 2010, funding for this contract was eliminated, but the contract was not terminated due to reconsideration of its value. The scope of the services includes identifying primarily telecommunication companies not in compliance with the City's utility tax ordinance and monitoring and providing guidance for potential legislation that may affect the utility tax revenues. Continuation of this contract is funded next year, totaling \$50,000, from increased revenues from late fees.

An additional \$10,000 funds several ongoing services, including the maintenance of two standalone financial programs — one for the business license system and the second for investment accounting and reporting.

Impacts to Programs and Services

Since the Assistant Finance Director position previously oversaw three functional areas, Accounting, General Services and Budget, these areas will now have to be directly supervised by the Interim Finance Director. By eliminating the position, workload support normally provided to Division managers for heavy, seasonal work assignments, such as budget development, will no longer be available. Lastly, the department will no longer have the ability to adapt to unexpected turnover of management staff.

Currently, the Utility and Warehouse Supervisor position is responsible for Water Meter Reading and the Central Warehouse functions. As such, 60% of the position is allocated to the Water Fund (for the Meter Reading portion) and the balance of 40% is allocated to the General Fund. Shifting the full cost of the Utility and Warehouse Supervisor to the Water Fund will not have an impact on services. However, the supervisor will now report to the Public Works Department instead of the Finance Department.

The duties associated with supervising the Central Warehouse will now be performed by the Purchasing Supervisor, which would affect the Purchasing office's level of services provided to departments.

Solid Waste

RECENT PROGRAM ACHIEVEMENTS

In November 2009 the City implemented new solid waste collection rates for the business sector to provide increased financial incentives for businesses to divert recyclables and foodscraps from landfill disposal.

Solid Waste

(Program No. 1471)

Mission Statement

Provide reliable, cost-effective collection of residential and commercial recyclables, greenwaste, foodscraps and refuse through the City's franchised haulers, with a primary focus on maximizing diversion of solid waste from landfill disposal.

Program Activities

- Design solid waste programs that protect public health and the environment; maintain the City's compliance with State solid waste mandates.
- Develop a cost-effective solid waste management system to allow the City to maintain control of its waste stream
- Pursue long-term alternatives to disposal and continuously reduce the volume of material disposed in landfills through aggressive recycling, composting and related diversion strategies.
- o Ensure contract compliance with the franchised haulers.
- Manage all components of the City's waste management system.
- Provide information to the public and respond to concerns about hauling services.
- Participate in regional solid waste forums such as the Multi-Jurisdictional Solid Waste Task Group (MJSWTG).

- Meet with 250 new contacts in the business sector about the environmental and financial benefits of recycling.
- Enlist 65 food-service establishments into the Foodscrap Recovery and Composting Program.
- Install and commission a gas collection and control system at the closed landfill at Elings Park as required by CalRecycle and the Regional Water Quality Control Board by March 2011.
- Conduct a rate study for the single-family and multi-unit residential sectors to increase financial incentives for diversion by March 2011.
- In cooperation with the Santa Barbara School District Recycling Committee, achieve a District-wide diversion rate of 60% by June 2011.
- Conduct the Spirit of Service Awards for Recycling, Composting, and Litter Reduction no later than April 2011.

Key Objectives for Fiscal Year 2011 (Cont'd)

Implement Foodscraps Recovery and Composting at all elementary schools in the Santa Barbara School District no later than December 2010.

Provide fire protection, emergency medical rescue and related life safety service to Santa Barbara's citizens and visitors.

About Fire

The Fire Department is responsible for the protection of Santa Barbara from fire and a long list of natural and man-made catastrophes. The Fire Department has provided continuous, uninterrupted service for over 125 years.

Santa Barbara is served by eight fire stations and the City's firefighters respond to more than 7,000 emergency incidents each year.

Employees conduct over 3,000 fire inspections each year as part of the department's commitment to a fire safe community. Plan reviews and inspections of all new construction help ensure the future fire safety of Santa Barbara.

The department's specially trained Airport firefighters operate specifically designed equipment and protect the flying public at the Santa Barbara Airport.

Fiscal Year 2011 Budget Highlights

Begin Fire Administrative Office Renovation Project.

Review and make revisions as necessary to the 2010 California Fire and Building Code and prepare recommendations for adoption.

Place new ladder truck into service to replace 28-year old reserve apparatus.

Fire Department is budgeted in the General Fund and the Wildland Fire Assessment District.

Program Organizational Chart

Response to Economic Crisis

The Fire Department's strategy is to generate savings of \$341,878 by reducing expenditures. Key elements of the strategy are as follows:

Workforce Reductions and Related Adjustments (\$60,930)

The following measure eliminates one vacant employee position:

o Eliminate Office Specialist II position (\$60,930)

Reductions in Non-Personnel Costs (\$280,948)

Reductions to non-personnel expenditures include:

- o Outsource custodial service for the Fire Administration offices (\$40,948)
- Utilize Redevelopment Agency funding to pay for leased office space at 925 De La Vina St. (\$240,000)

Impacts to Programs and Services

The elimination of the Office Specialist position in the department will cause a transfer of additional duties to other office staff, possibly resulting in slower processing times for public records requests, purchase orders, and vendor payments.

(Program No. 3112)

Mission Statement

Ensure the City is ready and able to mitigate, prepare for, respond to and recover from the effects of major emergencies that threaten lives, property, and the environment.

The Office of Emergency Services accomplishes this mission through comprehensive safety education programs by programs for the public, training City employees regarding their Disaster Service Worker roles and responsibilities, and inter-agency coordination activities that assist in the City's emergency management efforts.

Program Activities

- Target emergency preparedness for high-risk populations.
- Collaborate with other emergency service providers to disseminate comprehensive life safety information to the community.
- o Provide business owners with disaster mitigation information.
- Update and maintain the City's Emergency Operations Plan.
- Deliver targeted disaster management training to all City employees.
- o Provide focused training for Emergency Operations Center staff.

- Conduct standardized Emergency Management System (SEMS) and National Incident Management System (NIMS) basic training for all attendees of the City's Orientation program.
- \circ Ensure quarterly workshop sessions for Emergency Operations Center (EOC) Staff.
- o Conduct one CERT (Community Emergency Response Team) session
- o Present eight public service safety announcements through multi media
- Maintain and update on-line disaster training for City staff through Training Partner by June 30, 2011
- Develop a cadre of 10 additional City employees that would assist EOC Sections during a Sustained Operation; complete by January 30, 2011.

(Program No. 3123)

Mission Statement

Protect lives, property and natural resources threatened by wildland fire by the creation of defensible space through engineering, education, enforcement, fuel reduction and fuel modification activities.

Program Activities

- Manage and implement the City of Santa Barbara Wildland Fire Plan strategies.
- Manage the City of Santa Barbara Wildland Fire Suppression Benefit Assessment District Program.

Key Objectives for Fiscal Year 2011

- Complete 14 miles of road clearance annually within the Wildland Fire Suppression Benefit District
- Improve road access utilizing allocated funding as budgeted within the High Fire Hazard Area to increase evacuation and response safety.
- Implement 2 two vegetation fuel modification projects based on FY2008 prescription development equal to 20 acres.
- Provide defensible space education and assistance programs to 25% of the Wildland Fire Suppression Benefit District.
- Utilize 99% of chipped material from road vegetation clearance program by mulching and preventing material from reaching local landfill.

Provide information services, reading materials, and educational resources to residents of all ages from the Santa Ynez Valley to Carpinteria.

About the Library

The Library Department is responsible for providing a full range of contemporary library services to over 227,000 residents of southern Santa Barbara County. The largest components of the department are areas of public service at the Central and branch libraries, including circulation, reference, youth services, periodicals, and reserve materials.

Additional activities include an adult literacy program, interlibrary loan, acquisition of materials in a variety of formats, cataloging and processing of collection materials, delivery of supplies and materials throughout the library system, oversight of the library's automation system, public access computers, website, and maintenance and repair of library facilities.

The Carpinteria, Montecito and Solvang branch libraries are owned and funded by the County of Santa Barbara and administered under an agreement with the City. The Goleta Branch Library is owned by the City of Goleta, receives funding from the City of Goleta and the County of Santa Barbara and is administered under an agreement with the City.

Fiscal Year 2011 Budget Highlights

Library programs, staffing, collections and services will be adjusted to account for the reduced funding levels for FY11.

Donations from individuals, Friends of the Library groups, grants and other partnerships with organizations and libraries will allow the Santa Barbara Public Library System to emphasize youth literacy with outreach to schools, cultural programs and homework help for students. Programs such as Reach Out and Read, Reading is Fundamental and Early Learning with Families encourage acquisition of literacy skills and foster the love of reading.

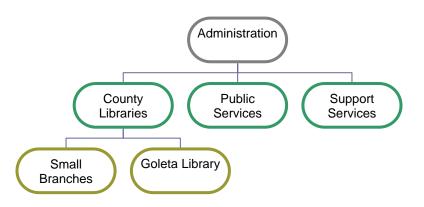

The Library will continue its partnership with the Junior League of Santa Barbara to improve youth literacy through enhancing children's programming at the Central and Eastside libraries.

The Library Department is budgeted in the General Fund and the County Library Fund.

Program Organizational Chart

Response to Economic Crisis

The Library Department's strategy to generate savings of \$354,440 includes both reductions in expenditures and some increased fees. These adjustments affect only the General Fund. The County Library Fund which supports the Carpinteria, Goleta, Montecito and Solvang Libraries is not included in these adjustments.

The impacts of reduced revenues have significantly affected the City Libraries' ability to provide the consistent level of service that residents have experienced in the last decade, including being open seven days a week, ample supplies of new materials and staff members available to assist. In the past two years, the staffing level at the libraries has dropped by 16%. The budget was reduced by \$365,000 in the previous fiscal year.

New/Enhanced Revenues (\$7,000)

Meeting room charges have not been increased in several years and are low compared to other community meeting rooms. Art gallery exhibit space fees were increased two years ago, but also remain comparatively low. Fee increases are expected to generate approximately \$5,500 in additional revenues. No fee currently exists for use of the Library Front Plaza. A fee of \$200 for non-profits and \$350 for for-profit organizations is expected to generate \$1,500.

Workforce Reductions and Related Adjustments (\$235,196)

The budget includes the elimination of a total of 3.8 full-time equivalent (FTE) positions. Budget reduction measures include the following:

- o Eliminate vacant Library Assistant II PPT position (\$47,206)
- o Eliminate vacant Library Technician position (\$62,706)
- Eliminate vacant Library Assistant I position (\$46,088)
- Eliminate vacant Librarian II position (\$79,196)

Reductions in Non-Personnel Costs (\$112,244)

The Library's budget for new collection materials remains at a reduced level. Funding for this critical resource has been reduced by 38% in the last five years. Coupled with increased costs for books and other materials, the net effect is a loss of more than 50% in buying power.

Reductions in supplies and services include travel and other miscellaneous expenditures. Some savings in utility costs will be realized with reduced open hours.

Impacts to Programs and Services

The loss of the Librarian II position in Youth Services will transition direct supervision of the Children's work unit at the Central Library to the Senior Librarian responsible for all Youth Services programs. As a result, some duties currently performed by the Senior Librarian will be discontinued. These include the annual poetry contest, teen outreach and outreach to parents to promote youth literacy skills. Memberships in local youth-related organizations and participation in community- wide coalitions will be reduced or discontinued.

The loss of these staff positions will result in a Monday closure of the Central and Eastside Libraries and reduced access to library services and collections. Open hours will be reduced from 59 to 49 at the Central Library and from 44.5 to 39.5 at the Eastside Library. Currently open only three hours on Saturdays, the Eastside Library will increase its open hours to 7.5 on that day.

Many library users, including students needing information for homework assignments or a quiet place to study will be inconvenienced by the Monday closure. The library's online resources are available 24 hours a day and include online databases and downloadable audio books, access to the library catalog and the ability to request materials.

Elimination of vacant positions also means continued delays in processing new materials and delays in receiving assistance at public desks. In addition, library users may wait longer for a response to their telephone requests for reference service or account information. Staff shortages have also caused intermittent closure of the administration office.

Mayor and City Council

Establish policy, approve programs, and oversee the financial affairs of the City to govern the City of Santa Barbara.

About Mayor and City Council

The Office of the Mayor and six City Councilmembers comprise the City Council. The Mayor presides over the City Council meetings held weekly in open public session in the Council Chamber.

The seven-member governmental body serves the City at large. Its duties under the City Charter include approval of the Annual Budget and oversight of the financial affairs of the City. The Mayor and City Councilmembers appoint the City Administrator and the City Attorney. The City Council has the power to adopt ordinances and resolutions; make appointments to advisory boards and commissions; establish policy and approve programs; act on program and administrative recommendations of City staff; appropriate funds and approve contracts; and respond to concerns and needs of residents.

The Mayor and Councilmembers serve as the Board Members of the Redevelopment Agency. Individually, Councilmembers may represent the City by serving on state and regional boards and local civic organizations.

Fiscal Year 2011 Budget Highlights

The Mayor and Council will oversee the:

- General Plan update;
- Airport terminal remodel;
- Sustainable Santa Barbara Program;
- Continuing support for the youth of the community;
- City's capital and transportation needs and funding options; and
- > Adoption of the City's budget

Staff to the Mayor and City Councilmembers assist in responding to numerous calls and letters from citizens each week, including conducting research and drafting responses.

The Mayor and City Council oversee and evaluate the programs and accomplishments of departments.

Non-Departmental

About Non-Departmental

The Non-Departmental "department" is used to account for costs not directly related to any specific department. It consists of two programs: the General Government program and the Community Promotions program.

The General Government program includes funding for debt service on General Fund long-term debt, the General Fund capital program and the appropriated reserves established each year pursuant to City reserve policies.

The Community Promotions program includes funding for a number of non-profit organizations in the City that coordinate festivals and events during the peak visitor season during the summer, including Fiesta, Santa Barbara Symphony 4th of July Concert, and Summer Solstice Celebration.

The City also provides funding to the Santa Barbara Conference and Visitor's Bureau (SBCVB) to support their marketing efforts designed to attract visitors to the South Coast and funding to the Chamber of Commerce Visitors' Information Center located on Garden Street at Cabrillo Boulevard.

DEPARTMENT SUMMARY

Parks and Recreation

Provide residents and visitors with diverse open space, parks, beaches and community forest resources, creek restoration and water quality enhancements and enrich people's lives through a broad array of recreation and community services.

About Parks and Recreation

The Parks and Recreation Department is comprised of 5 divisions: Administration, Parks, Recreation, Creeks and Golf. The Department manages a diverse and unique park and recreation system – 1,765 acres of parkland encompassing 59 developed and open space parks, beaches, recreation and sports facilities, community forest and municipal golf course.

Recreation programs engage people of all ages, with specialized programs for youth, teens, active adults, low-income families and people living with disabilities. Recreation opportunities for the community are enhanced through collaborations, partnerships and volunteers.

The Creeks Restoration and Water Quality Improvement Program, funded by Measure B, implements clean water and restoration projects city-wide.

The City's 18-hole municipal golf course, Santa Barbara Golf Club, is well known for the exceptional quality of its greens and spectacular views.

Fiscal Year 2011 Budget Highlights

Manage department programs and services through challenging fiscal times to protect park and recreation resources, offer accessible, high quality recreation programs and respond to community priorities.

Work with City Administration and the community to improve how the City provides outreach and services to underserved neighborhoods and strengthen outcomes for youth and families.

Partner with the South Coast Gang Task Force and coordinate the Youth Jobs Network, a local collaboration of programs fostering youth job readiness and employment opportunities.

Implement a strategic plan to increase fundraising, grants and donations to support department programs and projects.

Provide leadership in the implementation of the multi-jurisdictional Front Country Trails Management Recommendations to address trail use, maintenance, and management.

Complete the renovation of the Carrillo Recreation Center, funded by the Redevelopment Agency.

DEPARTMENT SUMMARY

Parks and Recreation

Program Organizational Chart

Parks and Recreation

Response to Economic Crisis

The decline of City General Fund tax revenues affects three of five Parks and Recreation Department divisions - Parks, Recreation and Administration. The Golf Course and Creeks Program do not receive General Fund support. The Department's FY 2011 budget includes \$476,476 in budget adjustments, achieved through new revenues and expenditure savings. These adjustments add to the \$1.5 million in cost saving measures implemented in the current fiscal year.

The last two years have taken a heavy toll on the General Fund supported Parks and Recreation divisions. Since Fiscal Year 2009, General Fund support for parks maintenance, operation and maintenance of recreation facilities, and recreation programs has decreased 28.4%, with a comparable workforce reduction of 18%. During the same period, capital funding has been cut by \$707,371, reducing or eliminating funding for eight park or recreation facility improvements. The City's 6-Year Capital Improvement Program includes over \$32 million in unfunded improvements to existing park and recreation facilities.

New/Enhanced Revenues (\$48,100)

The Department Budget includes \$48,100 in new and enhanced revenues. New concessions in Chase Palm Park and East Beach, and a portable ATM on-site during the Sunday Art Shows will enhance the park visitor experience. The Department is working with co-sponsors and partners who use City parks and facilities to increase their contribution towards maintenance of those facilities (i.e., Pony Baseball, Santa Barbara Swim Club, MacKenzie Park and Santa Barbara Lawnbowls Clubs, Major League Softball).

Workforce Reductions and Related Adjustments (\$328,252)

The FY 2011 budget includes a total reduction of 3.4 full-time equivalent (FTE) positions, including eliminating 3 positions and reducing 2 positions to half-time. All position reductions are vacant or have planned retirement. In addition, hourly staff support are reduced by 2167 hours, equaling 1.0 FTE. This brings the total Parks and Recreation FY 2011 workforce reduction to 4.4 FTE. The cost reduction measures include the following:

- Eliminate a vacant Teen Center Coordinator (.80 FTE) position and continue to operate the center with hourly staff. Following the December 2009 vacancy, outreach, operation and programming of the center has been provided by hourly staff; programming and attendance has increased over the previous year (\$59,014).
- Reduce Department Administration by 2 FTE, reflecting workforce reductions throughout the Department and decentralized customer service operations. Eliminate vacant Business Manager and Administrative Specialist following August 2010 retirement; and maintain salary savings from one Administrative Specialist on extended leave. As a result, the public service desk at 620 Laguna St. will close with services provided in other Recreation offices, causing a

Parks and Recreation

moderate inconvenience to customers. Reduced administrative staffing creates workload impacts for capital projects, planning, and special projects (\$220,197).

Reduce two vacant positions (Pool Maintenance Technician and Grounds Maintenance worker

 I) to .5 FTE. Increase the Pool Manager from .80 to 1.0 FTE to assist with pool maintenance (\$49,041).

Reductions in Non-Personnel Costs (\$100,124)

- Decrease General Fund support for the Downtown Organization State Street maintenance contract by 10% (5% reduction overall as Downtown Parking provides 50% of funding), resulting in less maintenance of State Street sidewalks and landscape (\$31,000).
- o Delay replacement of rental facility equipment (i.e., tables, chairs, etc.); equipment may look worn or be slightly damaged due to delayed replacement (\$13,000).
- Transfer operation and maintenance of the Twelve 35 Teen Center to the Police Activities League or other teen serving non-profit effective September 2010. Existing services and programs will continue and new teen programming will enhance services. General Fund savings include staffing and building operation and maintenance costs. It is anticipated that savings will grow in future years (\$44,566).
- o Transfer Las Positas Tennis Facility to Elings Park Foundation as of September 2010. Elings Park to assume all programming, maintenance, operation and capital expenses. Public tennis programs including drop-in play, classes, camps, etc., would continue under Elings' management. Future year savings will be greater. Elings will assume approximately \$1.1 million in identified facility improvements, unfunded in the City's Capital Improvement Program for many years, to improve the facility for park users and tennis players alike (\$11,558).

Impacts to Programs and Services

In developing budget reduction options, Parks and Recreation focused on:

- Restructuring around vacancies with sufficient resources in place to maintain quality programs and services
- Increasing funding by organizations that use City parks and facilities to offset maintenance costs
- Protecting critical public services that are less accessible to the underprivileged or lowincome or are not provided elsewhere in the community

Parks and Recreation

- o Transferring facilities/services to other service providers, provided current services to the public are continued
- o Protecting park and facility resources to the greatest degree possible, above programs where needed, so that the community continues to have access to recreational spaces.

Operating under a community-oriented policing philosophy, create and maintain a safe community where people can live in peace without the fear of crime.

About Police

The Police Department is responsible for providing law enforcement services to the City of Santa Barbara. Working in partnership with the community, quality and professional law enforcement services are provided in a fair and efficient manner.

The Patrol Division provides police services to the community that includes 24-hour patrol response to calls for service, traffic enforcement, gang suppression, crisis response teams and restorative policing services for the homeless and mentally ill.

The Investigative Division conducts follow-up investigations from initial crime reports that include crimes against persons, property, narcotics, gangs, schools, and forensic investigations.

The Administrative Services Division provides support services to the entire organization. These services include training and recruitment, information technology, records, evidence management, crime analysis, animal control, fleet management, community policing, permits and management of police facilities.

Our motto "Dedicated to Serve" captures our commitment to ensure a safe and secure place for people to live, work and enjoy our community.

Fiscal Year 2011 Budget Highlights

The Santa Barbara Police Department's primary mission is the protection of life and property, the prevention of crime, and the regulation of traffic. The department responds to over 30,000 calls for service each year.

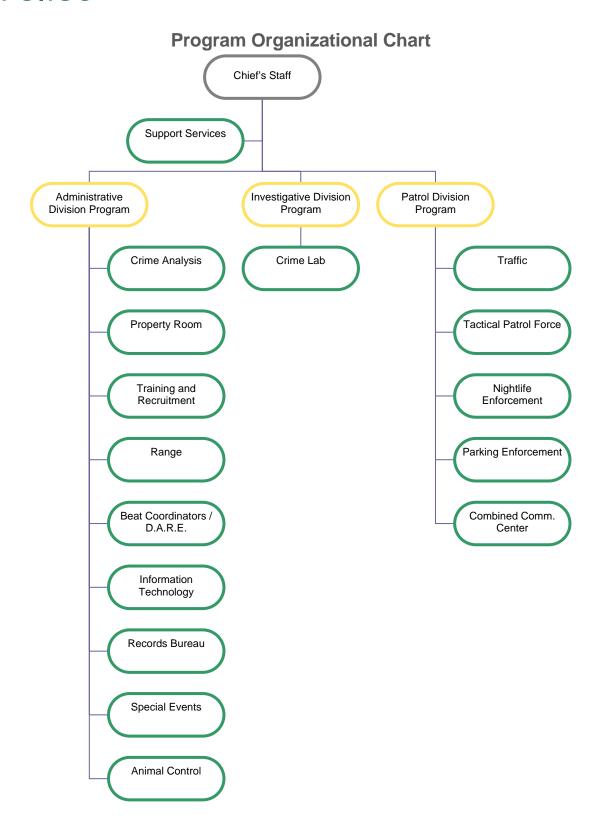

The department continues its community-oriented policing philosophy with programs that include "Restorative Policing" for mental illness, "Drug Abuse Resistance Education (D.A.R.E.) in our elementary schools, and the Police Activities League (PAL) serving over 1,000 children.

Police Department is budgeted in the General Fund, Police Asset Forfeiture and Grants Fund, Supplemental Law Enforcement Fund, Miscellaneous Grants Fund, and the Traffic Safety Fund.

Response to Economic Crisis

The Police Department plans to maintain staffing in patrol and other critical assignments to ensure staffing reductions have the smallest impact on overall public safety. To this end, the department will enhance revenue, as appropriate, and will schedule vacancies to ensure no service reductions to the public. In addition, the department is reducing non-essential equipment and services.

Workforce Reductions and Related Adjustments (\$671,983)

The following positions will be either eliminated or held vacant to generate cost savings:

- o Eliminate vacant Administrative Specialist position (\$64,231)
- o Eliminate vacant Crime Analyst position (\$78,102)
- o Eliminate vacant Office Specialist position (\$57,141)
- Eliminate the Records Manager position (\$80,565), effective October 2010, transferring duties to the Administrative Services Lieutenant.
- o Eliminate three vacant Police Officer entry positions (\$342,510). The Police Department is currently authorized for the staffing of 140 Police Officer positions, of which seven are currently vacant. Therefore, the department is currently operating with 133 Police Officers, including four who are in the police academy. The current strength (133) is sufficient to maintain a full service paradigm (PAL, DARE, Beat Coordinators, etc.), but the Police Department will need to project upcoming vacancies and periodically "over-hire" to ensure that the current strength of 137 officers does not decline through attrition to unacceptable levels. With the reduction of costs for the three Police Officer positions (\$342,510), \$200,000 in appropriated reserves will be used to ensure the over-hiring strategy can be implemented.
- Reduce hourly staff support (\$32,248) and seek volunteers to offset the loss of hourly employees
- Reduce overtime paid to staff due to fewer overtime assignments in the Patrol Division once Dispatch reaches full staffing (\$17,186)

Reductions in Non-Personnel Costs

The Police Annex lease is being ended and Police personnel are transitioning back into the main headquarters, effective January 1, 2011, assuming a configuration similar to pre-annex deployment. (\$166,500 for half the fiscal year, or \$333,000 annual savings to General Fund)

The following measures are also included to reduce costs:

- Eliminate contracted document shredding service and begin shredding paperwork within the department (\$3,398)
- Reduce vehicle fleet by 12 vehicles that are underutilized or scheduled for elimination (\$49,210)
- o Defer computer replacement for 12 computers for one additional year (\$25,000)
- Reduce training costs and seek alternative funding sources (i.e. Department of Homeland Security) (\$18,977)
- o Reduce uniform allowance funding due to personnel vacancies (\$3,114)

Impacts to Programs and Services

The Police Department is maintaining its current operational strength of 133 sworn Police Officers, but will realize a reduction in its authorized strength of 140 Police Officers, with three vacant positions being eliminated. With a current operating strength of 133 officers, the police department is able to maintain our current level of service to the public. Our current staffing level allows for some flexibility to accommodate shortages caused by injuries and vacancies, but the department will need to proactively recruit and train replacement officers to ensure staffing remains at its current level and to prevent service reductions to the public. Should the department fall even slightly below is current level of 133 officers, service cuts to include PAL, DARE, Traffic Enforcement, or Beat Coordinators will likely occur to mitigate the staffing shortages.

RECENT PROGRAM ACHIEVEMENTS

Created an in-house training program to educate Crime Scene Investigation (CSI) officers and improve forensic science techniques being used in the field.

Crime Lab

(Program No. 3432)

Mission Statement

Collect and process forensic evidence to assist in criminal investigations.

Program Activities

- Respond to crime scenes to identify, document, collect, and preserve physical evidence for future examinations.
- Examine and analyze evidence in the laboratory, including the identification of suspected controlled, trace evidence (i.e. hairs, fibers, physiological fluids), and the evaluation of various types of physical evidence.
- o Conduct Hi-Tech crime analysis including the forensic examination of electronic evidence (i.e. computers and hand-held devices).
- Perform various photographic assignments, including maintaining the digital image archive of crime scene photos, and perform departmental photographic work, including developing and printing a variety of films used for evidence and court displays.
- Process evidence for latent fingerprints, examine latent fingerprints and conduct fingerprint comparisons.
- Attend autopsies in criminal cases for evidence collection, documentation and evaluation.
- Examine evidence to determine if further forensic analysis is required by forensic scientists at the Department of Justice (DOJ) or Federal Bureau of Investigations (FBI). These include: serology, DNA, hair and fiber comparisons, footwear and tire track exams, ballistics, and document examinations.
- Prepare reports that document crime scenes and results of evidence examinations.
- Provide expert testimony in court regarding the examinations and evaluations performed.

- Process 95% of photographic evidence submitted by Crime Scene Investigators and Detectives within four working days.
- Submit 95% of all CAL-ID quality latent fingerprints to Department of Justice within four working days.

Key Objectives for Fiscal Year 2011 (cont'd)

- o Ensure 95% of evidence processing requests by investigators and District Attorney's office be completed within four working days.
- \circ Ensure 95% of computer examinations are completed within 60 days following the date assigned to examiner.

Combined Communications Center

(Program No. 3451)

Mission Statement

Receive all calls for service and dispatch public safety resources in an expedient manner.

Program Activities

- Provide radio communication for Police, Fire and rescue personnel during emergency, routine, and disaster situations 24 hours per day.
- Receive initial requests for emergency and non-emergency incidents requiring Police, Fire, and medical personnel, determine appropriate response, and dispatch units accordingly.
- Receive requests from the FAA Air Traffic Controllers and respond with appropriate emergency equipment to aircraft emergencies at the Santa Barbara Airport.
- Coordinate public safety activity with Police, Fire, allied agencies, and other City department staff.
- o Provide Emergency Medical Dispatch services to the community.
- Maintain certifications for communications staff in compliance with Police Officer Standards and Training and Emergency Medical Dispatching.
- Coordinate and comply with discovery requests from the Court Liaison Officer and District Attorney's Office.
- o Provide continuous training and support through communications training to develop and retain public safety dispatchers.

- o Answer all 911 calls within an average of 4 seconds.
- Maintain a daily minimum staffing level of 82% in Combined Communications Center.
- Ensure 90% of all non-trainee dispatchers are current with their Emergency Medical Dispatching certification.
- complete minimum of two applicant interviews and advance to background processes.
- O Select replacement 911 phone system: Obtain State funding to purchase.
- Select replacement Uninterruptible Power System (UPS.) Obtain State funding to purchase.

Animal Control

(Program No. 3461)

Mission Statement

Provide law enforcement and respond to calls for service for neighborhood and health concerns related to domestic and wild animals.

Program Activities

- Investigate reports of possible rabies exposure from animal bites to humans and wildlife bites to domestic owned animals.
- Quarantine animals as required or submit specimen for lab testing.
- Enforce State Humane Laws under the Penal Code, California Code of Regulations, Civil Code, Fish and Game Code, Food and Agriculture Code, Health and Safety Code, Government Code, and Title 6 of the Santa Barbara Municipal Code.
- Impound stray, abused, neglected, injured, sick, abandoned, dead, or aggressive animals.
- Deal patiently and effectively with frightened, fractious, and injured animals with the ability to humanely capture, control, carry, or subdue.
- Respond to calls for service regarding animal complaints seven days a week and provide standby service for emergencies after regular work hours.
- Promote good public relations by educating pet owners on laws pertaining to the care and control of animals, spaying, neutering, vaccinating, and licensing of pets.

- o Respond to 90% of animal calls within 24 hours.
- Quarantine 90% of animals involved in bites to humans or contact with wildlife.
- Handle 100% of impounded animals in accordance with state laws.

Provide for the public's needs relative to transportation, water, wastewater, and city owned buildings.

About Public Works

Public Works responsibilities include the design and construction of the city's capital program projects, management and planning of a city transportation system, treatment and reliable distribution of high quality water at a reasonable price, collection and treatment of wastewater at a reasonable price, cost effective construction and maintenance of city streets, public drainage facilities, street lights, traffic signals and other city infrastructure facilities. As well, Public Works is responsible for the maintenance of the City fleet and all City facilities. To accomplish this mission, the Department is divided into six functional areas; Engineering Administration, Services, Facilities Management, Fleet Management, Transportation, and Water Resources.

While the main office for Public Works is located at 630 Garden Street, the department is also responsible for operating the City's El Estero Wastewater Treatment Facility and the Cater Water Treatment Facility which provides basic water and sewer service to over 100,000 customers.

Fiscal Year 2011 Budget Highlights

- Complete design and start construction of the Headworks Screening Replacement Project at the El Estero Wastewater Treatment Plant.
- Complete the design for the Ortega Street and Cabrillo Boulevard replacement bridges.
- Complete the undergrounding of utilities on Cliff Drive, on the Mesa.
- Design and construct the Fats, Oil, and Grease (FOG) pilot project to digest grease from restaurants for potential power supplies.
- ➤ Continue the Ozonation project at the Cater Water Treatment Facility to begin construction in the spring.

The Public Works Department is budgeted in the following funds:

- ➤ General Fund
- > Downtown Parking Fund
- > Facilities Management Fund (ICS)
- ➤ Fleet Maintenance Fund (ICS)
- > Fleet Replacement Fund (ICS)
- ➤ Miscellaneous Grants Fund
- > Streets Fund

- > Streets Grant Fund
- ➤ Street Sweeping Fund

- ➤ Wastewater Fund
- ➤ Utility Undergrounding Fund

Response to Economic Crisis

All City departments were directed to provide budget reduction strategies to meet the General Fund deficit forecast of \$9 million.

General Fund

The Public Works Department strategy to generate cost savings includes cuts in expenditures, elimination and reorganization of staff positions, as well as an increase in estimated revenue from the Engineering Services Division work on Capital Projects.

New/Enhanced Revenues (\$604,500)

Positions in the Engineering Division of Public Works are budgeted in the General Fund, however, these positions are funded by engineering charges to capital projects in various city departments. The engineering staff proposes to focus more time on direct project work, reducing time spent on consultation, cross-department work groups, and training. This measure also involves transferring 1.5 full-time equivalent (FTE) positions from the Transportation Division to the Engineering Division to bill their engineering services to city departments. The focus on higher productivity is estimated to generate additional revenue of \$604,500.

Workforce Reductions (\$100,935)

The following workforce reduction will be realized to reduce costs:

o Eliminate vacant Project Engineer II position

Reductions in Non-Personnel Costs (\$79,524)

Reductions to non-personnel expenditures include a reduction in General Fund support to the Graffiti Abatement Program on private property. The Streets funded Graffiti Abatement Program in the public right-of-way will continue.

Impacts to Programs and Services

The impact of the budget adjustments is not anticipated to impact on the timely delivery of capital projects. Engineering response to requests for non-project support to other departments will be limited.

Street Fund revenues have experienced reductions similar to the reductions in General Fund revenues. To reduce costs in the Transportation Division and offset the loss of Street Fund revenues, 1.5 FTE positions will be transferred from the Transportation Division to the Engineering Division and .5 FTE positions will be transferred from the Transportation Division to the Downtown

Parking Program. The reduction in Transportation staff will result in slower response or delay of special projects and transportation studies, including requests for stop signals, speed surveys, ordinance changes, and accident analysis.

Intra-City Service Funds

The Public Works Department Intra-City Service (ICS) Funds are generating savings for the General Fund by reducing rates allocated to all departments by 5%. This will result in less revenue for Facilities Maintenance and Vehicle Maintenance programs.

Workforce Reductions (\$173,292)

The Public Works ICS Funds will realize the following workforce reduction measures:

- o Elimination of a vacant Accounting Assistant position in the Facilities Maintenance Program
- Transferring part of a Streets Maintenance Worker II position (.20 FTE) to the Streets Division
- o Elimination of an Auto Equipment Technician position in the Fleet Management

Overall, the ICS funded programs will be reduced by 2.2 FTE positions.

Reductions in Non-Personnel Costs \$(174,781)

Reductions in non-personnel costs for the Fleet Management Program were made to various expenditure line items in the Vehicle Maintenance Program including professional services, contractual services for repairs, training, and equipment replacement.

Impacts to Programs and Services

In the Facilities Program, a reorganization will address the reduction in General Fund projects, resulting in a more efficient administrative unit, and allow management of specialty projects. The decrease in revenue will impact the larger facilities renewal projects that our skilled trades' staff cannot perform, such as roof replacements, HVAC replacements, major exterior painting projects, and parking lot paving.

In the Vehicle Maintenance Program, service impacts will include reduced vehicle repair and cosmetic body work, and the elimination of on-site car washing. Training will also be reduced, impacting the ability of technicians to keep up with current vehicle technology. Vehicles needing repair may be out of service for a longer time period. Diagnostic equipment and software will not be updated with the information from the manufacturers and will not be updated to support current model year vehicles and equipment.

Administration

(Program No. 4111)

Mission Statement

Provide excellent public service and administrative, personnel and financial management support to Department staff in order to ensure efficient and organized day-to-day operations of the department.

Program Activities

- Support the activities of the division managers and provide interface and support to other city department heads.
- Develop and coordinate all department revenues including water and wastewater rate setting.
- Monitor and coordinate the department's budget activities, ensuring that all expenditures are within appropriation.
- o Coordinate timely and responsive input to develop the Capital Improvement Plan, the financial plan and annual budget.
- Process departmental correspondence and phone calls, Council reports, departmental claims and requisitions, as well as all personnel documentation and evaluations for the department, ensuring timeliness and accuracy.

- o Ensure divisions meet 80% of their program objectives.
- Ensure all Funds within Public Works are within budget and that proper accounting procedures are followed.
- Ensure all divisions respond to 90% of complaints filed via the City Administrator's (CAO) or Mayor's Office within 5 days of receipt.
- Prepare mid-year budget review for Fiscal Year 2011.
- Develop Fiscal Year 2012 (or 2012-2013) budget as appropriate, including all auxiliary items such as new fee schedules, revenue projections, line items, etc.
- Prepare an annual Public Works Department Annual Report describing the years' accomplishments. Complete the FY 2010 Annual Report in the first quarter and coordinate and develop the FY 2011 Draft Annual Report by June 30, 2011
- o Coordinate, develop and file by January 31, 2011, the City of Santa Barbara's FY 2012-FY2017 Capital Improvement Plan.

Engineering Services

(Program No. 4211)

Mission Statement

Provide professional engineering and management support for city departments and all Capital Projects to maintain and improve the city's infrastructure.

Program Activities

- o Manage construction of the city's Capital Improvement Program (CIP).
- o Provide professional engineering services for planning, designing, surveying, inspecting and managing the city's Capital Program.
- Provide long-range master planning and engineering support for the city's capital infrastructure, in addition to general engineering services for all city projects as requested.
- Track and bill engineering services to user departments or capital improvement projects for design and construction.

- o Complete 75% of budgeted Capital Program project milestones assigned to Engineering.
- For projects greater than \$400,000, limit engineering services (staff and consultant costs) to average less than 25% of total project costs.
- o For projects less than \$400,000, limit engineering services (staff and consultant costs) to average less than 40% of the total project cost.
- Limit the cost of construction contract change orders in Capital Program projects to less than 9% of the total annual value of construction awarded.
- Complete construction of the Carrillo Recreation Center Rehabilitation Project.
- Meet or exceed the work order revenue projections.
- o Open the Haley/De La Vina Bridge to traffic in the fourth quarter.
- Begin construction of the Cater Ozonation Project.
- Conduct at least one post-construction public feedback survey to assist in the continued enhancement of CIP management.
- Meet quarterly with client departments to consider feedback on the quality of services being provided by the Engineering Division.

Land Development

(Program No. 4212)

Mission Statement

Manage the public right-of-way and city-owned lands, protect the interests of the general public, and process private development review applications and permits.

Program Activities

- Ensure land development projects comply with applicable regulations including the Subdivision Map Act, sound engineering practices, and city policies and guidelines.
- Manage and operate the Public Works permit counter, which issues over the counter Public Works permits, and participate in the review of over 3,000 building construction permits annually.
- Review and process private land development project applications and coordinate a unified Department response from all Department divisions.
- Coordinate Department review and permitting of private land development projects.
- Manage and maintain a monthly inventory of the city's real property interests, including city utility easements.
- Acquire rights-of-way and associated easements as required for city initiated public improvement projects following applicable Federal, State, and local statutes.
- Manage and maintain the Public Works library of record drawings and digital geospatial data.
- Manage and provide enforcement of the Outdoor Dining Program for permits issued for outdoor dining on city sidewalks.

- Meet 100% of Land Development Team discretionary land development project review deadlines.
- Meet 85% of the target response dates for staff review of specific building permits at the Public Works Permit Counter.
- o Provide quarterly updates to 90% of active case task applicants regarding status of real property related tasks.

Officially closed three Leaking Underground Fuel Tank (LUFT) sites.

Environmental Compliance

(Program No. 4213)

Mission Statement

Properly manage and dispose of hazardous materials, and comply with State regulations applying to City-owned and operated Underground Storage Tanks (USTs), Leaking Underground Fuel Tanks (LUFTs) and Site Mitigation Units (SMUs).

Program Activities

- Assess and oversee remediation of soil and groundwater contamination from Leaking Underground Fuel Tank (LUFT) and Site Mitigation (SMU) sites to comply with State regulatory requirements.
- Prepare reports for all LUFT and SMU sites as required by regulatory agencies.
- Provide vector control services in City creeks and public right-of-way and provide vector control information to citizens regarding mosquitoes, bees, mice and rats.
- Provide for the proper disposal of hazardous waste found in the public right-of-way.

- Meet 100% of required deadlines for site assessment and/or remediation efforts in compliance with the Local Enforcement Agency (LEA) of the California Water Quality Control Board (CWQCB).
- Meet 100% of the required deadlines for groundwater monitoring events and report submittals for the City's all LUFTS and SMUs as required by the Local Enforcement Agency (LEA) of the California Water Quality Control Board (CWQCB).
- Respond to 100% of Hazardous Material spills within one hour of call.
- Resolve 100% of vector control requests for creeks and the public right-of-way for mosquitoes, bees, mice, and rats within five working days.
- Process and submit 98% of all hazardous waste fees, taxes, permits and manifests, state and county oversight fees, business plans, UST permits, fuel tank throughput reports, and related requirements from federal, state and/or county entities on time.
- Remove underground storage tank at Vic Trace Reservoir and install new generator with belly tank. Assess and begin site remediation.

RECENT PROGRAM **ACHIEVEMENTS**

The City was awarded \$400,000 from the Highway Safety Index Program for the traffic safety project at Carrillo and Anacapa Streets.

Traffic Operations

(Program No. 4311)

Mission Statement

Effectively manage the transportation network and develop improvements that are responsive to the needs of all travel modes so that people and goods can move safely and efficiently throughout the city.

Program Activities

- o Collect, analyze, and interpret traffic information needed to optimize the transportation system to meet travel demand and city policy for equality between all modes of travel.
- Monitor traffic collisions to identify high collision locations and prevent collisions by collaborating with the Police Department.
- Respond to public requests, suggestions, and inquiries for changes in parking and traffic control.
- Provide direction in the design and construction of public and private improvements to ensure traffic safety and minimize travel impacts.
- Collect and process traffic data for transportation planning and land development review activities.
- Operate a coordinated traffic signal system to maximize safety, minimize delay, and be responsive to pedestrian, cyclist and motor vehicle needs.
- o Review collisions involving pedestrians, bicyclists and vehicles and take corrective action as necessary to reduce collision rates to be equal to or lower than statewide averages.

- o Maintain level of service C or better at 80% of the Santa Barbara County Association of Governments (SBCAG) Congestion Management Program signalized intersections during peak hours in order to provide acceptable levels of automobile related congestion and achieve consistency with the regional Congestion Management Plan.
- Investigate and resolve 85% of traffic related concerns, complaints, and requests within 60 calendar days.
- Perform review of 50% of temporary traffic control plans within five business days.
- o Complete speed surveys on five streets to support Police enforcement of established speed limits.
- o Review collision rates at intersections annually to determine the need to conduct warrant analyses for multi-way stops and traffic signals.

Key Objectives for Fiscal Year 2011 (cont'd)

- Conduct annual review of Citywide collisions with recommendations for improvement in the CIP.
- o Develop pedestrian refuge island standard detail.

RECENT PROGRAM ACHIEVEMENTS

City employees enrolled in the Work TRIP program reduced their commute by 1,000,000 miles using alternative transportation to get to work.

Transportation Planning & Alternative Transportation

(Program Nos. 4312 and 4314)

Mission Statement

Review private land development and plan public transportation facilities and policy so that people can move within the city with equality of convenience and access among all modes of transportation; and, plan and coordinate projects and programs that promote alternative modes of transportation and are widely available and attractive to the public.

Program Activities

- Support regional transportation planning decision making.
- Identify and compete for State and Federal money for transportation system development.
- Work directly with community groups to address neighborhood and business transportation concerns, and develop appropriate programs or projects.
- Review all site plans for conformance with transportation and parking alternative transportation policies, regulation, and practices.
- Fund the construction of new or improved pedestrian and bicycle facilities.
- Fund the construction of new facilities serving various alternative transportation modes.
- Fund the operation of energy efficient, non-polluting electric shuttle buses.
- Develop funding programs for Transit Capital and operating assistance.
- Subsidize the operation of various transit assistance programs.
- Plan auto related, non-auto, and auto alternative improvements to the City's transportation system, consistent with policies of the Circulation Element, Bicycle Master Plan and others.
- Work with the Community Development Department to implement the Circulation Element.

Key Objectives for Fiscal Year 2011

- Meet 90% of all Land Development Team (LDT) Pre-application Review Team (PRT) and Development Application Review Team (DART) deadlines.
- Review and act within deadlines on 80% of all Development Plan Agreement (DPA), Architectural Board of Review (ABR), Historic Landmarks Commission (HLC), building permit, modification, and garage waiver requests.
- Submit one grant application annually for capital improvement projects that will improve the availability and/or attractiveness of alternative modes of transportation. (GREEN)
- Locate and install 25 new bicycle hitching posts to achieve the goals of the Circulation Element and Bicycle Master Plan to provide more bicycle parking throughout the community. (GREEN)
- Oversee the development of the Transportation portion of the Plan Santa Barbara Final EIR, traffic modeling efforts, and revisions to various elements of the General Plan.
- Participate with the Santa Barbara County Association of Governments (SBCAG) to develop a regional plan that integrates regional transportation planning, housing allocation, and land use decision making to reduce greenhouse gas emissions to meet the targets established by the California Air Resources Board and in compliance with SB 375. RECENT PROGRAM ACHIEVEMENTS

Reduced expenses for concrete and asphalt debris removal by over 60%.

Transportation and Drainage Systems Maintenance

(Program No. 4411, 4413-4415)

Mission Statement

Clean, maintain and repair transportation and drainage system infrastructure and other public property within the public right-of-way, to enhance community mobility, to improve community appearance, and to preserve creek and water quality.

Program Activities

- Maintain streets, sidewalks, curbs, gutters, and roadside vegetation using a variety of maintenance techniques.
- Maintain and revise pavement striping, painted curb, crosswalks and pavement legends.
- Repair or replace damaged or deteriorated storm drain facilities and remove debris from the storm drain system.
- Install and maintain street name, traffic warning, and regulatory signage.
- Operate and maintain storm water pump stations and respond to storm conditions or emergencies to protect property.
- Remove graffiti from public property in right-of-way and notify of and assist private property owners with graffiti removal on private property.

- Repair 75,000 square feet of street and sidewalk with asphalt, including potholes, skin patching, sidewalk padding, and overlays.
- Replace 11,000 square feet of damaged concrete sidewalk, curb, and gutter.
- o Support right-of-way cleanups at request of the Police Department.
- Remove 90% of graffiti in the public right-of-way within three days of report to Streets staff.
- o Maintain 96,000 linear feet of the existing curb markings each year.
- Maintain 200 crosswalks per year.
- Replace 500 faded or damaged street name signs, warning, and/or regulatory signs per year.
- Perform maintenance along both sides of the 5.9 mile railroad corridor for a total of 11.8 miles within City limits with California Conservation Corps, to a level agreed upon under the provisions of the MOU with Union Pacific Railroad and the City of Santa Barbara.

Key Objectives for Fiscal Year 2011 (cont'd)

- Restripe 180,000 linear feet of pavement per year, including broken and double solid center lines.
- Develop a sign management system that will use a software database program to organize and categorize data of signage on City streets in a format compatible with the Cartegraph work order system.

RECENT PROGRAM ACHIEVEMENTS

Completed the final phase of residential street sweeping. Over 80% of the City is being swept on a regular basis.

Street Sweeping

(Program No. 4412, 4418)

Mission Statement

Clean streets to improve community appearance and water quality in urban creeks.

Program Activities

- Mechanically sweep residential streets in conjunction with the city's Clean Sweep Program.
- Mechanically sweep business and commercial area streets (primarily in the downtown and Milpas Street areas) regularly.

- Sweep 19,500 curb miles per year on the established sweeping schedules for residential and commercial routes, except in inclement weather and on City-observed holidays.
- Monitor all street sweeping routes and debris collected, and hotline call activity. If necessary, adjust schedule and/or parking restriction zones to establish acceptable curb access and cleanliness with minimal inconvenience to residents and businesses.
- Prepare updated specifications for formal bids to provide residential and commercial street sweeping services on a new sweeping contract to be effective July 1, 2011. Review sweeping program and budget, and adjust service if needed to stay within reduced budget.
- Schedule street tree pruning with Parks staff or a contractor to reduce obstructions and tree litter on routes where trees have not been pruned recently.

Partnered with Metropolitan Transit District to share installation costs of fiber optic line along Garden Street

Traffic Signals

(Program No. 4532)

Mission Statement

Maintain a safe, efficient and reliable Citywide Traffic Signal System Network and provide funding for electrical energy for streetlights and traffic

Program Activities

- Provide maintenance and repair support for the city's 106 signalized intersections.
- Maintain the computerized controlling network for each intersection.
- Ensure proper video and analog vehicle detection at signalized intersections.
- Manage the Fire Department's Opticom preemption system to coordinate signal timing with emergency vehicle response.
- o Provide funding for all electrical costs for both traffic signals and streetlights.

- o Complete 99% of scheduled preventative maintenance work orders on the Traffic Signal Network in accordance with approved preventative maintenance plan.
- o Complete 99% of Emergency Repairs within 12 working hours of notification on weekdays.
- Respond to 99% of all non-emergency unscheduled repair work orders within 24 working hours on the Traffic Signal Network.
- Replace four traffic signal cabinets and upgrade six more.
- Upgrade 20 traffic signal cabinets with battery back-up via federal grant.
- o Install 72 strands of fiber along Cabrillo from Garden Street to Los Ninos Street (Bath House).

RECENT PROGRAM ACHIEVEMENTS

Initiated two pavement construction contracts funded through the American Recovery and Reinvestment Act (ARRA).

Streets Capital

(Program No. 4417)

Mission Statement

Manage the maintenance, repair of, and improvements to the public right-of-way infrastructure in accordance with the goals of the City Council and the Circulation Element, in order to provide the public with safe, efficient, functional, high quality, and cost effective transportation and drainage systems.

Program Activities

- Adequately fund projects to maintain, repair, and improve the city's infrastructure assets for streets, sidewalks, bridges, storm drains, traffic signals, and pavement striping and markings.
- Plan, prioritize, and balance funding for capital expenditures between multi-modal transportation and street right-of-way infrastructure maintenance, repair and improvements (which include streets, bridges, storm drains, traffic signals, streetlights, traffic markings, and sidewalks).
- Apply for grant funding from a variety of sources for capital projects to leverage city funds.
- Provide courtesy review and coordination of all CalTrans initiated roadway projects.
- Coordinate the City's involvement and City activities with the utility companies' design for Underground Utility Districts.
- Provide staff support to division managers and supervisors associated with Streets capital projects.

- Award a pavement maintenance construction contract in one of the City's pavement maintenance areas for slurry seal and/or asphalt concrete pavement overlay.
- Include in the annual asphalt pavement design contract streets with a Pavement Condition Index (PCI) of less than 40.
- o Prepare an annual Road Maintenance Action Plan update.
- Track and report on the status of American Recovery and Reinvestment Act funded projects.
- Complete construction of the Cliff Drive Underground Utility District Project.

Recycled Water

(Program No. 4621)

Mission Statement

Provide cost efficient treatment and distribution of recycled water in accordance with state regulations in order to conserve city potable water supplies.

Program Activities

- o Provide reclaimed water to established service connections.
- o Provide public education and assistance on the use of reclaimed water.
- o Implement required agreements and ensure compliance with state regulations for users on the reclamation distribution system.
- Provide guidance, training education materials, and signage for landscape and toilet flushing uses of reclaimed water.

- Perform inspections of all recycled water sites to meet the annual State inspection requirement.
- Provide one class for recycled water users to meet the annual State training requirement.

Water Distribution

(Program No. 4631)

Mission Statement

Convey water to customers in a reliable and cost-efficient manner and provide drinking water that meets all state and federal regulations.

Program Activities

- Operate and maintain the city's water distribution system comprised of Gibraltar Lake and Dam, water distribution pipelines, water pumping stations, reservoirs, pressure reducing stations, service connections and meters.
- o Operate and maintain the groundwater well system.
- Distribute potable water to city residents.
- Operate and maintain the city's reclaimed water distribution system comprised of distribution pipelines, a pumping station, a reservoir, pressure reducing stations and service connections.
- Operate and maintain the reclamation distribution system, which has the capacity to treat and deliver 1,200 acre feet per year.
- Provide 24-hour emergency response services for all city departments through the emergency service unit.

- Operate the water distribution system to meet 100% of all applicable State and Federal requirements.
- \circ Exercise 35% (2,600) of the valves in the water distribution system annually.
- o Flush 80% of the fire hydrants and transmission mains annually.
- Restore water service within eight hours after shutdown 75% of the time.
- o Clean at least 10 of the 12 water distribution reservoirs annually.

Water Treatment

(Program Nos. 4641, 4642)

Mission Statement

Provide safe drinking water that is treated in a cost-effective manner and complies with state and federal regulations.

Program Activities

- Operate and maintain the Cater Water Treatment Facility to achieve compliance with state and federal drinking water regulations.
- Provide regional water treatment for the City of Santa Barbara, Montecito Water District and Carpinteria Valley Water District, supplying drinking water to the communities of Santa Barbara, Montecito, Summerland, and Carpinteria.
- Maintain the C. Meyer Desalination Facility in long-term storage to supplement existing water supplies.

- Perform 100% of preventative maintenance for the Cater Water Treatment Plant, in accordance with the annual preventative maintenance plan.
- Perform 100% of preventative maintenance for the C. Meyer Desalination Facility, in accordance with the annual preventative maintenance plan.
- Maintain 100% compliance with California Department of Health Services Primary Water Quality Regulations.
- Maintain C. Meyer Desalination Facility in long-term storage for reactivation when required to supplement other water supplies.

RECENT PROGRAM ACHIEVEMENTS

Launched the "Smart Landscape Rebate Program" and the "Water Wise Gardening in S.B. County" interactive database on water efficient landscaping.

Water Supply Management

(Program No. 4651)

Mission Statement

Provide an adequate supply of water by implementing the Long-Term Water Supply Program, which includes a cost-effective water conservation element and a diverse portfolio of supplies.

Program Activities

- o Implement the Long-Term Water Supply Program.
- Provide up to 8,277 acre-feet of water per year from the Cachuma Project and up to 3,000 acre-feet of water per year from the State Water Project.
- Advise on optimal use of the city's diverse sources of water supplies.
- Provide information on city water supplies and water conservation via the city's Internet website, with quarterly or more frequent updates and prompt responses to inquiries.
- o Maintain and protect surface water supplies from the Santa Ynez River.
- Manage a cost-effective customer-response based water conservation program that meets federal and state requirements.

- Have available at least 3,000 acre-feet (AF) of carryover in Lake Cachuma at the start of the third complete water year following each Cachuma spill.
- \circ $\;$ Achieve a 95% customer satisfaction rate for home water check-ups.
- Implement conditions from State Water Resources Control Board hearing to maintain Cachuma project water rights.
- Present annual Water Supply Management Report for the previous water year to Council for adoption by January 30, 2011.
- Ensure that water deliveries are not reduced by more than 10% during a "critical period" drought as modeled for the Long Term Water Supply Program.
- Maintain 100% compliance with California Urban Water Conservation Council Best Management Practices.
- Ensure that expenditures under the Water Purchases Program stay within budgeted amounts (including any supplemental appropriations as needed due to extraordinary water shortage conditions) and meet payment schedules.
- Implement a procedure for reporting to City program owners on water use in their facilities.

Key Objectives for Fiscal Year 2011 (cont'd)

- Assist in completion of the Plan Santa Barbara EIR in relation to water supply issues and develop policy options and water supply planning alternatives in support of an update of the City's Long-Term Water Supply Program.
- o Prepare an updated Urban Water Management Plan in compliance with the State deadline.
- o Implement a procedure for tracking City capital project conformance with City standards for water conservation.

RECENT PROGRAM ACHIEVEMENTS

Completed upgrade of Laboratory Information Management System main server and five workstations to new operating system.

Water Resources Laboratories

(Program Nos. 4661, 4662)

Mission Statement

Provide cost efficient analytical testing services and high-quality data to meet the testing requirements of the water and wastewater systems.

Program Activities

- Perform all required testing in accordance with Environmental Protection Agency (EPA) approved analytical methods.
- Provide laboratory services and conduct water and wastewater sampling for special projects and research.
- Perform and complete water pollution and water supply proficiency testing.
- Provide and submit the regulatory report to the California Regional Water Quality Control Board and the California Department of Health Services.
- Maintain all major analytical instrumentation in accordance with the Good Laboratory Practice Protocols.
- o Provide ongoing technical training to all staff.

- o Produce valid data from 99% of completed tests.
- Complete samples and provide data so that National Pollutant Discharge Elimination System and Drinking Water Reports can be submitted by the due date.
- Complete all necessary sampling and analyses to maintain compliance with current and pending drinking water regulations. Monitor all required existing primary and secondary drinking water regulations.
- Develop an accurate "cost-per-sample analyzed" algorithm for all laboratory samples received based upon the type of laboratory test(s) performed.
- Develop a method to evaluate laboratory staff workload levels based upon actual fiscal year workload data, financial information, and laboratory industry-specific standards. Use the workload analysis results to produce a written recommendation report for Public Works management review by April 1, 2011.

Key Objectives for Fiscal Year 2011 (cont'd)

 Maintain and update the existing Laboratory Information Management System (LIMS) application software according the Good Laboratory Practice Guidelines.

RECENT PROGRAM ACHIEVEMENTS

Read 100% of the 321,232 meters on time, according to an approved monthly schedule resulting in accurate water billing.

Meter Reading

(Program No. 4681)

Mission Statement

Read water meters for accurate and timely utility billings and respond to field service requests in a timely, courteous, efficient, and safe manner.

Program Activities

- o Read approximately 26,000 water meters every 27-33 days.
- Process approximately 10,000 service orders to begin and terminate service.
- o Maintain water meters and make recommendations for replacement.
- Download daily route meter reading data to the centralized utility billing system.
- Field-check new water meter installations.
- o Maintain and manage an active water meter inventory.
- Provide information to public service providers regarding unusual circumstances affecting the elderly through the Gatekeeper Program.

- Respond to 100% of service orders within one working day.
- Maintain a 100% reading accuracy rate.
- Read 100% of water meters according to an approved monthly schedule.
- Implement use of new meter reading software and hand-held reading equipment.
- Provide and prepare meter readers with study materials for Grade 1 Certification.

Water Capital Program

(Program No. 4671)

Mission Statement

Develop, fund, design and construct projects that will maintain, upgrade and enhance the city's water system infrastructure in order to ensure a continual supply of safe water for both domestic and fire protection purposes.

Program Activities

- Determine the work required to maintain and upgrade the city's water supply, treatment, distribution, and recycled water infrastructure.
- Develop the necessary funding to facilitate the Water Capital Program.
- Approve the design, plans and specifications for constructing Water Capital Projects.
- Assist the Public Works Engineering Division in moving projects through the city's planning, environmental, and permitting process, when appropriate.
- Assist Engineering staff in the bid, award, monitoring and inspection of Water Capital projects through completion of construction, when appropriate.

- Ensure that 80% of the performance measures for the Water Section are met.
- Award a construction contract for the Cater Ozonation Project by January 30, 2011.
- Award a construction contract for the Ortega Groundwater Treatment Plant Rehabilitation Project by January 30, 2011.
- Complete 80% of the construction for the Fiscal Year 2010 Water Main Replacement Project by June 30, 2011.
- Complete the installation of an emergency generator for the El Cielito Pump Station by June 30, 2011.

 Wastewater Capital Program

RECENT PROGRAM ACHIEVEMENTS

Replaced 3,000 linear feet of sewer main lines, repaired 75 main line defects, and installed 10 new sewer manholes.

Wastewater Collection

(Program No. 4632)

Mission Statement

Convey wastewater to the treatment plant reliably and cost efficiently, meet all applicable state and federal regulations, and protect the environment.

Program Activities

- Maintain wastewater collection system to prevent sewer overflows.
- Respond to stoppage and overflow calls and contain overflows in a timely manner.
- Manage the Preventive Maintenance Program for the wastewater collection system and lift stations.
- Conduct a sanitary sewer smoke-testing program to identify areas of inflow/infiltration.
- Operate wastewater collection system to comply with state and federal reporting requirements.
- Enhance collection system performance by maintaining system hydraulic capacity to allow system to operate at its design capacity.

- o Limit the number of Category One overflows to 9 or less per year.
- o Respond to 98% of stoppages and overflow calls within two hours.
- Review 95% of all private lateral CCTV inspection tapes within five working days of receipt.
- Inspect 130 restaurants for compliance with grease trap maintenance requirements.
- Comply with all State and Federal reporting requirements for wastewater collection as specified in the National Pollution Discharge Elimination System Permit issued to the City.
- Implement a new, system-wide, sewer main preventative maintenance cleaning program that establishes a pipe-specific cleaning frequency in the Cartegraph CMMS, and complete quarterly reports.
- Implement a new GPS tracking system and provide monthly status reports that track cleaning performance quality assurance, quality control metrics on a crew -specific basis.
- Provide quarterly reports on the status of the Sewer Lateral Inspection Program (SLIP) and include this information as an element of the Annual Report to management.

Wastewater Treatment

(Program No. 4711)

Mission Statement

Provide cost efficient wastewater treatment, protect ocean water quality and public health, and comply with National Pollution Discharge Elimination System (NPDES) permit requirements.

Program Activities

- Operate the El Estero Wastewater Treatment Plant to comply with discharge limitations as required by the Regional Water Quality Control Board.
- Operate the El Estero Wastewater Treatment Plant to assure air emission compliance with the Santa Barbara Air Pollution Control District Permit.
- Operate Pretreatment Program to inspect and sample industrial dischargers to the city's wastewater collection system.
- Maintain the El Estero Wastewater Treatment Plant using predictive and preventive maintenance methods.
- Continue public outreach and education to inform the public of environmental benefits of the El Estero Wastewater Treatment Plant process.

- Achieve at least 99.2% compliance with wastewater discharge limits as listed in the NPDES permit issued by Regional Water Quality Control Board.
- Achieve 100% compliance with local air emissions standards as specified in the Santa Barbara Air Pollution Control District permit requirements.
- Achieve at least 99.9% compliance with discharge limits for recycled water as listed in the Water Reclamation Discharge permit issued by the Regional Water Quality Control Board.
- Collect asset/equipment attribute information and add the data to the Computerized Maintenance Management System (CMMS).
- Identify and document parts and materials requirements for all plant maintenance tasks scheduled in the CMMS and enter the data into the inventory management module of the CMMS.
- Complete assigned preventative maintenance tasks for the wastewater treatment plant and assess baseline results regarding overall completion rate and associated task backlog.

Wastewater Capital Program

(Program No. 4771)

Mission Statement

Expedite development, design and construction of wastewater related projects that will maintain, upgrade and enhance the infrastructure of the wastewater system in order to meet National Pollutant Discharge Elimination System permit requirements and protect the environment.

Program Activities

- Determine the work required to maintain and upgrade the city's Wastewater Treatment and Collection System infrastructure.
- Develop the necessary funding to facilitate the Wastewater Capital Program.
- Review and approve plans and specifications developed for constructing Wastewater Capital Projects.
- Assist Engineering Division staff in moving Wastewater Capital Projects through the city's planning, environmental and permitting process, when appropriate.
- Assist Engineering Division staff in the bid, award, and inspection of Wastewater Capital Projects, when appropriate.
- o Monitor and expedite projects in the El Estero Strategic Plan.

- Award a construction management consultant contract for two El Estero Wastewater Treatment Plant (WWTP) Headworks Area CIP Projects.
- Award a construction contract for the El Estero WWTP Headworks Screening Replacement Project.
- Award a construction contract for the El Estero WWTP Influent Pump Station Project.
- Award a corrosion engineering contract/purchase order and complete a corrosion assessment study report for the El Estero WWTP Headworks area screening channels.
- Award a consultant contract for the El Estero WWTP Process Air Facilities and Activated Sludge Treatment Process Assessment Services and Complete Assessment Study.
- Complete 80% of the construction for the FY 2011 Sewer Main Replacement/Rehabilitation Project.

Provide the community with a quality Waterfront for recreation and commercial use, along with mooring and landside services for boating activities.

About Waterfront

The Waterfront Department is responsible for managing approximately 252 acres of tidelands and submerged lands encompassing the Harbor and Stearns Wharf. The Waterfront Department is an enterprise fund and operates from revenues generated from the resources it manages; primarily lease revenue, slip fees, and parking fees.

There are a total of 1,133 slips in the Harbor, about 10% of which are used by commercial fishermen and 90% by recreational boaters and others that are all subject to slip permits. The Harbor business/commercial area includes nine major buildings, all of which are owned by the City, including the Waterfront Center, the largest building in the area.

While the Harbor area is a mixture of ocean dependent, ocean related and visitor-serving uses, the Wharf's primary commercial uses include restaurants, retail shops, a bait and tackle store, and limited office space.

The Waterfront Department also operates eight parking lots along Cabrillo Boulevard between Leadbetter Beach and East Beach.

Fiscal Year 2011 Budget Highlights

Waterfront Department will fund \$2,555,000 in capital improvement projects, including pile replacement and timber repairs to Stearns Wharf, Marina 2 dock replacement, and installation of a solar thermal unit on one marina restroom. The most significant capital project will be the replacement of "O" and "P" fingers in Marina One, which is the second phase of a multi-year rehabilitation project for Marina One, the harbor's largest marina.

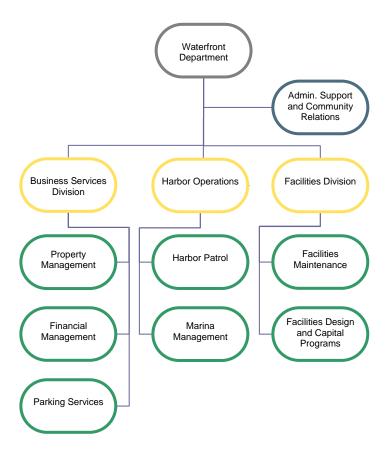

The Waterfront Department received approval for a loan of \$5.5 million from the California Department of Boating and Waterways to fund the first four phases of the Marina One Replacement project. The Department has also applied for an \$800,000 Boating and Waterways grant to replace concrete in the launch ramp.

The Waterfront Department is budgeted in the Waterfront Fund.

Program Organizational Chart

Response to Economic Crisis

The Waterfront Department enterprise fund has not been impacted as severely as General Fund departments because its revenues are derived entirely from user fees such as parking fees, lease revenue, and marina fees. The Waterfront Department does not receive any tax revenue and therefore has not been directly affected by the downturn in sales tax, property tax and Transient Occupancy tax. As a result, the Waterfront Department has not been required to submit a budget reflecting 12% cuts in expenditures. In general, the Waterfront Department's budget challenges are driven by increasing expenditures and not declining revenues. The downturn in the economy has, however, negatively affected income from percentage rent leases.

New Program Responsibilities

Effective July 1, 2009, (FY 2010) the Waterfront Department incurred new responsibilities including paying for Beach Lifeguards, and the Department took over maintenance of three additional public restrooms, the Dolphin Fountain, and payment for the July 4th fireworks contract. The new responsibilities represent approximately \$250,000 increase in expenditures each year. Additionally, effective August 1, 2010 (FY 2011) the Department will begin debt service payments on a new loan from the California Department of Boating and Waterways for the first four of ten planned phases to replace Marina 1, which consists of approximately half of the slips in the harbor. This new debt service payment will increase each year as funds are drawn and annual debt service payments are anticipated to reach \$338,000 when the fourth phase is complete. The Department's budget includes increased user fees to address these increasing expenses; additionally, \$1.9 million in projects in the Waterfront Department's six-year Capital Improvement Plan have been left unfunded.

New/Enhanced Revenues (\$187,000)

The Waterfront Department budget includes a 4% slip fee increase on 20'-50' slips and new slip fee categories for berth ranging from 60' to 100'. For example, 60' berths will increase by 8.5%, 70' berths will increase by 17.7%, 80 foot berths by 27.7%, 90' berths by 38.6% and 100 foot berths by 50.4%. Additionally, slip transfer fees increased from \$250 to \$275 per foot on all slip sizes except 20' slips.

Impacts to Programs and Services

The Waterfront Department budget does not include any hourly or permanent staffing reductions; the Department will remain at 46 FTE's. The Waterfront Department does not anticipate negative impacts to programs and services currently provided. The public counter will remain open seven days per week between 8 a.m. and 5 p.m. except Thanksgiving, Christmas and New Year's Day

Property Management

(Program No. 8112)

Mission Statement

Manage Waterfront leases, ensuring that the public receives a high level of services and the department receives market value rents.

Program Activities

- o Administer leases and other business agreements.
- Negotiate agreements with new and existing tenants on Stearns Wharf and in the Harbor commercial area.
- Assure tenants receive the services entitled under their agreements.

Key Objectives for Fiscal Year 2011

- Support tenants' sales through department funded marketing and promotions.
- o Renew 86% of Business Activity Permits (BAPs) by September 1, 2010.
- o Collect 95% of base rents by due date in lease.
- Maintain accurate reporting by auditing 25% of percentage rent leases annually.

RECENT PROGRAM ACHIEVEMENTS

Converted 72 Business Activity Permit renewals to August 1st. This change will improve staff efficiency, be more streamline, and less cumbersome.

Marina Management

(Program No. 8141)

Mission Statement

Efficiently manage and administer full professional services to the boating public, harbor users, slip permittees, fishermen, visitors and the community at large.

Program Activities

- o Manage a 1,133 slip marina and associated facilities.
- Coordinate Waterfront events including Parade of Lights, Harbor Festival, Fourth of July, and U.S. Navy ship visits.
- Pursue measures and undertake activities directed at maintaining a clean ocean environment in the Harbor.
- Measure vessels, facilitate slip assignments and slip transfers, and accommodate visitors.
- Administer permit process for skiff, catamarans, outrigger canoes and small sailboats.
- Maintain office space and staff to facilitate services to the boating public, harbor users and visitors.

Key Objectives for Fiscal Year 2011

- Process 92% of slip trades, transfers, live-aboard permits or wait-list assignments within 10 working days of application completion or notice of acceptance (wait-list, live-aboard permits).
- Process 95% of visitor slip assignments within 30 minutes of vessel arrival at the harbor.
- Support Clean Marina Program by conducting annual seafloor debris clean up (Operation Clean Sweep Event).
- Prepare an annual Marina Fee Survey for the fiscal year budget cycle, which includes Santa Barbara Harbor and other California marinas between Santa Cruz and Oceanside.
- Pursue implementation of an automated information distribution program in the Waterfront.
- Disseminate information on clean marina practices to boaters in Santa Barbara Harbor via 2 articles in department newsletter *Docklines*.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, segregated for the purpose of carrying on specific activities, or complying with special regulations, restrictions, or limitations. The following provides a description of all accounting funds used by the City of Santa Barbara, including those for which a budget is not adopted.

GOVERNMENTAL FUNDS

The measurement focus for governmental funds is on current spendable resources, and as such, the balance sheets for these types of funds include only current assets and current liabilities. Governmental funds are accounted for on a modified accrual basis, thus revenues are recognized when measurable and available, and expenditures are recorded when the related liability is incurred.

General Fund

The City's General Fund accounts for activities and services traditionally associated with governments, such as police and fire, which are financed primarily through tax-generated revenues and not required to be accounted for in another fund.

Special Revenue Funds

Special revenue funds are used to account for the proceeds from specific revenue sources, other than trusts or major capital projects that are legally or contractually restricted to expenditures for specific purposes.

1995 Floods Fund

For costs incurred as a result of the two federally declared disasters in January 1995 and February 1998.

2005 Floods Fund

For costs incurred as a result of the federally declared disaster in January 2005.

Community Development Block Grant Fund

For receipt and disbursement of the City's federal block grant funds.

County Library

For funds received and expended for library services on behalf of Santa Barbara County (non-City) residents.

Creeks Restoration and Water Quality Improvement (Measure B) Fund

For the receipt and disbursement of the creeks-related share of transient occupancy tax (2%), generated by the passage of Measure B in October 2000. These funds may only be used for operations and capital projects related to creeks restoration, cleanup and maintenance, and for creeks- and ocean-water quality improvement projects and activities.

HOME Grant Fund

For receipt and disbursement of federal HOME Investment Partnership Program funds which facilitate the development of affordable housing projects in the City.

Justice Assistance Grant Fund

For receipt and disbursement of federal Edward Byrne Memorial Justice Assistance Grant Program funds to support crime control and prevention.

Miscellaneous Grants Fund

For resources received from various granting agencies.

Police Asset Forfeiture and Grants Fund

For assets confiscated by police special operations and restricted for use in support of police operations and miscellaneous grants.

Police Local Law Enforcement Block Grant Fund

For Federal grants funds received for local law enforcement activities.

Police Supplemental Law Enforcement Fund

For State voter-approved funds (AB 3229), restricted to public safety and law enforcement.

Redevelopment Agency Fund

For operations of the Redevelopment Agency. Tax increment revenues primarily support this fund.

Solid Waste Fund

For City operations related to solid waste in support of State AB 939.

Streets

For receipt and disbursement of streets-restricted utility users' tax for activities related to streets and roads. Fifty percent of the City's utility users' tax is restricted for this purpose.

Street Sweeping Fund

For receipt and disbursement of street sweeping parking violations revenue in connection with the City's Consolidated Clean Sweep Program which provides for sweeping of City streets in both commercial and residential neighborhoods.

Traffic Safety Fund

For receipt of fines collected pursuant to the California Vehicle Code. The State of California Government Code restricts use of these funds to traffic control devices, equipment and supplies related to traffic control or traffic safety, and maintenance of public streets. The funds may not be used to pay compensation to traffic or police officers.

Transportation Development Act Fund

For receipt and disbursement of the City's share of gasoline sales tax and Transportation Development Act of 1971. These funds may be used only for capital projects pertaining to streets, roads and bikeways.

Transportation Sales Tax (Measure A) Fund

For funds received from a one-half cent sales tax levied by the Santa Barbara County Association of Governments. The proceeds are restricted to transportation uses. Measure A was approved by the voters of Santa Barbara County in an election held on November 4, 2008. The tax became effective on April 1, 2010.

Transportation Sales Tax (Measure D) Fund

For funds received from a one-half cent sales tax levied by the Santa Barbara County Association of Governments. The proceeds are restricted to transportation uses. Measure D was approved by the voters of Santa Barbara County in an election held on November 7, 1989. The tax became effective on April 1, 1990.

Utility Undergrounding Fund

For the City's portion of funds received from a 1% franchise surcharge on electric utility bills in the City. The funds are used to support the City's costs associated with Southern California Edison Rule 20A and 20B approved undergrounding utility line projects in the City.

Wildland Fire Benefit Assessment District Fund

For funds received from a special property tax assessment to property owners who live in Extreme Foothill and Foothill Zones of the City high fire hazard area. Funds are spent solely within the Benefit Assessment District for vegetation road clearance, chipping services, defensible space assistance and inspection, and vegetation management projects.

Debt Service Funds

Debt service funds are used to account for debt service expenditures on general long-term debt.

2002 Municipal Refunding Certificates of Participation

For the accumulation of funds for the payment of the General Fund's portion of the 2002 municipal improvement certificates of participation. These certificates mature in annual installments of \$65,000 to \$360,000, with final maturity in 2018.

1995 Redevelopment Agency Refunding Tax Allocation Bonds Series A and B

For the accumulation of funds for the payment of the 1995 Refunding Tax Allocation Bonds, Series A and B. These bonds mature in annual principal installments of \$2,300,000 to \$4,705,000 through 2008

2001 Redevelopment Agency Tax Allocation Bonds - Series 2001A

For the accumulation of funds for the payment of the 2001 Redevelopment Tax Allocation Refunding Bonds, Series A. These bonds mature in annual principal installments on serial bonds ranging from \$2,785,000 to \$4,340,000 through 2019.

2003 Redevelopment Agency Tax Allocation Bonds – Series 2003A

For the accumulation of funds for the payment of the 2003 Redevelopment Tax Allocation Refunding Bonds, Series A. These bonds mature in annual principal installments on serial bonds ranging from \$1,140,000 to \$2,835,000 through 2019.

1994 Water Refunding Revenue Bonds

For the accumulation of funds for the payment of the 1994 Water Revenue Refunding Serial Bonds. These bonds mature in annual principal installments of \$420,000 to \$510,000 through 2008.

2004 Sewer Revenue Bonds

For the accumulation of funds for the payment of the 2004 Sewer Revenue Bonds. These bonds mature in annual principal installments of \$525,000 to \$1,290,000 through 2029.

Capital Projects Funds

Capital projects funds are used to account for financial resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds).

Capital Outlay Fund

For all capital projects financed by the General Fund.

Redevelopment Agency Capital Projects Funds

For expenditures funded from the proceeds of the Agency's Tax Allocation Bonds.

PROPRIETARY FUNDS

Proprietary funds account for operations that are financed and operated in a manner similar to private sector enterprises, in that goods and services are provided to the general public (external users) or other city departments (internal users), and the costs are financed or recovered primarily through fees and service charges charged directly to the users of the goods and services. Proprietary funds use the accrual basis of accounting.

Enterprise Funds

Enterprise funds are used to report activities for which service charges or fees are charged to external users. Enterprise funds are financed and operated in a manner similar to private sector enterprises.

Airport Fund

For operations of the municipal airport and the administration of leases on airport property. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and the billing and collection of fees.

Downtown Parking Fund

For the provision of parking services in the downtown area of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and the billing and collection of fees.

Golf Fund

For the operation of a municipal golf course. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and the billing and collection of fees.

Wastewater Fund

For the provision of sewer services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and the billing and collection of fees.

Water Fund

For the provision of water services to the residents of the City and some residents of the County. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and the billing and collection of fees.

Waterfront Fund

For the operations of the City-managed waterfront, the assets of which are part of the State of California Tideland Trust. Operations include: (1) a public wharf providing facilities for, and services to, leaseholders, restaurants, retail shops and other recreational activities; (2) a small watercraft harbor for commercial fishing, tour and privately-owned boats; and (3) the operation of all parking facilities in the waterfront area.

Internal Service Funds

Internal service funds are used to report activities for which service charges or fees are charged to internal users. These funds are used to account for the financing of goods or services provided by one City department to other City departments on a cost reimbursement basis.

Facilities Management Fund

For the costs of operating citywide building maintenance, custodial and electronics maintenance operations.

Fleet Replacement Fund

For the costs of scheduled replacement of the motor pool.

Fleet Management Fund

For the costs of operating a City maintenance facility for automobiles and other vehicles used by all City departments.

Self-Insurance Fund

For the cost of providing workers' compensation, unemployment, liability and employee health insurance coverage on a citywide basis.

Information Systems Intra-City Service Fund

For the costs of the Information Systems operations for citywide computer and network maintenance and replacement.

FIDUCIARY FUNDS

Funds that account for resources held in a trustee, custodial or agency capacity for others.

Pension Trust Funds

Pension trust funds are used to account for the accumulation of resources for the locally administered safety retirement programs.

Safety Retirement Fund

For the accumulation of resources to be used for retirement benefits for those police and fire employees hired between May 17, 1937 and May 28, 1965.

Service Retirement Fund

For the accumulation of resources to be used for retirement benefits for those police and fire employees hired between May 17, 1937 and May 28, 1965, and who were disabled due to job related injuries.

Non-Expendable Trust Funds

Non-expendable trust funds are used to account for trust resources, wherein the City, in accordance with the terms of the trust agreement, can expend interest earnings of the trust, but the principal must remain intact. Like proprietary funds, non-expendable trust funds use the accrual basis of accounting.

Expendable Trust Funds

Expendable trust funds are used to account for trust resources, wherein the City, in accordance with the terms of the trust agreement, can expend the Trust's principal and interest earnings.

Library Gifts Fund

For gifts and bequests made to the City library. Funds are used for book replacement.

Agency Funds

Agency funds are used to account for resources for which the City acts as an agent, or custodian, for other governmental units, private organizations, or individuals.

California Law Enforcement Telecommunications System (CLETS) Fund

For monies received from various participating public agencies for the purchase of computer equipment for communication with the California Law Enforcement Tracking System (CLETS).

Revolving Rehabilitation Loan Fund

For rehabilitation loans made by the City through the use of various funding sources.

Seismic Safety Assessment Fund

For the financial activities of the Seismic Assessment District #1.

Authoritative Basis for the Annual Budget

The authoritative basis for the development of the annual budget is provided in Article XII, Fiscal Administration, Section 1200 et. al. of the City of Santa Barbara Charter. Section 1200 specifically requires that "... at least sixty (60) days prior to the beginning of each fiscal year, the City Administrator shall submit to the City Council the proposed budget as prepared by him (or her)."

Budgetary Roles and Responsibilities

The Budget Officer and the Budget Manager, during budget pre-development, determine departmental revenue targets for use during budget development and develop cycle-specific information, such as debt service requirements and allocated costs. The Budget Officer works with the Treasury Manager from Finance throughout the entire budget development process to develop the base budget requirements for the next fiscal year through analysis of revenue estimates.

The Treasury Manager develops preliminary revenue estimates for departments during budget predevelopment, and works with departments throughout the budget development process in revising the preliminary estimates for departmental revenues in order to reach final, revised estimates.

The Budget Manager develops overhead cost allocations and works with the Public Works Department in preparing preliminary cost allocations for building maintenance, custodial and electronic maintenance services, and the City's Motor Pool. The Budget Manager also works with Information Systems to determine cost allocations for the desktop maintenance and replacement program, as well as cost allocations related to the City's financial management system.

Finance managers assist the Budget Manager with the review of budgets to ensure that departmental budget submittals are complete, technically correct and submitted in a timely manner. During the budget review phase, Finance managers analyze requested budgets to determine that departments met their revenue target, and verify the accuracy of line-item budgets. They present findings and recommendations to the City Administrator during the individual departmental meetings with the departments.

The Assistant City Administrator for Organizational Development works with all departmental Program Owners, Managers and Department Heads to ensure that the performance objectives contained in the Programs and Services narratives are measurable, actionable, specific and adequately cover the day-to-day activities of city operations, as well as any one-time projects or initiatives planned for the budget year.

The Budget Steering Committee provides oversight to the entire budget process, with direction from the City Administrator, to ensure that Council goals and other citywide priorities are addressed throughout development of the budgets.

Departmental Staff develop line-item operating budgets and capital requests. Anticipated program adjustments are incorporated and communicated to the Finance Department for revising departmental revenue targets.

The City Administrator provides oversight of the Budget Steering Committee throughout the entire budget process. The City Administrator meets with Department Heads, Program Owners, Departmental Budget Staff and Budget Liaisons to review all departmental operating and capital requests and makes funding decisions for the recommended budget, ensuring that Council goals and the Steering Committee's budget priorities are addressed. Also at these budget meetings, the City Administrator approves all operational goals and objectives for the coming fiscal year that are laid out in the Programs and Services narratives. All recommendations and adjustments are incorporated into the City Administrator's recommended budget that is filed with the City Clerk and presented to City Council for approval in April of each year.

Mayor and City Council, with input from the public, review the City Administrator's recommended budget, along with any specific recommendations from the Council Finance Committee, approve or adjust as necessary, and adopt the final operating and capital budget.

Budgetary Basis and the Budgetary Level of Control

Governmental funds are budgeted using the modified accrual basis, consistent with the basis of accounting. Briefly, this means that expenditures are recognized when the related liability is incurred; revenues are recognized to the degree that they are available to finance expenditures of the current period. The only exception is the budgeting of capital projects, in which the entire cost of the capital project is budgeted in the first year, and subsequently carried over until project completion.

Similarly, Proprietary Funds use the modified accrual basis of budgeting, but use the accrual basis of accounting. Differences arise between the two bases for several items: depreciation expense is recorded on a GAAP basis only; debt service retirement, including principal and interest payments, are budgeted as expenditures; and, like governmental funds, all costs of capital projects are included in the budget for the first year of the project.

Budgets are monitored at varying levels of classification detail. However, expenditures cannot exceed total appropriations at the department level for the General Fund and at the fund level for all legally budgeted funds (proprietary funds).

Specifically, the budget is controlled at the following levels:

- 1. Departments are authorized to transfer amounts between individual line-item expenditure categories within a particular major object account group.
- 2. The City Administrator is authorized to transfer amounts within individual departmental budgets, both between programs and between major object groupings.
- 3. City Council must authorize all budget amendments that alter the total appropriations of a particular department or fund.

Two-Year Budget Cycle

On November 27, 1984, the City Council adopted Resolution No. 84-182, approving the concept of a two-year budget cycle for the City of Santa Barbara. This action provided that:

- City Council would approve a two-year program and financial plan at the beginning of each two-year cycle; and
- 2. Consistent with City Charter requirements, the City Council would adopt a budget for the program on an annual basis.

Significant characteristics of a two-year budget process, in addition to the items noted above, are:

- Budget preparation and analysis will be for two years, occurring in the fiscal year immediately preceding the two-year cycle.
- Mid-cycle adjustments will be managed as mid-year adjustments are managed; that is, outside of the budget development process, but subject to City Council approval.
- The two-year budget cycle will be developed in conjunction with the establishment of the City Council two-year goals and action plan.

Implementation of a two-year budget cycle does not preclude adjustments at mid-cycle or modifications to the second year recommendations due to special circumstances or significant changes in revenue projections. It does, however, eliminate much of the repetitive and time-consuming aspects associated with the development of budget estimates, particularly for those programs that tend to remain constant. In addition, because the City Council is already focusing on a two-year commitment, the two-year budget process facilitates a long-term program and financial planning approach.

The following summarizes the City of Santa Barbara's two-year budget process.

Budget Process - Year One

Pre-Development Activities

Council goals and program priorities are developed.

Finance Department develops preliminary revenue projections.

Revenue targets are developed by City Administrator and distributed to departments.

The Finance and Public Works departments and Information Systems in the Administrative Services department develop allocated costs.

Departments submit capital project requests to Public Works Administrative Officer as part of development of the Six-Year Capital Improvement Plan.

Anticipated program adjustments are communicated to the Finance Department.

Budget Preparation

Cycle-specific information is distributed to each department, including revenue targets for General Fund departments.

Departments develop line-item budget estimates, document text information, and annual performance plans for each program.

Edit and Review of Departmental Submittals

Finance Department Budget Liaisons performs preliminary review of departmental line-item submittals.

Budget Liaisons review department line-item and text submittals.

City Administrator holds in-depth budget review meetings with each department.

Production and Publication of Budget Document

Finance Director and staff develop the tables, charts and graphs, prepare summary schedules and fund overviews, and compile, review and publish the document, as well as post the Recommended Budget to the Internet.

City Administrator and staff prepare "City Administrator's Budget Message" and review annual performance plans included in the program narratives.

The Recommended Budget is filed with the City Clerk's Office.

Public Review

Boards and Commissions review the Recommended Budget.

City Council and Finance Committee review the Recommended Budget, including Capital Program and Fee Resolutions.

City Council approves and/or adjusts the City Administrator's Recommended Budget, as appropriate.

Public hearings are held.

Budget overview and department presentations are held.

Budget information made available in accordance with Public Information Plan.

Budget Adoption

City Council adopts, by resolution, the two-year financial plan and the operating and capital program budgets for year one of the two-year financial plan.

Finance Department updates and publishes the budget document, and posts it to the Internet.

Budget Process - Year Two

Mid-Cycle Review

Finance Department updates the revenue projections for year two of the two-year financial plan.

Year two recommendations are revised, if necessary.

Presentation and Adoption

City Administrator presents addendum and a summary of the proposed budget for year two to the City Council. This document identifies the following:

- o Changes to the two-year financial plan approved at mid-cycle.
- o Any changes to the City Administrator's second year recommendations.
- o The progress of the City Council's two-year goals and action plan.
- O A summary of the second year's budget by program.

City Council reviews the addendum information and approves and/or adjusts the changes made by the City Administrator, as appropriate.

A public hearing is held.

Council adopts, by resolution, the operating and capital budget for year two of the two-year financial plan.

APPENDIX: Budget Policies

General Policies

All current operating expenditures will be financed with current revenues.

Budgetary emphasis will focus on providing high quality municipal services, recognizing the fundamental importance to the public of public safety and properly maintained infrastructure.

The budget will provide sufficient funding for adequate maintenance and orderly replacement of capital plant and equipment.

The budget will reflect a higher priority for maintenance of existing facilities than for acquisition of new facilities.

Future maintenance needs for all new capital facilities will be fully costed, and added costs will be recognized and included in future year budget projections.

Strong customer service and productivity improvements, with a focus on cost savings, remain important budgetary goals.

Productivity improvements resulting in cost reduction will remain an important budgetary goal.

Revenue Policies

A diversified and stable revenue system will be maintained to shelter the City from short-run fluctuations in any single revenue source.

Revenues will be conservatively estimated, will be projected for the next four years and will be updated at least annually.

Intergovernmental assistance in the form of grants and loans will be used to finance only:

- Capital improvements that are consistent with the Six-Year Capital Program priorities and can be maintained and operated over time; and
- \circ $\;$ Operating programs which either can be sustained over time or have a limited horizon.
- One-time revenues will be used for operating programs only after an examination determines whether they are subsidizing an imbalance between operating revenues and expenditures, and then only if a long-term forecast shows that the operating deficit will not continue. In general, one-time revenues will be used only to support capital or other non-recurring expenditures.

All fees and charges for each enterprise fund will be set at a level that fully supports the direct and indirect cost of the enterprise.

Reserve Policies

An Appropriated Reserve will be included in each operating fund's adopted budget to provide for unanticipated expenditures or to meet unexpected small increases in service delivery costs within the fiscal year. This reserve will be budgeted up to $\frac{1}{2}$ of 1% of the operating budget and any unused portion will be returned to fund balance at the end of the fiscal year.

Each operating fund will establish a Capital Reserve funded to at least 5% of the value of its capital assets. In the alternative, the amount may be established at an amount equal to the average of the adopted capital program budgets for the previous five years. The goal for the General Fund Capital Reserve shall be set to at least \$1 million. Appropriations from these reserves will be to fund major capital costs.

For each operating fund there will be a reserve equal to 15% of its annual operating budget for the purpose of responding to emergencies. It may take more than one year to meet the 15% goal if these emergency reserves do not presently meet the 15% goal.

Each operating fund will establish and maintain a reserve equal to 10% of its annual operating budget for the purpose of providing for unique one-time costs and maintenance of City services and permit orderly budget adjustments during periods of reductions. Appropriation of these reserves to operating budgets should, when feasible, be accompanied by a plan for the replenishment within a reasonable period of time.

APPENDIX: Budget Policies

Funding of reserves will come generally from one-time revenues, excess fund balance and projected revenues in excess of projected expenditures. They will generally be reserved in the following priority order:

- Reserve for Economic Contingency/Emergencies
- Reserve for Capital
- Reserve for Future Years' Budgets

However, flexibility will be retained to allocate available funds among the reserves based on the current circumstances and needs of the City's various operating funds.

Appropriation or use of funds from any of these reserves will require Council action.

Debt Policy

It is the intent of the City of Santa Barbara to issue debt in a manner that adheres to state and federal laws, existing bond covenants and prudent financial management. A summary of existing debt obligations by fund and a summary of total annual debt service requirements are provided in this section under "Debt Obligations".

The General Fund currently does not have any general obligation bonds and does not anticipate issuing such debt. Existing General Fund debt includes certificates of participation for capital improvements to City facilities. As of June 30, 2006, the outstanding balance is \$3,290,100 and annual debt service requirement is \$358,053.

With respect to financing of future capital improvements, General Fund annual budgeted expenditures provide for funding of general capital improvements. In addition, current City policy provides for the use of accumulated reserves in excess of policy requirements for one-time costs, including major capital projects.

Restrictions affecting the issuance of debt relate to existing bond covenants associated with the outstanding Water and Wastewater Fund Revenue Bonds. Specifically, existing bond covenants require that net system revenues (operating revenues less operating expenses, excluding depreciation) must be at least 125% of the annual debt service requirements (maximum).

Based on these restrictions and existing annual debt service requirements, total annual debt service capacity for the Water Fund and Wastewater Fund is approximately \$7.6 million and \$1.3 million, respectively, based on operating results for the year ended June 30, 2006. For fiscal year 2007, the current total debt service requirement for all existing debt is approximately \$3.9 million and \$1,353,000 for the Water Fund and Wastewater Fund, respectively.

Based on a net assessed value of property of approximately \$12.66 billion, the legal debt limit is \$1,266 million. Currently, there is no outstanding debt subject to limitation.

No other restrictions exist.

Accrual Basis of Accounting: Proprietary and non-expendable trust fund types utilize the accrual basis of accounting. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, such that revenues and expenditures are recognized when the underlying event or transaction takes place.

Appropriation: An authorization granted by the legislative body of a government, which permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one-year period by the City Council. Non-operating appropriations, i.e., capital and special projects, continue in force through a budget re-appropriation (or carryover) until fully expended or until the City has accomplished or abandoned the purpose for Council which originally granted appropriation.

Appropriation Resolution: The official enactment by the legislative body establishing the legal authority for officials to obligate and expend resources.

Assessed Value: The value placed on real and other property as a basis for levying property taxes. For all agencies in the State of California, assessed value is established by the County for the secured and unsecured property tax rolls; the State Board of Equalization establishes assessed value of utility property tax rolls.

Balance Sheet: A statement purporting to present the financial position of an entity by disclosing the value of its assets, liabilities, and equities as of a specific date.

Basis of Accounting: The timing of recognition, that is, when the effects of transactions or events are recognized for financial reporting or budgeting purposes. The three bases of accounting for governmental agencies are: (1) cash basis (when cash is received or paid), (2) accrual basis (when the underlying transaction or event takes place) and, (3) modified accrual basis (revenues recognized in the accounting period in which they become available and measurable and expenditures recognized in the accounting period in which the fund liability in incurred).

Bond: A written promise to pay (debt) a specified sum of money (principal or face value) on a specific future date (the maturity date) along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used for long-term debt to finance large-scale capital projects such as buildings, bridges, streets, and utility infrastructure.

Bond Rating: An evaluation of a bond issuer's credit quality and perceived ability to pay the principal and interest on time and in full. Two agencies regularly review city bonds and generate bond rating: Moody's Investors Service and Standard and Poor's Ratings Group.

Budget: A plan for the expenditure of financial resources covering a specific time period, usually one year, which, by adoption, constitutes legal authority to spend. The City of Santa Barbara adopts an annual budget from July 1 – June 30. The budget contains appropriations needed to continue the City's operations for the year and the revenues anticipated to finance them.

Budget Amendment: Under the City Charter, the City Council has the sole responsibility for adopting the City's budget, and may amend or supplement the budget at any time after adoption by a majority vote. The City Administrator has the authority to approve administrative adjustments to the budget, as long as the adjustments will not have a significant policy impact, or affect the bottom-line appropriations for any given department.

Budget Calendar: A schedule of key dates and milestones that a government follows in the preparation and adoption of the budget.

Budgetary Basis of Accounting: The method of accounting applied to the budgetary accounts and the process used to determine when revenues and expenditures are recognized for budgetary purposes. The City of Santa Barbara uses the modified accrual basis for budgeting all funds, including proprietary funds.

Budgetary Control: The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations appropriations and available revenues. The level of budgetary control for City Council is at the department level. For the City Administrator, budgetary control is within a department, at the program level and at the major object level (groupings of individual line-item expenditure categories, for example, salaries and benefits, supplies and services, special projects, and noncapital equipment categories). For departments, budgetary control is at the line-item level within a particular major object group.

Budget Message: A general discussion of the budget presented in writing as a part of, or supplement to, the budget document. The budget message explains the principal issues against the background of financial trends and the priorities set forth in the budget.

Capital Asset: A tangible, fixed asset that is long-term in nature, of significant value, and obtained or controlled as a result of past transactions, events or circumstances. Fixed assets include land, buildings, equipment, improvements to buildings, and infrastructure (i.e., streets, highways, bridges and other immovable assets). A capital asset is defined as an asset with a useful life extending beyond a single accounting period. The capitalization threshold for the City of Santa Barbara is \$10,000.

Capital Expenditure: An amount expended for fixed asset acquisitions and improvements. The capitalization threshold for the City of Santa

Barbara is \$10,000.

Capital Budget: A plan of capital expenditures and the means of financing them. The capital budget is adopted as part of the complete annual budget, including both operating and capital outlays.

Capital Improvement Plan (CIP): A formal long-term (multi-year) plan for the acquisition and improvement of major assets, such as land, buildings, machinery and equipment, and infrastructure (i.e., streets, highways, bridges, and other immovable assets). The CIP identifies the expected beginning and ending date for each project, the amount to be expended in each, and the method of financing those expenditures. The City of Santa Barbara prepares a six-year CIP and the threshold for inclusion in the CIP is \$25,000.

Capital Lease: An agreement that conveys the rights to use property, plant or equipment, usually for a stated period of time.

Capital Projects Fund: A governmental fund type used to account for financial resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds). See also Governmental Fund.

Carryover: Expenditure originally planned in the current year but, because of delays, is postponed to the following fiscal year.

Certificate of Participation: A form of leasepurchase financing used to construct or acquire capital facilities and equipment.

Change in Service: A change in the nature, type or level of service provided by a City program from that provided in the prior fiscal year's adopted budget, as amended.

Community Development Block Grant (CDBG): Grant funds allocated by the federal government to the City of Santa Barbara to use for the prevention and removal of slum and blight, and to benefit low- and moderate-income persons. The City disburses these funds through an annual application process open to all nonprofit organizations and City departments.

Contingency: An appropriation of funds to cover unforeseen events that occur during the fiscal year, such as shortfalls in revenue and similar eventualities, natural disasters, and federal mandates.

Contractual Services: Expenditures for City services performed by firms, individuals or other city departments.

Cost-Reimbursement Basis: The setting of service charges and fees such that costs are systematically recovered on a break-even basis over time. This term is used in connection with internal service funds.

Debt Instrument: A vehicle for borrowing funds,

including general obligation bonds, revenue bonds, lease/purchase agreements, lease-revenue bonds, tax allocation bonds, certificates of participation, and assessment district bonds. See also *Bond*.

Debt Service: Payment of interest and repayment of principal to holders of a government's debt instruments.

Debt Service Fund: A governmental fund type used to account for the payment and accumulation of resources related to general long-term debt principal and interest; debt service payments related to enterprise operations are directly accounted for in the enterprise fund itself. See also *Governmental Fund*.

Debt Service Requirement: The amount of money required to pay interest and principal on outstanding debt and the required contributions to accumulate monies for future retirement of long-term bonds.

Department: An operational and budgetary unit designated by the City Council to define and organize City operations, or a group of related operations within a functional area.

Encumbrance: Legal commitments related to unperformed (executory) contracts for goods and services. At year-end, encumbrances represent a reservation on fund balance.

Enterprise Fund: A proprietary fund type used to account for operations that are financed and operated in a manner similar to private sector enterprises, such that the costs of providing goods and services to the general public are financed or recovered primarily through fees charged directly to the users of the goods or services provided. The City of Santa Barbara has ten enterprise funds, including Airport Operating and Capital, Golf, Downtown Parking, Water Operating and Capital, and Waterfront Operating and Capital Funds. See also Proprietary Fund.

Enterprise Fund Accounting: Accounting used for government operations that are financed and operated in a manner similar to private sector enterprises, and for which preparation of an income statement is desirable. Enterprise Funds use the accrual basis of accounting.

Estimated Revenue: The budgeted projected revenues, which are expected and realizable during the budget fiscal year, to finance all or part of planned expenditures.

Expenditure: The outflow of funds paid, or to be paid, for goods and services received during the current period. Note: an encumbrance is not expenditure; rather it represents a reservation on fund balance.

Expense: The incurrence of liabilities or the consumption of assets arising from the delivery or production of goods, rendering services or carrying out other activities that constitutes the entity's ongoing major or central operation. This

term applies to the City's Enterprise and Internal Service Funds.

Fiduciary Fund: A major fund type used to account for assets held by the City in a trustee, agency or custodial capacity for others. The City of Santa Barbara has pension trust, expendable trust, non-expendable trust, and agency funds within the fiduciary fund type. Expendable trust funds are accounted for in the same manner as governmental funds, using the modified accrual basis of accounting. Pension trust and non-expendable trust funds use the accrual basis of accounting. An agency fund is custodial in nature in that it does not measure results of operations and the assets equal liabilities (i.e., all assets are held solely for the benefit of others).

Fiscal Year: The 12-month period to which the annual operating budget applies, at the end of which a government determines its financial position and the results of its operations. The City of Santa Barbara operates on a fiscal year from July 1 through June 30.

Fixed Asset: See Capital Asset.

Full-Time Equivalent (FTE): The standardized unit of measurement of staffing equal to 2,080 hours of work per year.

Fund: A separate fiscal and accounting entity with a self-balancing set of accounts in which cash and other financial resources, all related liabilities and residual equities, or balances and changes therein are recorded and segregated to carry on specific activities or attain certain objectives in accordance with special regulations, restrictions or limitations. There are three major fund types: governmental, proprietary, and fiduciary.

Fund Balance: From a strict accounting perspective, fund balance represents the excess of assets over liabilities. It also represents the cumulative effect of revenues and other financing sources over expenditures, and other financing uses that are available for reservation, designation or appropriation. A negative fund balance is called a fund deficit.

General Fund: The primary operating fund of a governmental organization that accounts for activities and services not required to be accounted for in another fund, and traditionally associated with governments, such as police and fire service, which are financed primarily through tax, intergovernmental and other non-exchange revenues.

General Obligation Bond: A bond sold to generate financing for various purposes, and to be repaid with normal, unrestricted operating revenue, usually from the General Fund.

Generally Accepted Accounting Principles (GAAP): Uniform minimum standards and guidelines for accounting and reporting. These standards govern the form and content of the annual financial statements of an entity. The

primary authoritative body on the application of GAAP to state and local governments is the Governmental Accounting Standards Board (GASB).

Governmental Activities: Activities generally financed through taxes, intergovernmental revenues, and other non-exchange revenues, and usually reported in governmental and internal service funds.

Governmental Fund: A major fund type generally used to account for tax-supported activities. Governmental funds use the modified accrual basis of accounting. The City of Santa Barbara uses four types of governmental funds: general, special revenue, debt service, and capital projects funds.

Grant: Contributions of cash or other assets donated from one governmental agency or organization to another, and usually restricted for a specific purpose. Typically, these contributions are made to local governments from state and federal governments.

Infrastructure: Facilities that support the daily life and growth of the City, for example, roads, waterlines, sewers, public buildings, parks and airports.

Interfund Reimbursements: Payments from one fund to another to reimburse costs to the recipient fund.

Interfund Transfers: Payments from one fund to another to finance the operations of the recipient fund

Internal Service Fund: Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government on a costreimbursement basis. See also *Proprietary Fund*.

Liability: Debt or other legal obligations arising out of transactions in the past that must be liquidated, renewed or refunded at some future date. Note: the term does not include encumbrances.

Line-Item Budget: A budget that lists detailed expenditure categories separately, along with the amount budgeted for each specified category. The City of Santa Barbara uses program rather than line-item budgeting; however, detailed line-item accounts are maintained and recorded for financial reporting and control purposes.

Major Object: Categorized groupings of individual line-item expenditures that are similar in nature. For example, the City's major object categories include salaries and benefits, supplies and services, special projects, non-capital equipment, capital equipment, and miscellaneous.

Mandate: Legislation passed by the state or federal government requiring action or provision of services and/or programs. Examples include the Americans with Disabilities Act, which requires actions such as physical facility

improvements and provision of specialized transportation services.

Modified Accrual Basis of Accounting: Under the modified accrual basis, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available). "Measurable" means the amount of the transaction that can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. revenues susceptible to accrual include property taxes remitted within 60 days after year-end, investments, and interest on certain intergovernmental and other Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due, or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. All governmental fund types, expendable trust funds and agency funds use the modified accrual basis of accounting.

Objective: Quantified, outcome-based statements of what will be accomplished during the budget year. These annual performance goals are specific, measurable, time-bound, and realistic, yet challenging. Objectives cover day-to-day activities as well as one-time initiatives.

Operating Budget: A plan of financial operations embodying an estimate of planned expenditures for a given period (typically a fiscal year) and the proposed means for financing them (revenue estimates). The annual operating budget, as distinguished from the capital program budget, is the primary means by which most of the financing, acquisition, spending and service delivery activities of a government are controlled. The City of Santa Barbara generally adopts a two-year financial plan that includes the adoption of actual budget appropriations for the first year of the financial plan, and recommendations for year two.

Operating Deficit: The deficiency of operating revenues under expenditures during a single accounting period.

Operating Surplus: The excess of operating revenues over operating expenditures during a single accounting period.

Ordinance: A formal legislative enactment by the City Council. If it is not in conflict with any higher form of law, such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the city.

Outstanding Bonds: Bonds not yet retired through principal and interest payments.

Performance Measure: Quantifiable indicators that measure program workload or progress in achieving program objectives.

Program: A group of activities, operations or organizational units organized to accomplish specific purposes, goals or objectives. It is a distinct functional unit within a department, consisting of a significant service provided using City resources.

Program Budgeting: A method of budgeting that focuses on services provided to customers at the functional (or program) level.

Proposed Budget: This refers to the status of an annual budget, which has been submitted by the City Administrator and is pending public review and City Council adoption.

Proprietary Fund: A major fund type used to account for operations that are financed and operated in a manner similar to private sector enterprises, in that goods and services are provided to the general public (external users) or other City departments (internal users), and the costs of which are financed or recovered primarily through fees and service charges charged directly to the users of the goods and services. Proprietary funds use the accrual basis of accounting.

Reserves: Accumulated funds legally restricted or otherwise designated by management and/or City Council for specific purposes. See also *Fund Balance*.

Revenue Bond: A bond sold to construct a project that will produce revenues pledged for the repayment of principal and related interest.

Revenues: Total amount of income received, earned, or otherwise available for appropriation.

Self-Insurance: A term often used to describe the retention by an entity of a risk of loss arising out of the ownership of property or the activity of the agency.

Service Charge: See User Fee.

Special Revenue Fund: A governmental fund type used to account for the proceeds from specific revenue sources, other than trusts or major capital projects, that are legally restricted to expenditures for specific purposes. See also *Governmental Fund*.

Transient Occupancy Tax (TOT): Tax collected by hotel operators and imposed on hotel guests for transient lodging (30 days or less) within the City. The current TOT rate is 12%, 2% of which is legally restricted for creeks restoration and creeks and ocean water quality improvement pursuant to voter-approved Measure B, effective January 1, 2001.

User Fee: The voluntary payment of a fee for direct receipt of a public service by the party directly benefiting from service.
